140 The Faculty of Rehabilitation Medicine

Mission Statement
The purpose of the Faculty of Rehabilitation Medicine is to promote knowledge and application of rehabilitation principles and methods through excellence in education, research, service and community partnerships.

141 The Professors

141.1 Teaching and Scholarship
We are proud to highlight a few of the outstanding accomplishments achieved by our professors in 1997/98:

- Professor Sandy Rennie (Physical Therapy) receives the 1998 Rutherford Award for Excellence in Undergraduate Teaching.

- The Faculty of Rehabilitation Medicine leads the U of A with six Academic All-Canadians, and Sarah Joly wins the Kathleen Yetman Memorial Award for the U of A Female Athlete of the Year.

141.2 Members of the Faculty

Officers of the Faculty
Dean
VA Cook, PhD
Associate Dean — Professional Programs and Teaching
J Loomis, MD
Associate Dean — Graduate Studies and Research
P Hagler, PhD

Professors
T Videman, MD, PhD
S Warren, PhD

Adjunct Professors
B Andrews, PhD
B Dobbs, PhD
A McKinnon, MSc
K Pain, PhD

Research Assistant Professor
D Bennett, PhD

Administrative Officer and Faculty Development Officer
A Yates

Faculty Service Officer — Computing
P Reid, MSc

Occupational Therapy
Professor Chair
V Heits, PhD, MSc, TDipCOT

Clinical Lecturers
K Adams, Greenfield District Health District Community Therapy
J Albers, Dr Vernon Fanning

Clinical Assistant Professors
S Esmail, MSc
A McKinnon, PhD
J Misiaszek, PhD

Academic Coordinators of Clinical Education
M Dersall, MAOT, BScOT
S Mutoholland, MSc, BScOT

Adjunct Professors
R Bland, MB, CHB, MICS (Liverpool, DEBAC RCGP (London), MKCP, FRCP(C))
RM Feldman, MD, FRCP(C)
PN Cracken, MD, FRCP(C)

Adjunct Associate Professors
S Dennis, PhD
DWC Johtahon, BMEdSc, MD

Adjunct Assistant Professors
L Kennedy, MSc, BSc

L Buchan, Cross Cancer Institute
L Martin, MSc
L Reimer, MSc
N Reynolds, BScOT
W Tiley, BScOT

Clinical Lecturers
K Adams, Greenfield District Health District Community Therapy
J Albers, Dr Vernon Fanning

Clinical Assistant Professors
S Esmail, MSc
A McKinnon, PhD
J Misiaszek, PhD

Academic Coordinators of Clinical Education
M Dersall, MAOT, BScOT
S Mutoholland, MSc, BScOT

Adjunct Professors
R Bland, MB, CHB, MICS (Liverpool, DEBAC RCGP (London), MKCP, FRCP(C))
RM Feldman, MD, FRCP(C)
PN Cracken, MD, FRCP(C)

Adjunct Associate Professors
S Dennis, PhD
DWC Johtahon, BMEdSc, MD

Adjunct Assistant Professors
L Kennedy, MSc, BSc
The importance of Medical Rehabilitation was recognized by the University when it established a program in Physical Therapy in 1954 and a program in Occupational Therapy in 1960. The Division of Speech Pathology and Audiology first offered courses in 1969.

### 142 Undergraduate Programs

Undergraduate programs are offered in the Departments of Physical Therapy and Occupational Therapy. Admission requirements for both programs are explained in §15.13. All students must undertake clinical practice during their course of study in approved institutions under the supervision of qualified professional staff. Students will be required to complete some fieldwork/clinical placements in the summer months and may include regional, national and international locations. Students must travel in order to meet the clinical education requirement. Students are responsible for the costs associated with fieldwork/clinical placements (e.g., travel, accommodation, appropriate dress and immunization expenses).

### 142.2 Programs for Master’s Degrees

#### Master of Science in Physical Therapy

The Department of Physical Therapy offers a research program leading to the degree MSc in Physical Therapy. A thesis is part of the requirement of the program. Students may choose from a number of areas of study, which must be compatible with the research interest of the faculty members. The program normally requires two years, but the time may vary according to the academic background of each student. It is possible to enter the program in January, May, or September.

For further information, contact the Chair, Graduate Program Committee, Department of Physical Therapy, Faculty of Rehabilitation Medicine, University of Alberta, Edmonton, AB T6G 2G4.

#### Master of Science in Occupational Therapy

The Department of Occupational Therapy offers a program leading to the degree MSc in Occupational Therapy. A thesis is part of the requirement of the program. Students may choose from a number of areas of study, which must be compatible with the research interest of the faculty members. The program normally requires two years, but the time may vary according to the academic background of each student. It is possible to enter the program in January, May, or September.

For further information, contact the Chair, Graduate Program Committee, Department of Occupational Therapy, Faculty of Rehabilitation Medicine, University of Alberta, Edmonton, AB T6G 2G4.

#### Master of Science in Speech-Language Pathology

The Department of Speech Pathology and Audiology offers graduate work leading to the Master of Science in Speech-Language Pathology. The program provides speech-language clinicians with research skills to study the etiology, prevention, diagnosis, and remediation of speech, language, and hearing disorders. Students undertake research to enhance their abilities to take leadership roles in academic, clinical and laboratory settings.

The minimum entrance requirements include an undergraduate degree in Speech Pathology with a cumulative GPA of at least 6.5 on the 9-point grading scale used at the University of Alberta or an equivalent standing from another recognized institution. Applicants must also submit a statement of their research interests, three letters of recommendation, and the results of the Graduate Record Examinations (verbal, quantitative and analytical subtests).

#### Master of Speech-Language Pathology (Category B)

This entry level course-based master’s program is designed to provide students with the academic and clinical education required for a career in SLP. The minimum entrance requirements include a four-year baccalaureate degree and the grade point average obtained during the last 60 of undergraduate (or graduate) study must be at least 6.5 on the 9-point grading scale used at the University of Alberta or an equivalent standing from another recognized institution. Applicants must normally have completed preparatory courses in areas fundamental to the program. Information on required preparatory courses can be obtained from the Department. Applicants must submit three letters of recommendation, results of the Graduate Record Examination (GRE), and a statement of clinical research interests.

The minimum entrance requirements include a four-year baccalaureate degree. Applicants must normally have completed preparatory courses in areas fundamental to the program. Information on required preparatory courses can be obtained from the Department. Applicants must submit three letters of recommendation, results of the Graduate Record Examination (GRE), and a statement of clinical research interests.

### 142.3 Licensing by Professional Associations

#### Occupational Therapy

Graduates from the BSc in Occupational Therapy program may apply for membership in the Canadian Association of Occupational Therapists (CAOT), Carleton Technology and Training Centre, Suite 3400, Carleton University, 1125 Colonel By Drive, Ottawa, ON K1S 5R1, and the Alberta Association of Registered Occupational Therapists (AAROT), Suite 311, 4245–97 Street, Edmonton, AB T6E 3Y5.

To establish eligibility, CAOT requires successful completion of a certification examination.

#### Physical Therapy

Graduates from the BSc in Physical Therapy program may apply for membership in the Canadian Physiotherapy Association, 9th Floor, 890 Yonge Street, Toronto, ON M4W 3P4, and the College of Physical Therapists of Alberta, 1356, 5555 Calgary Trail South, Edmonton, AB T6W 1A1.

**Provincial Licensing:** In order to be a practising physical therapist in the Province of Alberta, graduates from the Physical Therapy Program at the University of Alberta are required to take the Physiotherapy Competency Examination which consists of both written (Qualifying Examination) and clinical (Physiotherapy National Examination) examinations. The fee for the examination is the responsibility of the student. Information on the cost of the examination can be obtained from the College of Physical Therapists of Alberta (CPTA). Successful completion of the PNE will enable graduating physical therapists to practice in Alberta. Contact (780) 438-0338 for more information.

#### Speech Pathology and Audiology

All graduates are eligible for joint membership in the Speech, Language and Hearing Association of Alberta (SHAA) and the Canadian Association of Speech-Language Pathologists and Audiologists (CASLPA). Applications may be forwarded to either SHAA at Suite 2210, Scotia Place, 10060 Jasper Avenue NW, Edmonton, AB T5J 3R8 (phone: 1-800-537-0589), or to CASLPA at 130 Albert Street, Suite 2006, Ottawa ON K1P 5G4.

**Provincial Licensing**

Graduates from all programs intending to practise in Canada must comply with provincial licensing requirements regardless of their professional qualifications.

#### Employment in Other Countries

Information regarding practice in other countries may be obtained from the appropriate professional organization, which also advises on the degree of reciprocity of registration to be expected.

### 142.4 Budget

In the Department of Occupational Therapy, a $30 Sundries Fee is charged in the second and third years of the program.

In the Department of Physical Therapy, a $40 fee is charged for materials and supplies to all full-time undergraduate students registered in the program. The fee for graduate students is $25 annually.

In the Department of Speech Pathology and Audiology, $10 is charged for materials and supplies in each year of the program.

### 143 Faculty Regulations

#### 143.1 Admission

See §913 and 14 for general admission requirements.

Admission information for the Occupational Therapy and Physical Therapy programs can be found in §15.13.
143.2 Professional Ethics/Code of Student Behavior

Students in the Faculty of Rehabilitation Medicine must adhere to the professional code of ethics of their respective professional/licensing bodies. Refer to 130.A.4.7 of the Code of Student Behavior, in the GFC Policy Manual, for additional information.

143.3 Academic Standing and Graduation

(1) Passing Grade: Under normal circumstances, each student must obtain a grade of no less than 4.0 in every course during the student’s program of study.

(2) Failure in Fieldwork or Clinical Work:
   a. A student must successfully complete each fieldwork/c clinical course to graduate from the program. A student may fail only one fieldwork/clinical course during the student’s program. If a student fails a fieldwork/clinical course, that course must normally be successfully repeated before subsequent fieldwork/clinical courses can be taken. If a student fails a repeat fieldwork/clinical course, the student will be required to withdraw from the program. If a student fails another separate fieldwork/clinical course, the student will be required to withdraw from the program. For further information, Occupational Therapy students refer to §144.1 and Physical Therapy students refer to §144.2.
   b. A student who fails a fieldwork/clinical placement may appeal that decision. Information regarding appeal procedures is available in the fieldwork/clinical placement procedures manual.

(3) Promotion and/or Continuation
   a. Any student failing to obtain a minimum GPA of 5.0 in any academic year will be required to withdraw from the Faculty.
   b. Students identified as second-time problem students by the Revisions Committee and referred to the Department Chair for review may also be required to withdraw.

(4) Grade of Incomplete: Subject to the approval of the Dean, a grade of incomplete is normally used when a student is prevented by illness, domestic affliction or other extreme circumstances from completing the course requirements at the specified time. Where this grade has been given, the student must submit the assignment within 10 days after the series of final examinations scheduled for this particular course is complete, except in cases where, at the discretion of the Department Chair, the Dean grants an extension. Failure to comply with this regulation results in a grade of 0 for the portion of the course in which the grade of incomplete was given.

(5) Time Limits for Completion of Programs: Students are normally required to complete all requirements for their undergraduate degree within four years for Physical Therapy and three years for Occupational Therapy from the date of admission to the Faculty.

(6) Post Diploma Degree Completion: (Note: The Post Diploma BScPT completion program was discontinued effective September 1996.) Students admitted to the BScPT program are normally required to complete all requirements for their undergraduate degree within two years of the admission date.

(7) Electives: An elective course is approved if it (a) does not duplicate material covered in any compulsory course in the student’s program; (b) does not duplicate material covered in the previously approved elective courses; (c) is offered when no timetable conflict exists. Permission to take courses in other universities toward meeting the elective requirements of the student’s program is normally granted if these criteria are met. Credit is granted for approved off-campus courses if a grade of 5.0 (or equivalent) is obtained.

(8) Residence Requirements: The residence requirement for the Post Diploma (Degree Completion) program in the Department of Occupational Therapy normally consists of completing 24 credits offered by the University of Alberta on or off campus in Fall/Winter or Spring/Summer, of which at least 18 must be taken within a 12-month period.

(9) First-Class Standing: For the purposes of granting First-Class Standing and for granting awards open to students in more than one Department in the Faculty of Rehabilitation Medicine, a full normal academic course load is defined as a minimum of 30 taken during Fall/Winter.

(10) Academic and Clinical Requirements: To graduate, a student must meet the academic and clinical requirements outlined in the Calendar.

(11) Degree With Distinction: The Degree “With Distinction” is granted to students who obtain a minimum GPA of 7.5 in each of the final two years (third and fourth years) of the program, in each of which the student must take a minimum of 18 in Fall/Winter. Post Diploma Degree Completion students are not eligible to receive the Degree With Distinction.

(12) Repeating Courses
   a. Students may repeat a failed course only once.
   b. Students registered in the Faculty of Rehabilitation Medicine may not repeat any successfully completed course in their program.
   c. Students in any Faculty may not repeat for credit any successfully completed course offered by the Faculty of Rehabilitation Medicine.

(13) Reexamination Criteria: See §23.5.

143.4 Credit by Special Assessment

A student admitted to a degree program in the Faculty of Rehabilitation Medicine may receive degree credit in a limited number of courses for knowledge or skill obtained in either a university or non-university context. “Non-university context” may include work completed at institutions not accredited for degree purposes or work experience that relates to university courses. The following conditions apply:

(1) Limitations
   a. Number of courses allowed: Normally, only 12 obtained by special assessment may be applied to a four-year degree program in the Faculty of Rehabilitation Medicine. In exceptional circumstances, on the recommendation of a Department Chair, the Dean may permit additional credits by special assessment.
   b. A student may attempt credit by special assessment only once for each course.
   c. Courses not accepted: Graduate courses and certain undergraduate courses cannot be attempted by special assessment. Please contact Department concerned for courses in this category.
   d. Special Students may not take courses under this category.

(2) Timing of Assessment (Deadlines): Examination or assessment must be completed three months from the date of application for credit by special assessment. Unless extenuating circumstances exist, students who do not complete assessment requirements by the specified deadline are considered to have cancelled their application and must reapply if they want to complete that assessment.

(3) Transfer of “Credit by Special Assessment”: Students who have obtained credits by special assessment (or similar means) while enrolled in another university, college, faculty, or school are given advance credit in such courses only to the extent that the Faculty of Rehabilitation Medicine accepts such courses in its degree programs.

(4) Grades Assigned to Special Assessment Courses: In a course attempted by special assessment, the results are recorded either as a grade point or pass/fail according to the practice in the regular course. Students may not appeal the results in a course attempted by special assessment. Courses attempted by special assessment and failed are recorded on students’ transcripts and computed into their academic records.

(5) Fees: For information regarding fees, please refer to §22.2.

143.5 Practicum Placements, Professional Practice and the Public Interest

The Dean, or supervisor acting on behalf of the Dean, may immediately deny assignment of a student to, withdraw a student from, or vary terms, conditions, or site of practicum/clinical placement if the Dean or supervisor has reasonable grounds to believe that this is necessary in order to protect the public interest. Refer to §23.8.2 Practicum Placements, Professional Practice and the Public Interest, and §87, GFC Policy Manual for additional information.
143.6 Fieldwork/Clinical Practice Requirements

(1) Procedures: The procedures governing fieldwork/practice are binding and will be provided in a procedures manual. Also refer to §§144.1 and 144.2 for information specific to the Occupational Therapy and Physical Therapy programs.

(2) Fieldwork/Clinical Practice at Site: When students attend required fieldwork/practice placements at approved institutions, students will also follow the administrative procedures and regulations of that institution. Students must attend fieldwork/practice placement orientation seminars.

(3) CPR Certification: Students in the Faculty of Rehabilitation Medicine must obtain certification in cardiopulmonary resuscitation (CPR) before entering their clinical placements. All fees and other costs for CPR certification and recertification are the students’ responsibility. Students must maintain their certification by recertifying in each of the subsequent years they are in the program.

Occupational therapy students may complete approved CPR certification courses offered elsewhere.

(4) Criminal Records Check: Students should be aware that under the Alberta Protection of Persons in Care Act, they may be required to satisfy a criminal records check before being allowed to serve a period of internship, practicum placement, work experience or to complete a course requirement. Refer to §23.8.3.

(5) Immunization Requirements and Bloodborne Pathogens Policy: Rehabilitation Medicine students are health care professionals who will be exposed to patients during the course of studies at the University. To ensure, insofar as possible, both student and patient safety, the Faculty requires immunization, or proof of immunity, to poliomyelitis, diphtheria, tetanus, measles, mumps, rubella and hepatitis B. As well, varicella titre, hepatitis C and TB testing are required. A two-step tuberculin skin test is required in the first year of the program and should be performed by the University of Alberta Health Centre.

The University of Alberta recognizes its duty to minimize the risk of transmission of bloodborne pathogens to/by individuals studying or working at this University. The Bloodborne Pathogens Policy limits the possibility of bloodborne pathogens within the educational setting. The University recognizes, however, that it is not possible to completely eliminate the risk of infection. Refer to the GFC Policy Manual, §108.12, for additional information.

The Faculty of Rehabilitation Medicine, in accordance with University policies and other available guidelines, has developed the following policies concerning bloodborne pathogens. These policies will be reviewed and adapted as further information becomes available.

Hepatitis B: Hepatitis B surface antigen testing will be performed by the University of Alberta Health Centre. For those students who test negative for hepatitis B surface antigen (HBsAg), hepatitis B vaccination will be required. An exception will be made for those individuals who have proof of prior vaccination and test positive for antibody to hepatitis B surface antigen (antiHBs). After vaccination, students will receive a second test to determine if they have converted to produce the appropriate antibody titre. If they have not converted they will receive a second vaccination and again be tested. Those students who then fail to convert will be counselled as to their potential risk status during training and future practice.

For those students who test positive for HbsAg, their “e” antigen (HBeAg) status and the presence of hepatitis B viral DNA will be determined. If they are found to be positive for the “e” antigen or the viral DNA they will be counselled as to their risk of infecting patients.

Hepatitis C: Hepatitis C antibody testing will be performed by the University of Alberta Health Centre. Students found to be positive will be counselled as to how to minimize their risk of transmission to patients and how to manage their own health.

Human Immunodeficiency Virus (HIV): The data relating to transmission of HIV from a health care worker to a patient in a health care setting are limited. Transmission from patients to a health care worker is more common. All students accepted into the Faculty are encouraged to undergo HIV testing at any time during their program when concerns about infection have arisen. Testing for HIV is not mandatory.

Immunization/bloodborne pathogen requirements must be fulfilled by November 30 of the current academic year. Students must sign a waiver if they are unable to meet these requirements due to medical contraindication.

143.7 Appeals and Grievances

Every student may have individual grades reviewed. Students should first approach the instructor concerned, then, if necessary, the Department Chair.

Decisions affecting a student’s academic standing may be heard by the Faculty Academic Appeals Committee. Full academic appeal regulations may be obtained in the Office of the Dean.

Certain unsuccessful appeals at the Faculty level may be further appealed to the GFC Academic Appeals Committee. See §23.8.

Deadline

All appeals regarding academic standing must be received in writing by the Dean, within 21 calendar days, following publication of final results.

144 Programs of Study

144.1 Degree of BSc in Occupational Therapy

(1) Orientation Program: The BScOT program requires that each student, after acceptance into the program, attend a department orientation program immediately before the beginning of the first term. Dates are confirmed on admission. Attendance at the orientation program is a prerequisite for OCCTH 328.

(2) Fieldwork Policy: Also refer to Faculty regulations in §§142.1, 143.3(2), 143.5 and 143.6. All students must complete five full-time fieldwork placements at approved facilities under the supervision of qualified staff. Each placement is assigned a course number, and fieldwork courses are normally scheduled as follows:

OCCTH 324 Fall term of third year
OCCTH 328 Spring/Summer following third year
OCCTH 428 Fall term of fourth year
OCCTH 433 Winter term of fourth year
OCCTH 434 Spring term of fourth year

Although efforts are made to consider individual requirements, if a student declines a placement, that placement is released to another student. Due to the limited national supply, another placement normally is not available until the next selection period. Declining a placement lengthens students’ programs and delays their graduation.

Before undertaking fieldwork courses in each year of the program, students must attend an annual fieldwork seminar, and fulfill all fieldwork prerequisites.

Normally, withdrawal from a fieldwork course is allowed up to eight calendar days following the mid-term evaluation for one fieldwork course within the program. Such a withdrawal is assigned a grade of “W.” Any withdrawal after that period is assigned a grade of “WF” (Withdraw Failing). A student withdrawing from a fieldwork placement must repeat the course in a similar setting and type of service. Reregistration in the course and payment of course fees applies. If a second fieldwork course is assigned a grade of “W” or “WF,” the student’s withdrawal from the Faculty is recommended, on the basis that clinical competence was not demonstrated.

Reexaminations are not possible in fieldwork courses; students who fail a fieldwork placement must repeat that course. They must reregister and pay the required course fees. Normally, a student may repeat only one fieldwork course. If a student fails the repeated course or a second separate fieldwork course, the student must withdraw from the program.

Students may appeal a course grade received in a fieldwork course in accordance with §§23.8 and 143.

(3) Promotion: Students normally complete courses according to the Program sequence. If a student has deficient credit in a course or courses from a previous term, through failure or otherwise, that student must normally clear the deficiency the next time the course(s) is/are offered and is considered a repeating student.
(4) Program

Note: The following plan applies to students admitted to the BSc in Occupational Therapy program in 2001/2002.

(5) Repeating Students: Repeating students are normally required to complete a full academic program of 30 to be considered for promotion. However, students are not required to take more than the normal number of courses to complete their programs.

144.2 Degree of BSc in Physical Therapy

(1) Professional Development I - The BScPT program requires that each student begin the first year of the program by attending an orientation. This will comprise of a one-day orientation immediately before commencing classes and several other sessions held during the first week of classes. Attendance at the orientation is compulsory and will be a prerequisite for PTER 201.

(2) Professional Development II - The BScPT program requires that each student in the second year of the program attend a series of sessions on issues of professional practice and skills for effective writing and learning contract design. Students who have completed a university-level English writing course may receive advance credit for the effective writing component. Attendance at these sessions will be a prerequisite for subsequent clinical practice courses. Dates and times to be confirmed the first day of classes.

(3) Under normal circumstances, a student enrolled in physical therapy may not take required courses in one year of the program until all the required courses of the previous year of the student’s program are successfully completed.

(4) Students are not required to take more than the normal number of courses to complete their program.

(5) Physical Therapy students must pass the practical and theoretical examinations of any Physical Therapy course having a practical and theoretical component.

Any student with a grade of 3.0 or less in a course must upgrade that mark to at least a 4.0 by one reexamination to continue in the Faculty. Reexamination depends on the student having an overall GPA of 3.0 or more, including the failed course. Any student failing to acquire a grade of 4.0 or more on reexamination may be allowed to repeat the course or may be required to withdraw from the program.

(6) Clinical Practice Policy: For Physical Therapy Clinical Practice Failure Policy see §143.3(2). In addition to the clinical prerequisites in §143.6, the students must also

- successfully complete the appropriate academic courses
- obtain licensure with the College of Physical Therapists of Alberta

Clinical Practice is defined as practical placements within various facilities during all four years of the Physical Therapy program. This clinical practice is divided into seven courses. The first-year course consists of a one-week, full-time placement at a clinical affiliation approved by the Department. The remaining six courses consist of five-week, full-time placements at clinical affiliations approved by the Department.

(7) Clinical Practice Failure Policy: A student must successfully complete each clinical course to graduate from the program. A student may fail only one clinical course during the student’s program. If a student fails a clinical course, that course must normally be successfully repeated before clinical courses in the following year can be taken. If a student fails a repeat clinical course or fails a second clinical course, the student is normally required to withdraw from the program.

Notes

(1) Humanities and Social Sciences (Liberal Arts) elective(s) strongly recommended.

(2) The number of students receiving two clinical placements in second year of the program will be determined by the availability of placements. Students who do not receive two placements in Spring/Summer will complete three placements in the third year of their program.

(3) Students who did not complete two placements in Spring/Summer of the second year of their program will complete three placements in the third year of their program.

144.3 Graduate Programs in Rehabilitation Medicine

Master of Science degrees are offered in the areas of Occupational Therapy, Physical Therapy, and Speech/Language Pathology. A Master of Speech/Language Pathology is also offered. The Faculty also offers a PhD in Rehabilitation Science. See §175.82.
