Historical Overview

Over more than eighty years, the Faculty of Education has evolved from a few discipline-oriented courses in Education offered by the Faculty of Arts and Science into one of the largest and strongest faculties of Education in the country. The first education course, covering both the history and philosophy of education, was approved in 1911 and first offered in 1912. In 1928, the School of Education was created under the administration of the Faculty of Arts and Science. It opened the following year with an enrolment of seven students. The School later evolved into the College of Education; then, in 1942, into the Faculty of Education. In 1945, the Province of Alberta closed its Normal Schools in Calgary and Edmonton and turned control of teacher education over to the University of Alberta. Alberta was the first province in Canada to make teacher education exclusively a university responsibility. Since 1945, the Faculty of Education has awarded more than 45,000 BEd degrees, and developed strong graduate programs that have provided outstanding educational leaders for institutions and school systems across Canada and around the world.

Mission Statement

The Faculty of Education at the University of Alberta endeavours to discover, disseminate, and exemplify knowledge about teaching and learning across the lifespan. The Faculty serves the local, provincial, national, and international teaching profession through enlightened pre-service programs, continuing education programs, and graduate degree programs.

The Faculty promotes the view that to be a teacher is to continue being a learner. We strive to develop knowledgeable and capable teachers who continue to question, to reflect and to explore. The development of critical thinking and empathic understanding is at the core of all our programs.

To ensure that theory and practice are successfully integrated, the Faculty is committed to cooperation with the teaching profession. The Faculty unites around the principle that a diversity of perspectives is to be encouraged and valued in its teaching, its research, and its service to the community. Faculty members strive to be effective models with respect to teaching, research, professional development, ethical conduct, and commitment to students. The Faculty aspires to create a caring and enlightened community in which diverse members are treated with dignity, respect, and fairness.

Teaching, Research, and Community Service

The Faculty of Education places a high priority on excellence in teaching, research, and community service. Education students will encounter many professors who have won distinctions such as Rutherford or Faculty of Education teaching awards. The Faculty also employs Field Experience Associates, seconded from local school systems, who have demonstrated their excellence in teaching at the elementary and secondary school levels.

Undergraduate students also have an opportunity to work closely with highly competent classroom teachers during the various components of their student teaching experience.

As might be expected in a leading Faculty of Education containing departments of Educational Psychology, Elementary Education, Policy Studies, and Secondary Education, as well as the School of Library and Information Studies, the research output of Faculty members is both extensive and wide ranging. At present, however, the Faculty has chosen to designate five broad topics of interdepartmental study as areas of research priority. These five areas of research excellence, led by internationally recognized scholars, are the following:

- School, Teacher, and Curriculum Transformation
- Literacy for All Canadians
- Learners with Special Needs
- Multiculturalism and International Education
- Information Technologies and Multi-media Studies

The Faculty of Education has also been a leader in service to the educational and broader communities. Many Faculty members and graduates devote many hours to professional development, curriculum development, and the production of educational materials for use in the schools. Many graduates have distinguished themselves in areas as diverse as the arts, politics, and public administration as well as in the classroom. Three outstanding exemplars, all of whom have been awarded the Order of Canada, are Myer Horowitz, former Dean of Education and President of the University of Alberta; Steve Ramsanker, principal of an inner-city school who has devoted his life to educating the under-privileged; and Thomas Peacocke, one of Canada’s most widely acclaimed actors and directors.

Students entering the Faculty of Education will join a community with a strong tradition of teaching and research excellence and dedicated community service.

**62 General Information**

The Faculty of Education provides professional preparation for teachers and opportunities for graduate study for those interested in more advanced work in education. Undergraduate degree programs are available in preschool, elementary, secondary, or postsecondary/adult education.

Each Bachelor of Education degree program allows for certification as a teacher in Alberta. Teaching Certificates are granted by the Minister of Education, on the recommendation of the Faculty of Education.

Student Visitors (persons on student visas) will not be recommended for certification.

All inquiries should be addressed to the Office of the Associate Dean (Undergraduate Student Services), Faculty of Education, University of Alberta, Edmonton, AB T6G 2G6.

**63 Faculty Regulations**

### 63.1 Speech Competency

Students entering the Faculty expecting to complete teacher certification requirements must demonstrate competent speaking ability in English.

1. Students demonstrating weakness in voice, fluency, or articulation may be referred to the Speech Centre in the Faculty of Education for evaluation.

2. Students requiring remediation of oral communication must continue working toward improvement as specified by the Director of the Speech Centre until the necessary improvement has been achieved.

3. Speech competence is a prerequisite for enrolment in Field Experience courses. Students who have not achieved the necessary level of competence may not register for these courses.

#### 63.2.2 BSc (Specialization in Science and Education)/BEd (Secondary) Combined Degrees Program

- **Note:** Students in the Bachelor of Science (Specialization in Science and Education)/Bachelor of Education (Secondary) Combined Degrees Program are registered in the Faculty of Science for the first two years of the five-year
program. They are registered in the Faculty of Education commencing the beginning of third year.

(1) A student in the combined program is not granted the privilege of repeating a failed course more than once during the program except with the permission of the Dean of Education and the Dean of Science. A student is not permitted to repeat a course in which a grade of 4.0 or more has been received except with the permission of the Dean of Education and the Dean of Science.

(2) Courses with prerequisites may only be used for credit if the prerequisite requirements have been met. A grade of 4.0 is the minimum grade acceptable in a course to be used as a prerequisite.

(5) A student may be permitted to complete the requirements for the combined program over a longer period than five years on approval by the Dean of Education and the Dean of Science.

63.2.3 Field Experience Courses (Student Teaching)

(1) Registration in Field Experience courses is a two-part process. Students must first register in EDFX courses using the Telephone Registration system. Students must then report to Undergraduate Student Services, 1-107 Education North, to personally complete a Student Teaching Registration Card.

(2) Students with problems related to health, speech, or any other disability should consult Undergraduate Student Services.

(3) Because of the intensity of the workload during student teaching, and the expectation of the schools for full involvement, students must not exceed the ★15 maximum or register in any evening courses while enrolled in their Introductory or Advanced Professional Term.

(4) Students are not permitted to register in Field Experience courses while on Academic Warning.

(5) A student who has been assigned a grade of "W" or "F" in a Field Experience course is entitled to a second registration in this course. See also §22.1.3 (Reregistration in Courses). Notwithstanding §22.1.3, if a student receives a "W" or "F" in the second attempt of a Field Experience course, he/she is required to withdraw from the Faculty of Education.

(6) Any student who has withdrawn from a Field Experience course must receive the approval of Undergraduate Student Services to reregister in the course.

(7) Although special services are provided on campus to assist disabled students, these same services may not be available for off-campus placements.

(8) The Faculty of Education is committed to a Regional placement program in which students are encouraged to complete field experiences in rural Alberta. All students should consider at least one regional placement. Students wanting rural placements should apply in early April for Fall Term and in early November for Winter Term.

(9) Students must purchase a Field Experience Handbook from the University Bookstore before the beginning of each EDFX course. This handbook provides specific information about student teaching and outlines what is expected of student teachers.

(10) Students in schools during the field experience are expected to conduct themselves according to the Alberta Teachers' Association Code of Professional Conduct and the University of Alberta Code of Student Behavior: Conduct and Discipline. Student teachers shall:

a. recognize and accept that the welfare of the students is of ultimate concern and that the cooperating teacher has the final responsibility for what occurs in the classroom; and

b. maintain an ethical and professional attitude toward all members of the school community. Become familiar with the Alberta Teachers' Association Code of Professional Conduct. This code will be a guideline for your behavior in the school community.

Students are held accountable to these standards and answerable to the Assistant Dean (Field Experiences) and the Dean of Education.

(11) Access to transportation is not considered in making placements in the Edmonton area. Placements can be made anywhere in the Greater Edmonton area, including Devon, Fort Saskatchewan, Leduc, Morinville, St Albert, Sherwood Park, Spruce Grove and Stony Plain.

63.3 Student Advising

Undergraduate Student Services (USS)

USS staff assists with admission, readmission, program requirements, field experiences, and any other issues related to a student's degree or diploma program. USS maintains the official Faculty record of each student's academic program as well as the student teaching reports. These records are held for three years after graduation. All queries can initially be handled by USS staff; if necessary, students will be referred to the appropriate University department for a final resolution.

Associate Dean (Teacher Education)

The Associate Dean is responsible for the overall administration of all matters related to the undergraduate program. The Associate Dean works with the Registrar's Office, other faculties and departments, the Assistant Dean (Field Experiences), and the Director of Student Support on program-related concerns and any other problems arising in administering Faculty policies and regulations.

Assistant Dean (Field Experiences)

The Assistant Dean (Field Experiences) is responsible for all matters related to student teaching and field experience courses. Field Experiences staff arrange for cooperating teachers and university facilitators who work with students regularly during the Introductory and Advanced Professional Terms.

Director of Student Support

Students who encounter special difficulties should make an appointment with the Director of Student Support who assists students having problems related to their degree program or other problems of an individual nature. Students must obtain approval for certain special requests and must consult the Director before submitting a formal appeal to the Faculty Academic Appeals Committee.

63.4 Academic Standing and Promotional Standards

63.4.1 BEd; BEd (After Degree); BA (Native Studies)/BEd Combined Degrees Program; BPE/BEd (Elementary) (Secondary) Combined Degrees Program; BSc in Human Ecology/BEd Combined Degrees Program

(1) Academic standing for the Bachelor of Education; Bachelor of Education (After Degree); Bachelor of Arts (Native Studies)/Bachelor of Education Combined Degrees Program; Bachelor of Physical Education/Bachelor of
Education (Elementary) (Secondary) Combined Degrees Program; Bachelor of Science in Human Ecology/Bachelor of Education Combined Degrees Program is assessed based on the Fall/Winter grade point average (GPA). Students are expected to maintain a minimum GPA of 5.0. See §§23.4(7) and 23.9.2 for information on calculation of GPA’s and the academic record. The GPA is printed on the official transcript and the Statement of Results issued after each Fall/Winter or Spring/Summer period.

A review of academic performance is conducted for each student at the end of each Fall/Winter (September to April) and Spring/Summer (May to August), covering the previous period’s work.

The assignment and reassignment of categories of academic standing are based on a student’s performance in a minimum of 8 credits. If, at the time of review, the student has attempted fewer than 8 credits since the last assignment of a category of academic standing, the review will be deferred and the academic standing assigned at the last review will remain in effect until the next review.

(2) Categories of Academic Standing:

One of three categories of academic standing is determined for each student based on the GPA.

Satisfactory Standing: Students with a GPA of 5.0 or greater are considered to be in Satisfactory Standing and may continue in the program.

Marginal Standing—Academic Warning: Students with a GPA of 4.5 to 4.9 inclusive are considered to be in Marginal Standing and may be permitted to continue on Academic Warning.

Unsatisfactory Standing—Required to Withdraw: Students with a GPA of 4.0 or less, or students who have been assigned Marginal Standing on two occasions (not necessarily consecutively) while registered in the Faculty, are considered to be in Unsatisfactory Standing and are required to withdraw from the Faculty.

63.4.2 Marginal Standing—Academic Warning

(1) A student placed on Academic Warning resulting from Marginal Standing is bound by the following requirements:

a. A student must complete 30 credits with a GPA of 5.0, calculated on these 30 credits, or complete a minimum of 24 credits with a GPA of 5.5, calculated on these 24 credits.

Note: Students are not required to complete these minimum number of units of course weight in one Fall/Winter.

b. A student on Academic Warning must maintain a GPA of at least 5.0 for each full session in which the student is enrolled.

c. Registration in the Introductory or Advanced Professional Term will not be permitted while on Academic Warning. If special circumstances warrant, permission must be obtained from the Director of Student Support.

d. Students must maintain continuous registration during each Fall/Winter they are on Academic Warning by registering in at least 3 credits during the September–April period. Students who do not maintain continuous registration will be required to compete for readmission.

e. Students are not normally permitted to take courses at another institution while on Academic Warning.

(2) Failure to Meet Academic Warning Requirements

a. Students cannot be placed on Academic Warning more than once during any degree program offered by the Faculty of Education. Therefore, students must maintain Satisfactory standing after clearing Academic Warning.

b. Students who fail to meet the standards and requirements of Academic Warning are required to withdraw from the Faculty and to compete for readmission.

63.4.3 Academic Standing for BSc (Specialization in Science and Education) and BEd Combined Degree Program

(1) Continuation in the Bachelor of Science (Specialization in Science and Education) and Bachelor of Education Combined Degree Program requires a Fall/Winter Grade Point Average (GPA) of at least 5.5. A student who does not meet the requirement to continue in the combined degree program must withdraw from the combined program and may apply for admission to either a BEd program or a BSc program, if eligible. Refer to §§15.5.1 or §§15.15.1 for academic standing regulations for admission to the BEd or BSc General programs.

Note: Students in the BSc/BEd are registered in the Faculty of Science for the first two years of the five-year program. They are registered in the Faculty of Education commencing the beginning of the third year.

(2) Grade Point Average (GPA): The Grade Point Average is the weighted average over all courses attempted while registered in Fall/Winter. See §§23.4(7) and 23.9.2 regarding rules for calculation of the GPA.

63.4.4 Academic Standing for the BMus/BEd Combined Degrees Program

(1) To be eligible to continue in the program, students will need a minimum GPA of 5.5 for each Fall/Winter. See §§23.4(7) and 23.9.2 for information on calculation of Fall/Winter GPAs and the academic record.

(2) Successful completion of the program requirements includes a GPA of 5.5 on all courses completed in the program.

(3) Students must complete at least 33 credits during each Fall/Winter in every year except Year 4 where 30 credits is required. A reduced course load to 24 credits requires only the approval of the Department of Music; a course load of less than 24 requires the approval of both Faculties and is based on a recommendation from the Department of Music.

(4) Students who fail to meet the requirements for promotion as outlined in (1) above will be required to withdraw from the BMus/BEd Combined Degree program. Such students may transfer to another program in the Faculty of Arts, the Faculty of Education or another Faculty, provided the entrance and promotion requirements for such a program are met. After transfer, all requirements for the new program must be met.

(5) Students who fail to meet the fifth-year requirements in the program will be permitted to fulfill those requirements only with the approval of the Faculty of Arts and the Faculty of Education upon the recommendation of the Department of Music. Otherwise, students must withdraw from the program and, if so desired, transfer to another program in the Faculty of Arts or Education for which they are able to meet entrance and promotion requirements.

(6) The BMus/BEd Combined Degree program may be interrupted only with the prior consent of the Department of Music, the Faculty of Arts, and the Faculty of Education. Readmission and continuation will be subject to any conditions, including readjudication and new program requirements, that may be specified by the Department of Music, the Faculty of Arts, and the Faculty of Education.

63.4.4.1 Residence Requirements

(1) Students proceeding toward the BMus/BEd Combined Degree program must normally have credit in at least 96 credits offered by the University of Alberta.

(2) Students who take part of their final 60 credits at another postsecondary institution must seek the approval of the Department of Music, the Faculty of Arts, and the Faculty of Education.

63.5 Appeals

63.5.1 BEd; BEd (After Degree); BA (Native Studies)/BEd Combined Degrees Program; BMus/BEd Combined Degrees Program; BPE/BEd (Elementary) (Secondary) Combined Degrees Program; BSc in Human Ecology/BEd Combined Degrees Program

Faculty decisions regarding the Bachelor of Education; Bachelor of Education (After Degree); Bachelor of Arts (Native Studies)/Bachelor of Education Combined Degrees Program; Bachelor of Music/Bachelor of Education Combined Degree Program; Bachelor of Physical Education/Bachelor of Education (Elementary) (Secondary) Combined Degree Program; Bachelor of Science in Human Ecology/Bachelor of Education Combined Degrees Program academic standing or standing in an individual course can become the subject of an appeal. A student wanting to appeal an academic decision must attempt to resolve the issue first with the professor concerned (if applicable), then with the Department Chair, and, if still unresolved, with the Director of Student Support. For appeals relating to academic standing, students should first see the Director of Student Support and, if necessary, the Associate Dean (Undergraduate Student Services). If the matter remains unresolved, students may then appeal to the Faculty Academic Appeals Committee.
A written statement of appeal must be submitted to the Chair of the Faculty Academic Appeals Committee by the following deadlines:

March 1 for Fall Term courses
June 30 for Winter Term and Fall/Winter courses
September 30 for Spring/Summer courses

These deadlines apply to appeals of grades and academic standing. Further details of the Faculty’s appeal procedures are available from the Director of Student Support or the Associate Dean (Undergraduate Student Services), 1-107 Education North. Certain decisions of the Faculty Academic Appeals Committee may be appealed to the General Faculties Council Appeals Committee. See §23.8.

63.5.2 BEd/BSc (Specialization in Science and Education) Combined Degree Program

(1) A student in the Bachelor of Education/Bachelor of Science (Specialization in Science and Education) Combined Degree Program seeking a review of a decision on academic standing must first consult the Associate Dean (Undergraduate Student Services) in the Faculty of Education and submit a written statement pertaining to the specific decision affecting the student’s academic standing. This statement should include related documents on which an appeal can be based and must be made within 30 days of the original decision on academic standing. The Associate Dean of Education consults the senior Associate Dean of Science, and they decide on the appeal and inform the student.

(2) If the student is not satisfied with the decision, the student may appeal, in writing, to the Dean of Education. The Dean of Education consults the Dean of Science. Students attending the University of Alberta on a Student Visa will not be recommended for certification.

To be recommended for an Alberta Teaching Certificate without completing the Bachelor of Education degree, a student must obtain a GPA of at least 5.0 on all courses credited toward the degree program. **Note:** This provision applies to Adult Education Route/After Degree and Secondary Route/After Degree students only.

All persons applying for certification as a teacher in Alberta will be subject to the following restrictions on eligibility:

- Except where the Minister of Education decides otherwise, the Registrar for Alberta Education shall not issue a teaching certificate to
  1. a person who has been convicted of an indictable offence under the Criminal Code; or
  2. a person whom the Registrar has reason to believe should not be issued a certificate.

Applications for a teaching certificate shall be directed to the Registrar. As part of the application process, applicants will be asked whether they possess a criminal conviction. If the response is yes, the nature of the conviction and when and where they were convicted must be detailed.

The Registrar shall refuse to issue a teaching certificate to any applicant possessing an indictable criminal conviction. The Registrar may refuse to issue a teaching certificate to an applicant possessing a criminal conviction of a nature deemed unsuitable for teaching children or for any other reason. Applicants may appeal the decision of the Registrar to a Certification Appeal Committee established by the Minister. Appeals must be made in writing within 30 days of being advised of the Registrar’s decision not to issue a certificate.

### 65 Programs of Study

#### 65.1 Degree of BEd

**Underlying Principles**

The following principles underlie all teacher preparation programs:

1. The education of a teacher is a continuous, life-long process. In addition to emphasizing basic or fundamental preparation, the initial pre-service experience should aid the development of attitudes that encourage self-evaluation and improvement, and the acquisition of knowledge and skills that facilitate life-long learning.

2. All teacher preparation degree programs provide intending teachers with essential practical skills, a knowledge of theory and its relationship to practice, liberal studies, and subject-matter competence.

3. The Faculty of Education is committed to providing quality teacher preparation programs and recognizes the importance of continuously monitoring, evaluating and refining its offerings to adequately reflect changes in society and advances in knowledge.

4. The Bachelor of Education degree consists of a minimum of 120 credits of which at least 24 are taken before admission to the Faculty of Education.

**Program Planning**

The Faculty of Education provides students with an official program outline when they are admitted. Using this, students are expected to be able to identify remaining course requirements for their particular degree program.

**Students are responsible for being acquainted with all applicable regulations and meeting the requirements for the degree as outlined. Any exceptions to the requirements must be approved in writing by the Associate Dean (Undergraduate Student Services) with one copy to be placed in the student’s file and one to be given to the student.**

**Note:** The program details listed in the following three sections apply only to students registered in the 1+3 Bachelor of Education degree program.

**Students enrolled in the Bachelor of Education (After Degree) should consult 186 for program details.**

65.4 Secondary Education Route

65.4.1 General Information

The Secondary Education route includes 14 weeks of student teaching. In addition to EDFX 200, students enroll in the Introductory Professional Term (4 weeks of student teaching) and the Advanced Professional Term (9 weeks of student teaching).

Students in the Introductory Professional Term usually teach in their Minor subject specialization, while students enrolled in the Advanced Professional Term usually teach in their Major subject specialization.

For those students who have subject specializations composed almost entirely of full-year courses, e.g., Art, Drama, Music, Second Languages, it may be necessary to take both Professional Terms during the same academic year.

For these students, full-year courses should be taken as early as possible in their program.

65.4.2 Components of the Program

All students in the Secondary Route must choose a Major teaching subject (★36) and a Minor teaching subject (★18) which prepares them for teaching in specific subjects of school instruction. Available Majors are listed in Education Chart 2, and available Minors are listed in Education Chart 3. Students planning to enter the Secondary Route are strongly encouraged to take as part of their Preprofessional Year ★6 in Language/Literature, ★3 in Computing (EDIT 202 is recommended), ★12 in the Major teaching subject, ★6 in the Minor teaching subject.

Program Requirements (★120)

(1) ★6 in Language/Literature from CLASS 102, 221; CLIT 171, 172, 201, 202; ENGL 100, 101, 104, 105.

### 65.4.3 Career and Technology Studies

Career and Technology Studies (CTS) is a complementary program consisting of 660 one-credit courses within 22 distinct strands available to junior and senior high schools in Alberta. CTS encompasses the former Practical Arts Subjects (Business Education, Home Economics, Industrial Arts, and Vocational Education) to which the Resources strands have been added. The strands are grouped within majors and minors in the Secondary Education Route. Students cannot enrol in both a major and a minor in CTS.

The four new majors include the following strands:

65.6 BSc (Specialization in Science and Education)/BEd (Secondary) Combined Degrees Program

65.6.1 General Information

The faculties of Science and Education offer a combined degrees program that is more highly structured than the BSc followed by a BEd After Degree (a six-year route). It provides less flexibility in course choice and scheduling than taking the degrees sequentially, because it is designed to meet the minimum requirements of both degrees in five years. In addition, it must meet teacher certification requirements within this time frame.

To accommodate the variety in subject studies needed in secondary school teaching, students in the combined program will select a major/minor from the following areas:

- **Biological Sciences**: Biochemistry, Botany, Biology, Entomology, Genetics, Microbiology, Pharmacology, Physiology, Zoology.
- **Physical Sciences**: Astronomy, Biochemistry, Chemistry, Geophysics, Mathematical Physics, Physics.

Students apply to the Faculty of Science for admission to the Combined Degrees Program and spend the first two years of the five-year program registered in the Faculty of Science. (See §103.2 and 162.6.)

65.7 BMus/BEd Five-Year Combined Degree

This degree program consists of ★162 overall. The first three years (★99) are taken in the Faculty of Arts (see §42.10) and the last two years (★63) are taken in the Faculty of Education.
