140 The Faculty of Rehabilitation Medicine

Mission Statement

The purpose of the Faculty of Rehabilitation Medicine is to promote knowledge and application of rehabilitation principles and methods through excellence in education, research, service and community partnerships.

141 The Professors

141.1 Teaching and Scholarship

We are proud to highlight a few of the outstanding accomplishments achieved by our professors in 1997/98:

- Professor Sandy Rennie (Physical Therapy) receives the 1998 Rutherford Award for Excellence in Undergraduate Teaching.
- The Faculty of Rehabilitation Medicine leads the U of A with six Academic All-Canadians, and Sarah Joly wins the Kathleen Yetman Memorial Award for the U of A Female Athlete of the Year.

142 General Information

The importance of Medical Rehabilitation was recognized by the University when it established a program in Physical Therapy in 1954 and a program in Occupational Therapy in 1960. The Division of Speech Pathology and Audiology first offered courses in 1969.

142.1 Undergraduate Programs

Four-year degree programs are offered in the Departments of Physical Therapy and Occupational Therapy. Applicants to the Department of Occupational Therapy must complete a preprofessional year before enrolling in this program. All students must undertake clinical practice during their course of study in approved institutions under the supervision of qualified professional staff. An honorarium may be paid by these institutions while the student is serving the internship during the summer.

142.2 Programs for Master's Degrees

Master of Science in Physical Therapy

The Department of Physical Therapy offers a research program leading to the degree MSc in Physical Therapy. A thesis is part of the requirement of the program. Students may choose from a number of areas of study, which must be compatible with the research interests of the faculty members. The program normally requires two years, but the time may vary according to the academic background of each student. It is possible to enter the program in January, May, or September.

For further information, contact the Chair, Graduate Program Committee, Department of Physical Therapy, Faculty of Rehabilitation Medicine, University of Alberta, Edmonton, AB T6G 2G4.

Master of Science in Occupational Therapy

The Department of Occupational Therapy offers a program leading to the degree of MSc in several fields of study including life span development, psychosocial dysfunction, and work evaluation. The degree prepares therapists for specialization, senior clinical positions, and careers involving research. Two routes to the MSc degree are available: a research route with thesis, consisting of courses equivalent to 124 and a research thesis; or a course-based master's route, comprising courses equivalent to 133 including a directed research project.

Further information is available from the Chair, Graduate Committee, Department of Occupational Therapy, Faculty of Rehabilitation Medicine, University of Alberta, Edmonton, AB T6G 2G4.

Master of Science in Speech-Language Pathology

The Department of Speech Pathology and Audiology offers graduate work leading to the Master of Science in Speech-Language Pathology. The program provides speech-language clinicians with research skills to study the etiology, prevention, diagnosis, and remediation of speech, language, and hearing disorders. Students undertake research to enhance their abilities to take leadership roles in academic, clinical, and laboratory settings.

The minimum entrance requirements include an undergraduate degree in Speech Pathology with a cumulative GPA of at least 6.5 in the last two years of undergraduate work from the University of Alberta, or equivalent qualifications from another academic institution. Applicants must also submit a statement of their research interests, three letters of recommendation, and the results of the Graduate Record Examinations (verbal, quantitative and analytical subtests).

142.3 Licensing by Professional Associations

Occupational Therapy

Graduates from the BSc in Occupational Therapy program may apply for membership in the Canadian Association of Occupational Therapists (CAOT), Carleton Technology and Training Centre, Suite 3400, Carleton University, 1125 Colonel By Drive, Ottawa, ON K1S 5R1, and the Alberta Association of Registered Occupational Therapists (AAROT), Suite 311, 4245–97 Street, Edmonton, AB T6E 5Y5.

To establish eligibility, CAOT requires successful completion of a certification examination.

Physical Therapy

Graduates from the BSc in Physical Therapy program may apply for membership in the Canadian Physiotherapy Association, 9th Floor, 890 Yonge Street, Toronto, ON M4W 3P4, and the College of Physical Therapists of Alberta, 1356, 5555 Calgary Trail South, Edmonton, AB T6W 1A1.

Provincial Licensing: In order to be a practicing physiotherapist in the Province of Alberta, graduates from the Physical Therapy Program at the University of Alberta are required to take the Physiotherapy Competency Examination which consists of both written (Qualifying Examination) and clinical (Physiotherapy National Examination) examinations. The fee for the examination is the responsibility of the student. Information on the cost of the examination can be obtained from the College of Physical Therapists of Alberta (CPTA). Successful completion of the PNE will enable graduating physiotherapists to practice in Alberta. Contact (780) 438-0338 for more information.

Speech Pathology and Audiology

All graduates are eligible for joint membership in the Speech, Language and Hearing Association of Alberta (SHAA) and the Canadian Association of Speech-Language Pathologists and Audiologists (CASLPA). Applications may be forwarded to either SHAA at Suite 2210, Scotia Place, 10060 Jasper Avenue NW, Edmonton, AB T5J 3R8 (phone: 1-800-537-0589), or to CASLPA at 130 Albert Street, Suite 2006, Ottawa ON K1P 5G4.

Provincial Licensing: Graduates from all programs intending to practise in Canada must comply with provincial licensing requirements regardless of their professional qualifications.

Employment in Other Countries

Information regarding practice in other countries may be obtained from the appropriate professional organization, which also advises on the degree of reciprocity of registration to be expected.

142.4 Budget

In the Department of Occupational Therapy, a $30 Sundries Fee is charged in the second and third years of the program.

In the Department of Physical Therapy, a $40 fee is charged for materials and supplies to all full-time undergraduate students registered in the program. The fee for graduate students is $25 annually.

In the Department of Speech Pathology and Audiology, $10 is charged for materials and supplies in each year of the program.

143 Faculty Regulations

143.1 Admission

See §§13 and 14 for general admission requirements.

Admission information for the Occupational Therapy and Physical Therapy programs can be found in §15.14.
143.2 Practicum Placements, Professional Practice and the Public Interest

The Dean, or supervisor acting on behalf of the Dean, may immediately deny assignment of a student to, withdraw a student from, or vary terms, conditions, or site of practicum/clinical placement if the Dean or supervisor has reasonable grounds to believe that this is necessary in order to protect the public interest. Refer to §23.8.2 Practicum Placements, Professional Practice and the Public Interest, and §87, GFC Policy Manual for additional information.

143.3 Professional Ethics/Code of Student Behavior

Students in the Faculty of Rehabilitation Medicine must adhere to the professional code of ethics of their respective professional/licensing bodies. Refer to §30A.4.7 of the Code of Student Behavior, in the GFC Policy manual, for additional information.

143.4 Academic Standing and Graduation

(1) Passing Grade: Under normal circumstances, each student must obtain a grade of no less than 4.0 in every course during the student’s program of study.

(2) Failure in Fieldwork or Clinical Work: A student who fails a fieldwork placement/clinical practice/clinical internship and wants to challenge that decision must submit the challenge in writing to the fieldwork/clinical coordinator within 10 days of the student’s receipt of an unsatisfactory report. A hearing will normally take place within 30 days.

(3) Promotion and/or Continuation
   a. Any student failing to obtain a minimum GPA of 5.0 in any academic year will be required to withdraw from the Faculty.
   b. Students identified as second-time problem students by the Revisions Committee and referred to the Department Chair for review may also be required to withdraw.

(4) Grade of Incomplete: Subject to the approval of the Dean, a grade of incomplete is normally used when a student is prevented by illness, domestic affliction or other extreme circumstances from completing the course requirements at the specified time. Where this grade has been given, the student must submit the assignment within 10 days after the series of final examinations scheduled for this particular course is complete, except in cases where, at the discretion of the Department Chair, the Dean grants an extension. Failure to comply with this regulation results in a grade of 0 for the portion of the course in which the grade of incomplete was given.

(5) Time Limits for Completion of Programs: Students are normally required to complete all requirements for their undergraduate degree within four years for Physical Therapy and three years for Occupational Therapy from the date of admission to the Faculty.

(6) Post Diploma Degree Completion: (Note: The Post Diploma BScPT completion program was discontinued effective September 1996.) Students admitted to the BScOT program are normally required to complete all requirements for their undergraduate degree within two years of the admission date.

(7) Electives: An elective course is approved if it (a) does not duplicate material covered in any compulsory course in the student’s program; (b) does not duplicate material covered in the previously approved elective courses; (c) is offered when no timetable conflict exists. Permission to take courses in other universities toward meeting the elective requirements of the student’s program is normally granted if these criteria are met. Credit is granted for approved off-campus courses if a grade of 5.0 (or equivalent) is obtained.

(8) Residence Requirements: The residence requirement for the Post Diploma (Degree Completion) program in the Department of Occupational Therapy normally consists of completing 24 offered by the University of Alberta on or off campus in Fall/Winter or Spring/Summer, of which at least 18 must be taken within a 12-month period.

(9) First-Class Standing: For the purposes of granting First-Class Standing and for granting awards open to students in more than one Department in the Faculty of Rehabilitation Medicine, a full normal academic course load is defined as a minimum of 30 taken during Fall/Winter.

143.5 Credit by Special Assessment

A student admitted to a degree program in the Faculty of Rehabilitation Medicine may receive degree credit in a limited number of courses for knowledge or skill obtained in either a university or non-university context. “Non-university context” may include work completed at institutions not
accredited for degree purposes or work experience that relates to university courses. The following conditions apply:

1. Limitations
   a. Number of courses allowed: Normally, only ★12 obtained by special assessment may be applied to a four-year degree program in the Faculty of Rehabilitation Medicine. In exceptional circumstances, on the recommendation of a Department Chair, the Dean may permit additional credits by special assessment.
   b. A student may attempt credit by special assessment only once for each course.
   c. Courses not accepted: Graduate courses and certain undergraduate courses cannot be attempted by special assessment. Please contact Department concerned for courses in this category.
   d. Special Students may not take courses under this category.

2. Timing of Assessment (Deadlines): Examination or assessment must be completed three months from the date of application for credit by special assessment. Unless extenuating circumstances exist, students who do not complete assessment requirements by the specified deadline are considered to have cancelled their application and must reapply if they want to complete that assessment.

3. Transfer of "Credit by Special Assessment": Students who have obtained credits by special assessment (or similar means) while enrolled in another university, college, faculty, or school are given advance credit in such courses only to the extent that the Faculty of Rehabilitation Medicine accepts such courses in its degree programs.

4. Grades Assigned to Special Assessment Courses: In a course attempted by special assessment, the results are recorded either as a grade point or pass/fail according to the practice in the regular course. Students may not appeal the results in a course attempted by special assessment. Courses attempted by special assessment and failed are recorded on students' transcripts and computed into their academic records.

5. Fees: For information regarding fees, please refer to §22.2.

### 143.6 Additional Regulations

1. Uniform: Students in Occupational Therapy and Physical Therapy will be advised of their requirements at the time of registration.

2. Fieldwork/Clinical Practice: When students must successfully complete fieldwork/practice at approved institutions under the supervision of qualified staff, students will follow the administrative procedures and regulations of that institution. Students in Occupational Therapy must attend fieldwork orientation seminars.

3. CPR Certification: Students in the Faculty of Rehabilitation Medicine must obtain certification in cardiopulmonary resuscitation (CPR) before entering their clinical fieldwork placements. All fees and other costs for CPR certification and recertification are the students' responsibility. Students must maintain their certification by recertifying in each of the subsequent years they are in the program.

   Occupational therapy students may complete approved CPR certification courses offered elsewhere.

4. Criminal Records Check: Students should be aware that under the Alberta Protection of Persons in Care Act, they may be required to satisfy a criminal records check before being allowed to serve a period of internship, practicum placement, work experience or to complete a course requirement. Refer to §23.8.3.

### 143.7 Appeals and Grievances

Every student may have individual grades reviewed. Students should first approach the instructor concerned, then, if necessary, see the Department Chair.

Decisions affecting a student's academic standing may be heard by the Faculty Academic Appeals Committee. Full academic appeal regulations may be obtained in the Office of the Dean.

Certain unsuccessful appeals at the Faculty level may be further appealed to the GFC Academic Appeals Committee. See §23.8.

**Deadline**

All appeals regarding academic standing must be received in writing by the Dean, within 21 calendar days, following publication of final results.

---

### 144 Programs of Study

#### 144.1 Degree of BSc in Occupational Therapy

1. **Orientation Program:** The BScOT program requires that each student, after acceptance into the program, attend a department orientation program immediately before the beginning of the first term. Dates are confirmed on admission. Attendance at the orientation program is a prerequisite for OCCTH 328.

2. **Fieldwork Policy:** All students must complete four full-time fieldwork placements at approved clinical facilities under the supervision of qualified staff. Each placement is assigned a course number, and fieldwork courses are normally scheduled as follows:
   - OCCTH 328 Spring/Summer following second year
   - OCCTH 428 Spring/Summer following third year
   - OCCTH 431, 432 second term fourth year

   Students may need to complete some of their fieldwork courses outside their city or province of residence. Although efforts are made to consider individual requirements, students may decline a placement, that placement is released to another student. Due to the limited national supply, another placement normally is not available until the next selection period. Declining a placement lengthens students' programs and delays their graduation.

   Accommodation and travel expenses are the students' responsibility.

   Before undertaking fieldwork courses in each year of the program, students must attend an annual fieldwork seminar and hold a valid Cardiopulmonary Resuscitation Certificate. Students must also update all immunizations in accordance with public health unit recommendations and/or Department requirements before their fieldwork placements. Students are advised of their uniform requirements before their first placement.

   Normally, withdrawal from a fieldwork course is allowed up to eight calendar days following the mid-term evaluation for one fieldwork course within the program. Such a withdrawal is assigned a grade of "W." Any withdrawal after that period is assigned a grade of "WF" (Withdraw Failing). A student withdrawing from a fieldwork placement must repeat the course in a similar setting and type of service. Reregistration in the course and payment of course fees applies. If a second fieldwork course is assigned a grade of "W" or "WF," the student's withdrawal from the Faculty is recommended, on the basis that clinical competence was not demonstrated.

   Reexaminations are not possible in fieldwork courses; students who fail a fieldwork placement must repeat that course. They must reregister and pay the required course fees. Normally, a student may repeat only one fieldwork course. If a student fails the repeated course or a second separate fieldwork course, the student must withdraw from the program.

   Students may appeal a course grade received in a fieldwork course in accordance with §22.3.8 and 143.

3. **Promotion:** Students normally complete courses according to the Program sequence. If a student has deficient credit in a course or courses from a previous term, through failure or otherwise, that student must normally clear the deficiency the next time the course(s) is/are offered and is considered a repeating student.

5. **Repeating Students:** Repeating students are normally required to complete a full academic program of ★30 to be considered for promotion.
However, students are not required to take more than the normal number of courses to complete their programs.

### 144.2 Degree of BSc in Physical Therapy

1. **Professional Development II** - The BScPT program requires that each student in the second year of the program attend a series of sessions on issues of professional practice and skills for effective writing and learning contract design. Students who have completed a university-level English writing course may receive advance credit for the effective writing sessions. Attendance at these sessions will be a prerequisite for subsequent clinical practice courses. Dates and times to be confirmed the first day of classes.

2. **Clinical Practice Policy**:
   - Clinical Practice is defined as practical placements within various facilities during all four years of the Physical Therapy program. This clinical practice is divided into seven courses. The first-year course consists of a one-week, full-time placement at a clinical affiliation approved by the Department. The remaining six courses consist of five-week, full-time placements at clinical affiliations approved by the Department.

3. **Clinical Practice Failure Policy**:
   - A student must successfully complete each clinical course to graduate from the program.

4. **Physical Therapy students must pass the practical and theoretical examinations of any Physical Therapy course having a practical and theoretical component.**
   - Any student with a grade of 3.0 or less in a course must upgrade that mark to at least a 4.0 by one reexamination to continue in the Faculty. Reexamination depends on the student having an overall GPA of 5.0 or more, including the failed course. Any student failing to acquire a grade of 4.0 or more on reexamination may be allowed to repeat the course or may be required to withdraw from the program.

5. **Clinical Practice Policy**:
   - Clinical Practice is defined as practical placements within various facilities during all four years of the Physical Therapy program. This clinical practice is divided into seven courses. The first-year course consists of a one-week, full-time placement at a clinical affiliation approved by the Department. The remaining six courses consist of five-week, full-time placements at clinical affiliations approved by the Department.

6. **Clinical Practice Failure Policy**:
   - A student must successfully complete each clinical course to graduate from the program.

   A student may fail only one clinical course during the student’s program. If a student fails a clinical course, that course must normally be successfully repeated before clinical courses in the following year can be taken. If a student fails a repeat clinical course or fails a second clinical course, the student is normally required to withdraw from the program.

### 144.3 Graduate Programs in Rehabilitation Medicine

Master of Science degrees are offered in the areas of Occupational Therapy, Physical Therapy, and Speech/Language Pathology. A Master of Speech/Language Pathology is also offered. The Faculty also offers a PhD in Rehabilitation Science. See §175.61.

### 145 Courses

Faculty of Rehabilitation Medicine courses can be found in §201, Course Listings, under the following subject headings:

- Occupational Therapy (OCCTH)
- Physical Therapy (PTHER)
- Rehabilitation Medicine (REHAB)
- Speech Pathology and Audiology (SPA)

---

**Notes**

1. Humanities and Social Sciences (Liberal Arts) elective(s) strongly recommended.
2. The number of students receiving two clinical placements in second year of the program will be determined by the availability of placements. Students who do not receive two placements in Spring/Summer will complete three placements in the third year of their program.
3. Students who did not complete two placements in Spring/Summer of the second year of their program will complete three placements in the third year of their program.
