Historical Sketch

The University of Alberta is a publicly supported, non-denominational, co-educational institution. It is a member of the Association of Commonwealth Universities and of the Association of Universities and Colleges of Canada.

The University’s main campus of 89 hectares borders the wooded southern bank of the North Saskatchewan River and lies about two miles from Edmonton’s business centre. Away from the main campus, the University Farm occupies approximately 148 hectares; other holdings include the botanical gardens near Devon and lands as far away as Fort Assiniboine. A considerable area is held under rental agreements, including the Ellerslie farm and the Kinsella ranch.

Some two dozen major teaching and research buildings are situated on the campus as well as two affiliated colleges, six halls of residence, the Students’ Union, and service buildings. Michener Park, once part of the Kinsella ranch.

The Beginnings of the University

Excerpt from University Beginnings in Alberta, by RK Gordon.

We were a small, light-hearted company, hardly more than a score of us; and all of us were young. We lived in a clearing in the poplar bush on the south bank of the North Saskatchewan River. On the sloping sides of the great valley and on the flats below the coyotes barked and howled at night, but on top of the bank we felt sure that the future belonged to us, not to the coyotes.

On the sloping sides of the great valley and on the flats below the coyotes barked and howled at night, but on top of the bank we felt sure that the future belonged to us, not to the coyotes.

Alberta became a province in 1905. In 1906 the first session of legislature passed an act to authorize the establishment of the University of Alberta. The act’s sponsor was Alexander Cameron Rutherford, Alberta’s first Premier and first Minister of Education. His government purchased the site in what was then Strathcona, and Dr Rutherford himself persuaded Henry Marshall Tory to leave McGill to become the University’s first President, an office he held from 1908 to 1928.

The act permitted all resident graduates of British and Canadian universities to register as members of Convocation. Convocation elected five members to a Senate; the government appointed ten more. The Senate, acting as the governing body of the University, established the Faculty of Arts and Science as the core of the new institution. In 1910 a revision of the University Act constituted the Board of Governors, with powers of business management and administration.

Classes opened in September 1908, in what is now Queen Alexandra School with forty-five students and a faculty of five: WH Alexander, Classics; EK Broads, English; WM Edwards, Mathematics; LH Alexander, Modern Languages; and Dr Tory himself. Thence they moved to the upper floor of old Fort Edmonton, but they were not long allowed to cumber the landscape. The new, raw, bustling city was not interested in a reminder of its humble beginnings. The future was the thing, and of the dazzling glory of that future nobody was so mean-spirited as to entertain the slightest doubt.

Alberta entered the First World War in 1914. Though war naturally disrupted the University’s life, there was a determination to preserve its essential being while using its facilities as fully as possible in relation to the national effort. The Air Force took over the three residences and out-of-town students, whose number had not substantially declined, flocked into Garneau boarding houses and made use of a new cafeteria known to later generations as Hot Caf (which was demolished in 1969 to provide the site for the Central Academic Building). Medicine, Dentistry, and Education offered accelerated courses. Engineering offered special courses to members of the armed services. No more important development took place than the acceptance in 1945 by the University of sole responsibility for the training of Alberta teachers. The School of Education, established in 1928, became a faculty in 1942, and after the war it became, in terms of enrolment, the largest in the University.

Robert Newton was named President in 1941. He played an important part in the framing of the University Act of 1942, which transferred from the Senate to the General Faculty Council jurisdiction over academic matters and vested all final authority in the Board of Governors, whose jurisdiction had previously been confined to finance.

Years of Expansion: 1945 to 1969

With the end of the war, a flood of veterans poured into the University and registration rose from 2,023 in 1943–44 to a peak of nearly 5,000 in 1947–48. Accommodation in classrooms, laboratories, and libraries was pathetically inadequate, and housing was generally even less satisfactory. Army huts only partially relieved the pressure. By 1947 student numbers had tripled from 48 in 1915 to 1,560 in 1929 to 2,337 in 1939. Full-time teaching staff increased even more slowly. The budget actually fell and did not recover to its pre-depression level until after the war. No new building took place after the present Corbett Hall was completed. (Corbett Hall was originally constructed as a provincial normal school, not a University building.) RC Wallace succeeded President Tory in 1929, and in 1936 was followed by WAR Kerr, who had been the first Dean of the Faculty of Arts and Science. The affiliation of Mount Royal College in 1931 marked a beginning of university work in Calgary. The Banff School of Fine Arts opened in 1933 and the Western Board of Music was established in 1931. Entrance to the University from Grade 11 was abolished in 1937. In 1930 fraternities were permitted; a less controversial change was the abolition of the old practices involved in freshman initiation.

Students’ Union was established during the first session and the first
pre-war figures, but full-time teaching staff did not even double. Thereafter the pace of campus development slowly increased. New wings were added to the Music Building in 1947 and a new Student Centre in 1948. The first Student Union, which opened in 1950, the Rutherford Library and the Engineering Building in 1951, and the Agriculture Building in 1953 (now, after enlargements and renovations, the Earth Sciences Building). The Administration Building dates from 1957.

The hectic post-war years merged into the slower growth of the 1950s. Andrew Stewart became president in 1950 and was succeeded by Walter H Johns, who served from 1959 to 1969. In that ten-year period the enrolment rose from approximately 5,000 to 17,500, as the post-war generation came to university age.

This unprecedented increase in numbers made necessary the rapid construction of new buildings during the 1960s. The Physical Education Building, the Physical Sciences Building, and additions to the Medical and Engineering Buildings were followed by the Education Building in 1963, the Donald Ewing Cameron Library, the Household Economics Building, and the new Music Building. The origins of the student Union is reflected in the classification of Graduate Studies as a faculty in 1957, in the division of the Faculty of Arts and Science into two faculties in 1963, and in the foundation of a number of new centres and institutes dedicated specifically to research. A School of Library Science was created in 1968; an independent Faculty from 1975 to 1991, it is now, as the School of Library and Information Studies, a unit within the Faculty of Education. Outside of Edmonton, the University’s work in Calgary, instituted in 1951, greatly expanded and an affiliated junior college was established in Lethbridge. These became separate universities in 1966. Other junior colleges in Medicine Hat, Camrose, Red Deer, and Grande Prairie became affiliated with the University to help bring higher education to more areas of the province.

Recent Years

Max Wyman, the first graduate of the University to become its president, took office in 1969 and served until 1974; Harry Gunning followed from 1974 to 1979; Myer Horowitz from 1979 to 1989; and Paul Davenport from 1989 to 1994. Roderick Fraser took office at the beginning of 1995. During these years new problems arose, as a levelling of student numbers and worldwide inflation made the University’s projected budgets less adequate than had been expected.

In the 1980s a gradual increase of student numbers resumed, reaching almost 25,000 full-time and more than 4,000 part-time students in 1986-87. Buildings already begun were completed one by one: the Biological Sciences Centre and the Central Academic Building in 1970, the Law Centre in 1971, and the Basic Medical Sciences Complex and the Engineering Centre, Phase II, in 1972. In 1972, also, the first residents moved into the Housing Union Building, designed and financed on the initiative of the Students’ Union. Since then, the Humanities Centre, the Fine Arts Building, one phase of a proposed expansion of the Rutherford Library, and additions to the Chemistry Building and Education Building have successively come into use. In 1978, following several years of moratorium on construction, ground was broken for a new Agriculture and Forestry Building; it was completed and opened in October 1981. Part of the Walter C Mackenzie Health Sciences Centre was opened in 1982, and a new building for the Faculty of Business was completed in 1984. A renewed awareness of the value, both architectural and practical, of the University’s older buildings led to a decision to renovate, rather than demolish, Pembina Hall. Pembina’s transformation into a fully modern graduate student residence was so successful that it earned national recognition in the form of a Heritage Canada Award. Athabasca Hall underwent an even more drastic transformation, as its wooden construction needed to be completely replaced with modern materials; the renovated building was reopened in the autumn of 1977 and received a Heritage Canada Award in its turn. A similar rebuilding of Assiniboia Hall was completed in 1982. Convocation Hall was also renovated, and a new organ installed; several recitals on this instrument have been nationally broadcast since it was inaugurated in 1978. Renovation of the Arts Building was completed in the spring of 1988.

In 1970 the Collège Saint-Jean, in South Edmonton, became an integral part of the University as the Collège Universitaire Saint-Jean; in May of 1978 it became the University’s newest faculty when the name officially changed to Faculté Saint-Jean. It offers a bilingual program of courses in Arts, Science, and Education. A School of Native Studies, providing a curriculum and a learning environment designed specifically to meet the needs of Canada’s Aboriginal peoples, was founded in 1980.

Spring Term (a six-week period between the end of the regular Fall/Winter and the beginning of Summer Term), during which intensive courses are offered, was inaugurated in 1972 and proved to be an immediate success.

The importance of scholarly publishing in the academic community was recognized when the Board of Governors formally established the University of Alberta Press. Although at first without regular staff, the Press nevertheless succeeded in publishing a small group of works of high quality. The appointment of Les Gutteridge as the first Director of the Press in 1977 placed its operations on a more adequate basis; since then it has issued a number of works of scholarly value each year. The publication in July 1981, of A History of the University of Alberta, by former president Walter H Johns, was a sign of the maturity both of the University and of the Press.

In 1983 the University celebrated the seventy-fifth anniversary of its foundation in a way that illustrated its significance in Canada and the international community. HRH the Prince of Wales received an honorary doctorate at a special convocation, and opened the World University Games, which attracted more than 6,000 participants from 87 countries to a wide variety of athletic and cultural events. The Universiade Pavilion, the Tennis Centre, and new student housing in Garneau, all completed in time to be used during the games, remain as reminders of the occasion.

In the 1980s the University was severely affected by retrenchments in the federal government’s budget for research, as well as by increased student numbers and worldwide inflation. Nevertheless, during the period, the Press continued to publish a small group of works of high quality. The publication in 1985, of A History of the University of Alberta, by former president Walter H Johns, was a sign of the maturity both of the University and of the Press.

In the 1980s the University was severely affected by retrenchments in the federal government’s budget for research, as well as by increased student numbers and worldwide inflation. Nevertheless, during the period, the Press continued to publish a small group of works of high quality. The publication in 1985, of A History of the University of Alberta, by former president Walter H Johns, was a sign of the maturity both of the University and of the Press.

On November 15, 1909, a motion by the faculty recommended to the Senate the adoption by the University of the provincial coat of arms, with the addition of an open book above the shield and the motto Lux et Lex; the words “University of Alberta” were to be attached as might seem fit. The present motto was substituted in January 1911 for the one originally proposed. In 1950 the representation of the coat of arms was altered to conform better to the principles of heraldic design but these arms were never actually registered.

In 1994 a new coat of arms incorporating a number of traditional symbols associated with the University or the Province, or with learning, was officially...
granted by the Canadian Heraldic Authority. In non-technical language, it consists of the following elements:

**Shield:** a representation of the topography of Alberta (wheat fields, hills, rivers, and the Rocky Mountains) derived from the provincial coat of arms, and a book symbolizing learning.

**Crest:** a Great Horned Owl, the provincial bird and a traditional symbol of wisdom.

Supporters: a pronghorn, taken from the provincial coat of arms, and a golden bear, long the University mascot, standing on a mound of wild roses, the floral emblem of Alberta.

**Motto:** Quaecumque vera.

The arms are copyrighted and may not be used without permission of the Board of Governors. The name of the University is similarly protected.

### The University Colors

The original suggestion for green and gold University colors came from Marion Kirby Alexander, who drew her inspiration from the autumn colors of the river valley below the campus. Her husband, William Hardy Alexander, 

### Academic Costume

**Undergraduate Degrees**

All undergraduate and master's degree gowns are the customary Cambridge shape, i.e., a gown of black material falling below the knee with full sleeves cut to the elbow and terminating in a point. Hoods are made in the Oxford pattern of spruce green material. The Bachelor's hood has a border three inches wide of the color distinctive of the Faculty as noted below. The Masters' hood has a full lining of the color distinctive of the Faculty also noted below. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

### Doctorate Degrees

Doctors' gowns (PhD, DMus, and EdD) conform to the Intercollegiate Code in design. They are made of black material and the velvet trim on the sleeves is Philosophy Blue for the PhD and DMus, and Education Light Blue for the EdD. Doctor's hoods conform to the Intercollegiate Code in shape, size, and color. They are made of black material to match the gown, and have a full lining of gold satin with a six-inch green satin chevron. The velvet trim distinguishes the two degrees and matches the velvet trim on the gown's sleeves. There is a narrow green piping where the gold lining joins the black material. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

### Honorary Degrees

Honorary Doctors of Laws (LLD), Letters (DLitt), and Science (DSc) wear a scarlet robe faced with white silk. Hoods are made in the Cambridge form of scarlet silk with a full lining of white silk. Caps are black velvet with a gold tassel.

1998 - 1999 Kimberly Speers
1999 - Laura Bennett

The Universities' Coordinating Council consists of the following representatives of each university in Alberta: the President, the Vice-President (Academic) and Vice-President (Finance), two Deans and two other members of the academic staff appointed by the General Faculties Council, and not more than three other members of the academic staff appointed by the Coordinating Council itself. The Chair is elected by the Council, but shall not be elected from the representatives of one university for more than three consecutive years. The Council may appoint a secretary and prescribe his or her powers, functions and duties.

The Council inquires into anything that it’s opinion calls for cooperative action on the part of the General Faculties Councils, and makes recommendations thereon to any General Faculties Council or the Minister of Advanced Education; it may give its advice and opinions to the General Faculties Council or to the Minister on any matter. It may make recommendations to the Board of Governors of a University or to the Minister. It may determine minimum standards for the affiliation of colleges or other institutions with the Universities, and may recommend that an affiliation agreement be made, modified, or dissolved. It gives or withholds its approval of standards or policies proposed by a General Faculties Council with regard to the admission of first-year students to any University. It has jurisdiction over the conditions of entrance to certain learned professions and callings.

The Universities Coordinating Council

222.1 Introduction

The main lines of the constitution of the University of Alberta are laid down in the Universities Act assented to April 15, 1966.

222.2 Reserved

222.3 The Universities Coordinating Council

222.3.1 General Information

The Universities' Coordinating Council consists of the following representatives of each university in Alberta: the President, the Vice-President (Academic) and Vice-President (Finance), two Deans and two other members of the academic staff appointed by the General Faculties Council, and not more than three other members of the academic staff appointed by the Coordinating Council itself. The Chair is elected by the Council, but shall not be elected from the representatives of one university for more than three consecutive years. The Council may appoint a secretary and prescribe his or her powers, functions and duties.

The Council inquires into anything that it’s opinion calls for cooperative action on the part of the General Faculties Councils, and makes recommendations thereon to any General Faculties Council or the Minister of Advanced Education; it may give its advice and opinions to the General Faculties Council or to the Minister on any matter. It may make recommendations to the Board of Governors of a University or to the Minister. It may determine minimum standards for the affiliation of colleges or other institutions with the Universities, and may recommend that an affiliation agreement be made, modified, or dissolved. It gives or withholds its approval of standards or policies proposed by a General Faculties Council with regard to the admission of first-year students to any University. It has jurisdiction over the conditions of entrance to certain learned professions and callings.

The Chancellor

Chancellor of the University
LE Hole, OM

The Chancellor is titular head of the University, and represents the public interest in the University. Elected for a four-year term of office by the Senate, the Chancellor is chair of the Senate, an ex officio member of the Board of Governors, confers all degrees and represents the University at ceremonial occasions.

The President and Vice-Chancellor

President and Vice-Chancellor
RD Fraser, BA, MA, PhD

The President, who is also the Vice-Chancellor, is ex officio a member of the Universities Coordinating Council, the Board of Governors, the Senate, and all faculty councils. The President chairs meetings of General Faculties Council and Deans’ Council. He is entrusted with the general supervision of the academic work and the business affairs of the University and may recommend to the Board of Governors on any matter affecting the University.

The Vice-Presidents

Vice-President (Academic) and Provost
DR Owram, PhD

The Vice-President (Academic) and Provost is the senior vice-president. In the absence or incapacity of the President, or when the presidency is vacant, he is the Acting President.

Vice-President (Finance and Administration)
G Harris, MAsc

Vice-President (Research and External Affairs)
RS Smith, PhD

The Board of Governors

Chair, EF Newell
Vice-Chair, LE Malin

Members

Statutory Members
LE Hole, OM, Chancellor of the University
RD Fraser, BA, MA, PhD, President of the University
Alumni Representatives
P Graham, BComm
LE Malin, BA, LLB, QC
Senator Representative to the Board
J Cosco

Academic Staff Representatives
W Allegretto, BASc (Electrical Engineering), PhD
Vacant

Non-Academic Representative
LAichen

Student Representatives
M Chalk, SU President
L Bonnett, GSA President
J McNaught, Student Representative

Public Representatives
F Barth, CA, FCA
R Grieve, PEng
D Lennie, BA
J Mah, BA, LLB, QC
D Mazanowski, LLB (R Hon), PC, DBE
O Minson, BSc, MBA, LLB, QC
EP Newell, BSc, MSc, LLB, PEng, FCAE
C Roozen, BComm
J Stanford, BSc

Board Secretary
L Stulko

The Board of Governors is a corporation with the name “The Governors of The University of Alberta.” It consists of a Chair appointed by the Lieutenant-Governor in Council, the Chancellor, the President, and 17 other persons appointed by the Lieutenant-Governor in Council. Of the 17, two are members of the Alumni Association nominated by the Association, one is a member of the Senate nominated by it from those of its members who are not on the University Staff, two are members of the academic staff nominated
by the General Faculties Council, one is a member of the non-academic staff nominated by the non-academic staff, one is a student nominated by the Graduate Students’ Association, two are students nominated by the Students’ Council, and eight are appointed as representatives of the “general public.”

The conduct, management, and control of the University and all its property, revenue, business, and affairs are vested in the Board. The Board appoints the deans of all faculties, all members of the teaching staff, the Librarian, the Registrar, and all members of the administrative staff, but no one may be appointed to a senior administrative post or to the academic staff of the University unless first nominated by the President of the University. The Board provides for the maintenance of buildings and the erection of new buildings. It has authority to purchase and acquire such property as it may deem necessary for the purposes of the University. It fixes the various fees charged in connection with university courses and it makes financial provision for the establishment of new faculties, departments, and courses. It may establish arrangements designed to contribute to the educational and cultural advancement of the people of Alberta at large. When any question arises as to the powers or duties of the Senate or any other University body or of the President or a dean or other officer or employee, and these powers and duties are not definitely provided for in The Universities Act, the Board’s decision on the question is final.

The Senate is an advisory body which acts as a bridge between the University and the public. The Chancellor of the University is Chair of the Senate, which has 62 members, 30 of whom are elected from the general public, and nine of whom are appointed from the public by the Minister of Advanced Education.

It is the mandate of the Senate to inquire into any matter that might tend to enhance the usefulness of the University. It is specifically authorized to interpret the University to the public, to require reports from faculty councils, the Students’ Council, and any members of the academic staff; to receive and consider submissions from anyone interested in the University; to arrange for public meetings, radio and television programs and other means of providing and acquiring information on the University; as a consequence, to make reports and recommendations to the Board or the General Faculties Council or other appropriate body. In addition, the Senate may authorize the conferring of Honorary Degrees.

The Senate brings together the University and the public. Although it has little formal decision-making power, it seeks to stimulate discussion on issues of concern and to aid in their resolution. It is a two-way link between the public and the University.

General Faculties Council

Ex officio Members

The President
The Vice-Presidents
The Deans of the Faculties
The Director of the School of Library and Information Studies
The Director of the School of Native Studies
The Chief Librarian
The Registrar

Elected Members

46 members elected by and from the faculty

Statutory Student Members

2 Undergraduate students
1 Graduate student

Appointed Members

3 Members of the non-academic staff
3 Librarians
2 Representatives of the academic staff on the Board of Governors, 1 representative of the non-academic staff on the Board of Governors and 23 student representatives on the Board of Governors
General Faculties Council (GFC) consists of the President, the Vice-President, the Deans, the Librarian, the Registrar, elected members representing the Faculties and appointed members, including students. The number of elected staff members is twice that of the ex officio members and the number of appointed student members equals the number of elected staff members. General Faculties Council, subject to the authority of the Board of Governors, is the senior academic body of the University. It provides for the granting and conferring of degrees, for the approval of courses and programs of study, and for the hearing of certain appeals. GFC determines standards and policies respecting admission of students and it may make recommendations to the Board on affiliation of other institutions, on academic planning, campus planning, the budget, procedures regarding the appointment, promotion and dismissal of academic staff, and any other matter which it considers to be of interest to the University. It has the general supervision of student affairs.

Deans’ Council
EA Schoeck, BA (Hons), MA, Secretary

Deans’ Council is an advisory body to the President, the Board of Governors, and to General Faculties Council. It consists of the President, the Vice-Presidents, the Dean of each Faculty, the Director of the School of Native Studies, the Registrar and the Chief Librarian.

222.5 Faculty Councils

Each Faculty, except that of Graduate Studies and Research, has a council consisting of the President, the dean of the Faculty, all full-time members of the academic staff of the Faculty, a representative of each of the appropriate professional societies associated with the Faculty appointed by General Faculties Council on the recommendation of the Faculty Council, and other persons appointed by General Faculties Council on the recommendation of the Faculty Council. The Council of the Faculty of Graduate Studies and Research consists of the President, the Dean, and other persons appointed by General Faculties Council.

Each Faculty Council, subject to the control of General Faculties Council, arranges the courses of study falling within its jurisdiction and provides for the setting of examinations and for determining the results. It deals with admissions and withdrawals and authorizes the granting of degrees in branches of learning within its jurisdiction.

222.6 Other Administrative Offices

Office of the Vice-President (Academic) and Provost

DR Derram, PhD, Vice-President (Academic) and Provost
BP Dancuk, PhD, Associate Vice-President (Academic)

223.2 University Library

The resources of the University of Alberta Library system comprise one of the major research collections in Canada. The system consists of numerous subject collections with a total of over 3,600,000 volumes, 735,000 government documents, 18,000 serial subscriptions, 400,000 maps, 1,000,000 air photos, and audiovisual resources, and a large collection of research materials in microform.

Collection access is provided through an online catalogue system, and assistance is offered in accessing other libraries and information resources worldwide through computer networks. The Library offers electronic literature searching of several hundred commercial databases, and provides interlibrary loan service through a network of research collections in North America and around the world.

The Humanities and Social Sciences Library includes, in the Rutherford Library, collections of monographs, bound periodicals, and government documents numbering about 1.7 million volumes, a very large collection of materials in microformats (more than 500,000 items), over 4,500 current periodicals in the Reading Room in Rutherford South, plus a significant collection of Canadian and foreign newspapers. The business reference library is located at the Winspear Reading Room in the Business Building. In addition, older HSS research resources numbering about 400,000 volumes are housed offsite at the Book and Record Depository (BARD). A large reference collection of electronic databases, CD-ROM products, indices, handbooks, and statistical sources provides access to the literature in the humanities and social sciences.

The Bruce Peel Special Collections Library is located on the lower level of Rutherford South. This collection of approximately 100,000 volumes houses the University’s rare books in the humanities and social sciences. It also includes some literary manuscripts, some private papers, Western Canadian papers, and the archival collection of all the University of Alberta theses and dissertations. Major holdings in English literature include John Bunyan, John Milton, DH Lawrence, 18th century plays, and three-decker novels with emphasis on the Minerva Press. Western Canadiana is another collection area, as is 20th century fine printing from England, the United States, and Canada. Special Collections also houses the Javitch collection of North and South Amerindian materials.

The Science and Technology Library occupies the first four floors of Cameron Library. The collection includes information resources in the formats in the areas of science, engineering, agriculture, forestry and home economics. This library includes three unique collections. The William C Wonders Map Collection, the Science and Technology Special Collection, and the Canadian Circumpolar Collection, specializing in information about the Arctic and sub-Arctic regions of the world. This library also has two branches: the Mathematics Branch Library, located in the Central Academic Building, and the Physical Sciences Branch Library, located in the Chemistry Building.

Cameron Library also houses Information Technology Services, Bibliographic Services, Administrative Services, Interlibrary Loans/Document Delivery, and the ONEcard Office.

The John W Scott Health Sciences Library, in the Walter C Mackenzie Health Sciences Centre, contains information resources in all formats for the health sciences. The collection includes a reserve collection for these subject areas and a reference collection. Historical material is found in the Phyllis Russell Rare Book Room.

The John A Weir Memorial Law Library is in the Law Centre located on 111th Street and 88th Avenue. The Library contains law reports, statutes, and regulations for the Canadian federal, provincial, and territorial government, the United Kingdom, other Commonwealth countries, and the United States. It also has periodicals, treatises and textbooks, government documents, and reference sources. The collection includes books, microform materials, audio and video tapes, and access to electronic databases. The Library has extensive collections in oil and gas, health, and communications law. The resources of the University of Alberta Library system comprise one of the major research collections in Canada. The John W Scott Health Sciences Library, in the Walter C Mackenzie Health Sciences Centre, contains information resources in all formats for the health sciences. The collection includes a reserve collection for these subject areas and a reference collection. Historical material is found in the Phyllis Russell Rare Book Room.

The John A Weir Memorial Law Library is in the Law Centre located on 111th Street and 88th Avenue. The Library contains law reports, statutes, and regulations for the Canadian federal, provincial, and territorial government, the United Kingdom, other Commonwealth countries, and the United States. It also has periodicals, treatises and textbooks, government documents, and reference sources. The collection includes books, microform materials, audio and video tapes, and access to electronic databases. The Library has extensive collections in oil and gas, health, and communications law. The resources of the University of Alberta Library system comprise one of the major research collections in Canada. The system consists of numerous subject collections with a total of over 3,600,000 volumes, 735,000 government documents, 18,000 serial subscriptions, 400,000 maps, 1,000,000 air photos, and audiovisual resources, and a large collection of research materials in microform.

Collection access is provided through an online catalogue system, and assistance is offered in accessing other libraries and information resources worldwide through computer networks. The Library offers electronic literature searching of several hundred commercial databases, and provides interlibrary loan service through a network of research collections in North America and around the world.

The Humanities and Social Sciences Library includes, in the Rutherford Library, collections of monographs, bound periodicals, and government documents numbering about 1.7 million volumes, a very large collection of materials in microformats (more than 500,000 items), over 4,500 current periodicals in the Reading Room in Rutherford South, plus a significant collection of Canadian and foreign newspapers. The business reference library is located at the Winspear Reading Room in the Business Building. In addition, older HSS research resources numbering about 400,000 volumes are housed offsite at the Book and Record Depository (BARD). A large reference collection of electronic databases, CD-ROM products, indices, handbooks, and statistical sources provides access to the literature in the humanities and social sciences.

The Bruce Peel Special Collections Library is located on the lower level of Rutherford South. This collection of approximately 100,000 volumes houses the University’s rare books in the humanities and social sciences. It also includes some literary manuscripts, some private papers, Western Canadian papers, and the archival collection of all the University of Alberta theses and dissertations. Major holdings in English literature include John Bunyan, John Milton, DH Lawrence, 18th century plays, and three-decker novels with emphasis on the Minerva Press. Western Canadiana is another collection area, as is 20th century fine printing from England, the United States, and Canada. Special Collections also houses the Javitch collection of North and South Amerindian materials.
Distinguished Alumni Awards/Alumni Wall of Recognition

Four awards are given each year to alumni in recognition of distinguished achievements in a profession and/or for significant contributions to society or the welfare of others. Distinguished Alumni Award winners are inducted onto the Alumni Wall of Recognition. The Wall of Recognition, housed in the Student’s Union Building was launched in 1994 to honor and promote the diverse achievements and valuable contributions of University of Alberta Alumni to their chosen professions, to their communities, and to society.

Alumni Scholarships and Awards

In addition to conferring its Distinguished Alumni Awards, the Association sponsors scholarships for future alumni (undergraduate and graduate students) and presents special education awards to outstanding alumni. The recently expanded alumni awards program includes Alumni Awards of Excellence, which recognize major achievements in the previous year; the Alumni Horizons Awards, which celebrate the achievements of alumni early in their career; and the Alumni Recognition Awards, which recognize the significant contributions made over a number of years by University of Alberta alumni in their local communities and beyond. In addition to other Association scholarships, Alumni Council members have initiated a new Millennium Scholarship program, which grants a scholarship to a deserving graduate and undergraduate student annually.

Alumni Branches

These groups of alumni have their own constitution and executive committees and operate under the auspices of the Association. Branch representatives organize social and educational functions for graduates in their area. Branches are located in numerous Canadian cities and in several foreign countries.

Faculty Associations

Constituent Alumni Associations are organized for the following faculties, departments, and special interest groups: Law, Rehabilitation Medicine, Medicine, Dentistry, Pharmacy, Business, Nursing, Library and Information Studies, Education, Health Services Administration, Forestry, Drama, Native Studies, East Asian Studies, and Mixed Chorus. Administered by the Alumni Association with the cooperation of facultypartment and staff and graduates, these associations serve to promote the welfare of their specific faculty/department or area of special interest.

Class Representatives

Students in their senior year are regularly invited to volunteer for the position of class representative for their department/faculty. Class representatives assist classmates in maintaining contact with one another and the University by organizing reunions and preparing class newsletters. Representatives link the class and the Association.

Reunion Weekend

Organized annually by the Association. You’re invited. And if you’re about to celebrate your 10th, 15th, 20th or more anniversary of graduation, we’d be happy to help organize a class reunion.

Newsletter Service

The Association absorbs all costs of mailing one newsletter per year for each class. Class representatives simply send a typed copy to the Alumni Office and we do the rest. If you are organizing a reunion, we’ll send two newsletters that year.

Official Alumni Mementos

In addition to official University of Alberta degree and picture frames, the Association offers special edition memorabilia to alumni.

Host Family

In conjunction with the University International Centre, alumni families are invited to share friendships and experiences with foreign students attending university.

226 Affiliated Colleges

226.1 On-Campus Colleges

Two denominationally-sponsored colleges, with buildings on campus, are related to the University by an agreement described as affiliation, and offer courses that may be taken for degree credit by students of the University.

226.1.1 St Joseph’s College

Academic Staff of the College

President
T Scott, csb, BA, MA, MDiv, SSL, STD
Academic Dean
TF Hartnegel, BA, MA, PhD

Philosophy

Associate Professor
JA Buijs, MA, PhD

Theology

Associate Professor
PJ Flaman, BA, STD
Assistant Professors
RB Sheard, MA, BEd, PhD
D Vervoort, ndl, MA (Professor Emeritus)

Lecturers
DBittner, csb, BS, MDiv, MA
RM Hague, MEd, MTh, PhD
Lamsroun, MDiv, MCS, DDS, PhD, PhD
RM Mills, BSc, BEd, MEd, MTh
T Oosterhuis, BA, BDiv, ThD
R Wanner, BA, BEd, MRE, MRE, MEd, MAS

Assistant to the President for Development
C Panas

Director of Residence
P Fulton, csb, BA, MDiv

General Information

St Joseph’s College was established by the Roman Catholic Church and incorporated by the Legislature of Alberta and affiliated with the University of Alberta in 1926 to provide a Catholic dimension to postsecondary education. In collaboration with the University, the College contributes to liberal education through studying the Judeo-Christian intellectual and religious tradition and applying it to contemporary issues.

Courses Offered for University Credit

St Joseph’s offers courses in philosophy and theology to all students registered at the U of A for credit toward a BA degree or as Arts options open to students in other faculties. The College also operates a Catholic Ethics Centre.

Christian Theology

For courses taught by St Joseph’s College in Christian Theology see §201 (Course Listings).

Philosophy

For courses taught by St Joseph’s College in Philosophy see §201 (Course Listings).

226.1.2 St Stephen’s College

Academic Staff of the College

Principal
C Levan, MA, PhD
Academic Dean
E Sharam, MA, DPhil

Teaching Faculty
W Anderson, BA, BTh, MDiv, PhD
L Brin, BS
FA Hare, DMin
R Laplante, BEd, BTh, MRE, DMin
K Lund, BSc, MDiv, LTS

General Information

St Stephen’s College, an undergraduate and graduate theological school of the United Church of Canada, established by Provincial Charter, has been
affiliated with the University since 1908 and works on a broadly ecumenical basis, integrating faith and theology with practice and experience.

Courses Offered for University Credit

By an arrangement with the University, courses in Biblical Literature, Christian Theology, and Faith Development taught in St Stephen’s College are open to students of the University for credit toward the Bachelor of Arts degree, or as Arts options open to students in other Faculties. For information about courses offered, see §201, Course Listings.

Non-Credit

The College provides a variety of short-term, non-credit courses and lectures of a professional and interdisciplinary nature for professional church workers and laity, and these courses are open to members of the University.

Degree Courses

The College offers graduate theological degrees: a professional Doctor of Ministry (DMin), an academic Master’s Degree (MTS), a Master of Theological Studies (MTS) for lay persons, a Master of Arts in Spirituality and Liturgy, and a Masters of Arts in Pastoral Psychology and Counselling. Enquiries may be directed to the office (780) 439–7311.

226.2 Off-Campus College

North American Baptist College, Edmonton has a formal affiliation agreement with the University of Alberta, under which certain courses offered by the college will be accepted by the University for transfer credit.

226.3 Public Colleges and Technical Institutes

Formal affiliation agreements do not exist between the University and the public colleges or technical institutes in the Province. However, arrangements are in place which allow for the transfer of students from these postsecondary institutions to the University of Alberta (See §14.2).

227 Associated Institutions and Agencies

Northern Health Services Program

See §91.2.3.

Alberta Research Council Inc. (ARC) develops and commercializes technologies to give customers a competitive advantage. The corporation performs applied research and development on a contract or fee basis, and co-ventures with others to develop new technologies, deriving a return on investment from the commercialization of new products and services. ARC is well known for its work in the following areas:

Agriculture, Bioscience and Health Technologies

• Integrated pest, disease and weed management, development of diagnostic tools and control agents to reduce crop losses, and development of new strains of crops to increase productivity
• Scale up and manufacture of biotechnology-based products including vaccines to improve animal health
• Synthesis of novel carbohydrates for diagnostic and therapeutic application
• Application of advanced computer and telecommunications technology to the more effective and efficient delivery of health information and knowledge
• Decision support through data analysis and mining
• Web-based systems architecture and software design
• Livestock identification and tracing throughout the food processing chain

Energy Technologies

• Conventional and heavy oil recovery and production technologies, reservoir management processes and protocols, novel downhole and surface oilfield equipment, specialty sensors and instrumentation
• Oil sands upgrading technologies for improved recovery and cost efficiency
• Pipeline maintenance planning
• Non-conventional energy production

Forest Technologies
• Engineered wood products, improved pulping and papermaking processes and alternate fibre sources
• Sensors and process control systems to improve plant efficiency and cost effectiveness
• Remote sensing, geomatics and modeling to support and enhance the sustainable management and use of forest and wildlife resources

Industrial Processes and Services
• Research to understand and mitigate the impact of industrial activities on air, water and land resources, including climate change, greenhouse gases and CO₂ management strategies
• Clean process and waste minimization technologies
• Advanced environmental analysis and toxicology
• Advanced materials applications and testing
• Specialty analytical services
• Development and commercialization of specialized ceramic materials and component parts for use in high-performance electronic devices
• Industrial engineering, automation and rapid response manufacturing

The University of Alberta Hospital operates under the Capital Health Authority (CH), one of 17 regional health authorities in Alberta. CH serves a population of 775,000 from Edmonton, St Albert, Leduc and Strathcona County, as well as patients from across Alberta in various specialized programs. CH is responsible for all acute care, public health, home care and long-term care in the region.

CH is closely allied with the University of Alberta and other postsecondary education institutions in Edmonton.
