221.1 Historical Sketch

The University of Alberta is a publicly supported, non-denominational, co-educational institution. It is a member of the Association of Commonwealth Universities and of the Association of Universities and Colleges of Canada.

The University’s main campus of 89 hectares borders the wooded southern bank of the North Saskatchewan River and lies about two miles from Edmonton’s business centre. Away from the main campus, the University Farm occupies approximately 148 hectares; other holdings include the botanical gardens near Devon and lands as far away as Fort Assiniboine. A considerable area is held under rental agreements, including the Ellerslie farm and the Kinsella ranch.

Some two dozen major teaching and research buildings are situated on the campus as well as two affiliated colleges, six halls of residence, the Edmonton Veterans’ Hospital, the Aberhart Sanatorium, the Dr WW Cross formerly part of the original campus, are the quarters of the Research Council Students’ Union, and service buildings. Michener Park, once part of the campus as well as two affiliated colleges, six halls of residence, the Convocation of 1912, with Mr Justice CA Stuart presiding as Chancellor.

The Beginnings of the University

Excerpt from University Beginnings in Alberta, by RK Gordon.

We were a small, light-hearted company, hardly more than a score of us; and all of us were young. We lived in a clearing in the poplar bush on the south bank of the North Saskatchewan River. On the sloping sides of the great valley and on the flats below the coyotes barked and howled at night, but on top of the bank we taught mathematics and physics, Greek and history, English Literature, and biology. Along with some four hundred students and two red brick buildings, we were the University of Alberta; and we felt sure that the future belonged to us, not to the coyotes.

We looked across the river to the newly-finished building of the Provincial Government, which in its wisdom had brought us into being and from which came our very modest monthly cheques. Just below the Government Building stood the rather forlorn remains of old Fort Edmonton, but they were not long allowed to cumber the landscape. The new, raw, bustling city was not interested in a reminder of its humble beginnings. The future was the thing, and of the dazzling glory of that future nobody was so mean-spirited as to entertain the slightest doubt.

Alberta became a province in 1905. In 1906 the first session of legislature passed an act to authorize the establishment of the University of Alberta. The act’s sponsor was Alexander Cameron Rutherford, Alberta’s first Premier and first Minister of Education. His government purchased the site in what was then Strathcona, and Dr Rutherford himself persuaded Henry Marshall Tory to leave McGill to become the University’s first President, an office he held from 1908 to 1928.

The act permitted all resident graduates of British and Canadian universities to register as members of Convocation. Convocation elected five members to a Senate; the government appointed ten more. The Senate, acting as the governing body of the University, established the Faculty of Arts and Science as the core of the new institution. In 1910 a revision of the University Act constituted the Board of Governors, with powers of business management and administration.

Classes opened in September 1908, in what is now Queen Alexandra School with forty-five students and a faculty of five: WH Alexander, Classics; EK Broadus, English; WM Edwards, Mathematics; LH Alexander, Modern Languages; and Dr Tory himself. Thence they moved to the upper floor of Strathcona Collegiate Institute and then in 1911 to Athabasca Hall, Athabasca not only serving as residence for staff and students, but also accommodated classrooms, laboratories, the library, the gymnasium, and the administrative offices. The members of the first graduating class received their degrees at the Convocation of 1912, with Mr Justice CA Stuart presiding as Chancellor.

A period of rapid growth followed, with registration reaching 439 in 1914. Assiniboia Hall was completed in 1913, Pembina Hall in 1914, and the Arts Building was formally opened in 1915. The Faculty of Law had its beginning in 1912. In the same year the Department of Extension initiated its work of promoting a closer relationship between the University and the people of the province. In 1913 the Faculty of Applied Science (renamed Engineering in 1948) and the Faculty of Medicine were instituted, the latter able to offer three years of a five-year program.

The Students’ Union was established during the first session and the first edition of the Gateway, the students’ newspaper, appeared in 1911. The Committee on Student Affairs began in 1912 as a joint committee of students and University officials to exercise general supervision over matters affecting student welfare and discipline. Today the Council on Student Affairs carries on its work.

Years of Challenge: 1914 to 1945

The outbreak of war in 1914 slowed the pace of development. The new University sent 439 of its staff, alumni, and students to the armed forces. Eighty-two were killed or died on active service. Their names, together with those of the casualties of the war of 1939–45, are commemorated on a bronze tablet near the entrance to Convocation Hall.

Although the war brought a halt to the building activity, the organization of the University’s teaching moved on with the establishment of the Faculty of Agriculture in 1915, the School of Accounting in 1916, the School of Pharmacy and the sub-faculty of Dentistry in 1917, and the Department of Household Economics in 1919. Of these, the School of Accounting became the Faculty of Commerce, now the Faculty of Business, and Pharmacy, Dentistry, and Household Economics all became Faculties.

With the end of the Great War the University rapidly expanded in number of students and staff. New laboratories were built adjacent to the Arts Building, and the Medical Building was completed in 1921; new wings were added following the war of 1939–45. The curriculum was fundamentally revised in 1919–20 to permit greater freedom in election of courses. The first summer term was held in 1919. The institution of the Research Council of Alberta signified not only an increasing emphasis on science, but a further recognition of the University’s involvement in the development of the province.

In 1927 St Joseph’s College was opened under Roman Catholic auspices. St Stephen’s College had been, as Alberta College South, the first building on the campus. After the union of the Methodist and Presbyterian churches, it was renamed in 1927 and became the United Church theological college for Alberta.

The depression years brought serious problems. Though registration did not decline, its increase was painfully slow, from 1,560 students in 1929 to 2,327 in 1939. Full-time teaching staff increased even more slowly. The budget actually fell and did not recover to its pre-depression level until after the war. No new building took place after the present Corbett Hall was completed. Corbett Hall was originally constructed as a provincial normal school, not a University building. RC Wallace succeeded President Tory in 1928, and in 1936 was followed by WARR Kerr, who had been the first Dean of the Faculty of Arts and Science. The affiliation of Mount Royal College in 1931 marked a beginning of university work in Calgary. The Banff School of Fine Arts opened in 1933 and the Western Board of Music was established in 1931. Entrance to the University from Grade 11 was abolished in 1937. In 1930 fraternities were permitted; a less controversial change was the abolition of the old practices involved in freshman initiation.

The impact of the war of 1939 was very different from that of 1914–18. Though war naturally disrupted the University’s life, there was a determination to preserve its essential being while using its facilities as fully as possible in relation to the national effort. The Air Force took over the three residences and out-of-town students, whose number had not substantially declined, flocked into Garneau boarding houses and made use of a new cafeteria known to later generations as Hot Caf (which was demolished in 1963 to provide the site for the Central Academic Building). Medicine, Dentistry, and Education offered accelerated courses. Engineering offered special courses to members of the armed services. No more important development took place than the acceptance in 1945 by the University of sole responsibility for the training of Alberta teachers. The School of Education, established in 1928, became a faculty in 1942, and after the war it became, in terms of enrolment, the largest in the University.

Robert Newton was named President on WARR Kerr’s retirement in 1941. He played an important part in the framing of the University Act of 1942, which transferred from the Senate to the General Faculty Council jurisdiction over academic matters and vested all final authority in the Board of Governors, whose jurisdiction had previously been confined to finance.

Years of Expansion: 1945 to 1969

With the end of the war, a flood of veterans poured into the University and registration rose from 2,023 in 1943–44 to a peak of nearly 5,000 in 1947–48. Accommodation in classrooms, laboratories, and libraries was pathetically inadequate, and housing was generally even less satisfactory. Army hats only partially relieved the pressure. By 1947 student numbers had tripled from
pre-war figures, but full-time teaching staff did not even double. Thereafter the pace of campus development slowly increased. New wings were added to the Physical Science Building in 1947 and 1948; the first Students' Union Building opened in 1950, the Rutherford Library and the Engineering Building in 1951, and the Agriculture Building in 1953 (now, after enlargements and renovations, the Earth Sciences Building). The Administration Building dates from 1957.

The hectic post-war years merged into the slower growth of the 1950s. Andrew Stewart became president in 1950 and was succeeded by Walter H Johns, who served from 1959 to 1969. In that ten-year period the enrolment rose from approximately 5,000 to 17,500, as the post-war generation came to university age.

This unprecedented increase in numbers made necessary the rapid construction of new buildings during the 1960s. The Physical Education Building, the Physical Sciences Building, and additions to the Medical and Engineering Buildings were followed by the Education Building in 1963, the Donald Ewing Cameron Library, the Household Economics Building, and the new residences named after western explorers. The dining centre was named in honor of Reg Lister, who had for so many years taken care of the older residences. The Henry Marshall Tory Building was opened in 1966, Phase I of the Engineering Centre in 1968, and the Clinical Sciences Building of the Faculty of Medicine in 1969. A new Students’ Union Building opened in 1967.

No major changes in the University’s legal status occurred until the Act of 1966 provided for the establishment of other and separate provincial universities under a Universities’ Commission, which has since disbanded. An increasing range and complexity of subjects studied at the University was reflected in the classification of Graduate Studies as a faculty in 1957, in the division of the Faculty of Arts and Science into two faculties in 1963, and in the foundation of a number of new centres and institutes dedicated specifically to research. A School of Library Science was created in 1968; an independent Faculty from 1975 to 1991, it is now, as the School of Library and Information Studies, a unit within the Faculty of Education. Outside of Edmonton, the University’s work in Calgary, instituted in 1951, gradually expanded and an affiliated junior college was established in Lethbridge. These became separate universities in 1966. Other junior colleges in Medicine Hat, Camrose, Red Deer, and Grande Prairie became affiliated with the University to help bring higher education to more areas of the province.

Recent Years

Max Wyman, the first graduate of the University to become its president, took office in 1969 and served until 1974; Harry Gunning followed from 1974 to 1979; Myer Horowitz from 1979 to 1980; and Paul Davenport from 1980 to 1994. Roderick Fraser took office at the beginning of 1995. During these years new problems arose, as a levelling of student numbers and worldwide inflation made the University’s projected budgets less adequate than had been expected.

In the 1980s a gradual increase of student numbers resumed, reaching almost 25,000 full-time and more than 4,000 part-time students in 1986-87. Buildings which began as one were completed by several others: the Biological Sciences Building and the Central Academic Building in 1970, the Law Centre in 1971, and the Basic Medical Sciences Complex and the Engineering Centre, Phase II, in 1972. In 1972, also, the first residents moved into the Housing Union Building, designed and financed on the initiative of the Students’ Union. Since then, the Humanities Centre, the Fine Arts Building, one phase of a projected expansion of the Rutherford Library, and additions to the Chemistry Building and Education Building have successively come into use. In 1978, following several years of moratorium on construction, ground was broken for a new Agriculture and Forestry Building: it was completed and opened in October 1981. Part of the Walter C Mackenzie Health Sciences Centre was opened in 1982, and a new building for the Faculty of Business was completed in 1984.

A growing awareness of the value, both architectural and practical, of the University’s older buildings led to a decision to renovate, rather than demolish. Pembina Hall, Pembina’s transformation into a fully modern graduate student residence was so successful that it earned national recognition in the form of a Heritage Canada Award. Athabasca Hall underwent an even more drastic transformation, as its wooden construction needed to be completely replaced with modern materials; the renovated building was reopened in the autumn of 1977 and received a Heritage Canada Award in its turn. A similar rebuilding of Assiniboia Hall was completed in 1982. Convocation Hall was also renovated, and a new organ installed; several recitals on this instrument have been nationally broadcast since it was inaugurated in 1978. Renovation of the Arts Building was completed in the spring of 1988.

In 1970 the Collège Saint-Jean, in South Edmonton, became an integral part of the University as the Collège Universitaire Saint-Jean and in May of 1978 it became the University’s newest faculty when the name officially changed to Faculté Saint-Jean. It offers a bilingual program of courses in Arts, Science, and Education.

A School of Native Studies, providing a curriculum and a learning environment designed specifically to meet the needs of Canada’s Aboriginal peoples, was founded in 1979. In 1981 it became the University’s newest faculty when the name officially changed to Faculté Saint-Jean. It offers a bilingual program of courses in Arts, Science, and Education.

Spring Term (a six-week period between the end of the regular Fall/Winter and the beginning of Summer Term), during which intensive courses are offered, was inaugurated in 1972 and proved to be an immediate success.

The importance of scholarly publishing in the academic community was recognized when the Board of Governors formally established the University of Alberta Press. Although at first without regular staff, the Press nevertheless succeeded in publishing a small group of works of high quality. The appointment of Les Gutteridge as the first Director of the Press in 1977 placed its operations on a more adequate basis; since then it has issued a number of works of scholarly value each year. The publication in July 1981, of A History of the University of Alberta, by former president Walter H Johns, was a sign of the maturity both of the University and of the Press.

In 1983 the University celebrated the seventy-fifth anniversary of its foundation in a way that illustrated its significance in Canada and the international community. HRH the Prince of Wales received an honorary doctorate at a special convocation, and opened the World University Games, which attracted more than 6,000 participants from 87 countries to a wide variety of athletic and cultural events. The Universiade Pavilion, the Tennis Centre, and new student housing in Garneau, all completed in time to be used during the games, remain as reminders of the occasion.

In the 1980s the University was severely affected by retributions in the federal budget; a state of financial exigency was declared by the Board of Governors in 1994. As part of an effort to reduce administrative costs without impairing educational quality, a number of faculties and departments were merged. Nevertheless, in fulfilment of the purposes of a generous private donation, it was possible in 1994 to complete the Timms Centre for the Arts, with up-to-date facilities for the performing arts, a sign of the University’s continuing commitment to enhancing the quality of life in the community as a whole.

221.2 University Traditions

The University Motto

The University motto, Quae cunque vera, is taken from the Latin Vulgate version of the Bible, the Epistle of St Paul to the Philippians, chapter 4, verse 8:

De cetero, fratres, quaecumque sunt vera, quaecumque pudica, quaecumque justa, quaecumque sancta, quaecumque amabilia, quaecumque bonae famae, si qua virtus, si qua laus disciplinae, haec cogitate.

Following is the same passage, from the King James version:

Finally, brethren, whatsoever things are true, whatsoever things are honest, whatsoever things are just, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report; if there be any virtue, and if there be any praise, think on these things.

The Coat of Arms

On November 15, 1909, a motion by the faculty recommended to the Senate the adoption by the University of the provincial coat of arms, with the addition of an open book above the shield and the motto Lux et Lex; the words “University of Alberta” were to be attached as might seem fit. The present motto was substituted in January 1911 for the one originally proposed. In 1950 the representation of the coat of arms was altered to conform better to the principles of heraldic design but these arms were never actually registered.

In 1994 a new coat of arms incorporating a number of traditional symbols associated with the University or the Province, or with learning, was officially
granted by the Canadian Heraldic Authority. In non-technical language, it consists of the following elements:

**Shield:** A representation of the topography of Alberta (wheat fields, hills, rivers, and the Rocky Mountains) derived from the provincial coat of arms, and a book symbolizing learning.

**Crest:** A Great Horned Owl, the provincial bird and a traditional symbol of wisdom.

**Supporters:** A pronghorn, taken from the provincial coat of arms, and a golden bear, long the University mascot, standing on a mound of wild roses, the floral emblem of Alberta.

**Motto:** Quae心目que vera.

### The University Colors

The original suggestion for green and gold University colors came from Marion Kirby Alexander, who drew her inspiration from the autumn colors of the river valley below the campus. Her husband, William Hardy Alexander, Professor of Classics, relayed the suggestion to the Faculty meeting on October 5, 1908. At its first meeting of October 13, 1908, the Senate approved the combination of green and gold as particularly appropriate to the new University of Alberta. The green represents wide stretches of prairie land flanked by deep spruce forests, and is symbolic of hope and optimism; the gold represents the golden harvest fields and is symbolic of the light of knowledge.

### Academic Costume

#### Undergraduate Degrees

All undergraduate and master’s degree gowns are the customary Cambridge shape, i.e., a gown of black material falling below the knee with full sleeves cut to the elbow and terminating in a point. Hoods are made in the Oxford pattern of spruce green material. The Bachelor’s hood has a border three inches wide of the color distinctive of the Faculty as noted below. The Master’s hood has a full lining of the color distinctive of the Faculty also noted below. Mortarboards are the standard black tucker shape with black tassels, which are worn forward and to the left.

#### Doctorate Degrees

Doctoral gowns (PhD, DMus, and EdD) conform to the Intercollegiate Code in design. They are made of black material and the velvet trim on the sleeves is Philosophy Blue for the PhD and DMus, and Education Light Blue for the EdD. Doctor’s hoods conform to the Intercollegiate Code in shape, size, and color. They are made of black material to match the gown, and have a full lining of gold satin with a six-inch green satin chevron. The velvet trim distinguishes the two degrees and matches the velvet trim on the gown’s sleeves. There is a narrow green piping where the gold lining joins the black material. Mortarboards are the standard black tucker shape with black tassels, which are worn forward and to the left.

#### Honorary Degrees

Honorary Doctors of Laws (LLD), Letters (DLitt), and Science (DSc) wear a scarlet robe faced with white silk. Hoods are made in the Cambridge form of scarlet silk with a full lining of white silk. Caps are black velvet with a gold tassel.

1994 - 1998 Louis Davies Hyndman
1998 - 2000 Lois Elsa Hole
2000 - 2005 John Thomas Ferguson
**Constitution of the University**

**222.1 Introduction**

The main lines of the constitution of the University of Alberta are laid down in the Universities Act assented to April 15, 1966.

**222.3 The Universities Coordinating Council**

**222.3.1 General Information**

The Universities’ Coordinating Council consists of the following representatives of each university in Alberta: the President, the Vice-President (Academic) and Vice-President (Finance), two Deans and two other members of the academic staff appointed by the General Faculties Council, and not more than three other members of the academic staff appointed by the Coordinating Council itself. The Chair is elected by the Council, but shall not be elected from the representatives of one university for more than three consecutive years. The Council may appoint a secretary and prescribe his or her powers, functions and duties.

The Council inquires into any matter that in its opinion calls for cooperative action on the part of the General Faculties Councils, and makes recommendations thereon to any General Faculties Council or the Minister of Learning; it may give its advice and opinions to the General Faculties Council or to the Minister on any matter. It may make recommendations to the Board of Governors of a University or to the Minister. It may determine minimum standards for the affiliation of colleges or other institutions with the Universities, and may recommend that an affiliation agreement be made, modified, or dissolved. It gives or withholds its approval of standards or policies proposed by a General Faculties Council with regard to the admission of first-year students to any University. It has jurisdiction over the conditions of entrance to certain learned professions and callings.

**222.4 The Chancellor**

**Chancellor of the University**

JT Ferguson, FCA, LLC (Hon)

The Chancellor is titular head of the University, and represents the public interest in the University. Elected for a four-year term of office by the Senate, the Chancellor is chair of the Senate, an ex officio member of the Board of Governors, confers all degrees and represents the University at ceremonial occasions.

**222.5 The President and Vice-Chancellor**

**President and Vice-Chancellor**

RD Fraser, BA, MA, PhD

The President, who is also the Vice-Chancellor, is ex officio a member of the Universities Coordinating Council, the Board of Governors, the Senate, and all faculty councils. The President chairs meetings of General Faculties Council and Deans’ Council. The President’s overall responsibility is to fulfill the vision and mission of the University, and is entrusted with the general supervision of the business affairs of the University and may make recommendations to the Board of Governors on any matter affecting the University.

**222.6 The Vice-Presidents**

**Provost and Vice-President (Academic)**

DR Oarran, BA, MA, PhD

The Provost and Vice-President (Academic) is the senior vice-president. In the absence or incapacity of the President, or when the presidency is vacant, he is the Acting President.

**Vice-President (External Relations)**

S. Green, BA

**Acting Vice-President (Facilities and Operations)**

JA Mitchell, MBA

Board Secretary
L Shulko

The Board of Governors is a corporation with the name “The Governors of The University of Alberta.” It consists of a Chair appointed by the Lieutenant-Governor in Council, the Chancellor, the President, and 17 other persons appointed by the Lieutenant-Governor in Council. Of the 17, two are members of the Alumni Association nominated by the Association, one is a member of the Senate nominated by it from those of its members who are not on the University Staff, two are members of the academic staff nominated by the General Faculties Council, one is a member of the non-academic staff nominated by the non-academic staff, one is a student nominated by the Graduate Students’ Association, two are students nominated by the Students’ Council, and eight are appointed as representatives of the “general public.” The conduct, management, and control of the University and all its property, revenue, business, and affairs are vested in the Board. The Board appoints the deans of all faculties, all members of the teaching staff, the Librarian, the Registrar, and all members of the administrative staff, but no one may be appointed to a senior administrative post or to the academic staff of the University unless first nominated by the President of the University. The Board provides for the maintenance of buildings and the erection of new buildings. It has authority to purchase and acquire such property as it may deem necessary for the purposes of the University. It fixes the various fees charged in connection with university courses and it makes financial provision for the establishment of new faculties, departments, and courses. It may establish arrangements designed to contribute to the educational and cultural advancement of the people of Alberta at large. When any question arises as to the powers or duties of the Senate or any other University body or of the President or a dean or other officer or employee, and these powers and duties are not definitely provided for in The Universities Act, the Board’s decision on the question is final.

The Senate is a unique, independent advisory body of community leaders which plays a critical role in linking with our community and enhancing the reputation of the University of Alberta. The Chancellor of the University is Chair of the Senate, which has 62 members, 30 of whom are elected from the general public, and nine of whom are appointed from the public by the Minister of Learning. It is the mandate of the Senate to inquire into any matter that might tend to enhance the usefulness of the University. It is specifically authorized to interpret the University to the public, to require reports from faculty councils, the Students’ Council, and any members of the academic staff; to receive and consider submissions from anyone interested in the University; to arrange for public meetings and other means of providing and acquiring information on the University. As a consequence, it may make reports and recommendations to the Board or the General Faculties Council or other appropriate body. In addition, the Senate may authorize the conferring of Honorary Degrees.
The Senate undertakes to accomplish goals that have been developed in accordance with the University’s key strategic initiatives. They include: raising the profile and enhancing the linkages of the University internally, provincially, nationally and internationally; examining and advising on specific issues of long-term importance to the University; increasing awareness of student issues; celebrating achievements and promoting the recognition of excellence; fostering support and funding from the government and the community; assisting in the recruitment of students with outstanding potential; assisting in the retention of outstanding faculty; and guarding University traditions.

General Faculties Council

Ex officio Members

The President
The Vice-Presidents
The Deans of the Faculties
The Director of the School of Library and Information Studies
The Director of the School of Native Studies
The Chief Librarian
The Registrar

Elected Members

50 members elected by and from the faculty

Statutory Student Members

2 Undergraduate students
1 Graduate student

Appointed Members

3 Members of the non-academic staff
3 Librarians
2 Representatives of the academic staff on the Board of Governors,
1 representative of the non-academic staff on the Board of Governors and
3 student representatives on the Board of Governors
2 Sessionsal/Temporary Appointments
2 Administrative and Professional Officers/Faculty Service Officers
The President of the AAS/UA
The President of St Joseph’s College
Dean of Students
Appointment Graduate Student Members (12)
Appointment Undergraduate Student Members (38)

Secretary

EA Schoeck, BA (Hons), MA

General Faculties Council (GFC) consists of the President, the Vice-Presidents, the Deans, the Librarian, the Registrar, elected members representing the Faculties and appointed members, including students. The number of elected staff members is twice that of the ex officio members and the number of appointed student members equals the number of elected staff members. General Faculties Council, subject to the authority of the Board of Governors, is the senior academic body of the University. It provides for the granting and conferring of degrees, for the approval of courses and programs of study, and for the hearing of certain appeals. GFC determines standards and policies respecting admission of students and it may make recommendations to the Board on affiliation of other institutions, on academic planning, campus planning, the budget, procedures regarding the appointment, promotion and dismissal of academic staff, and any other matter which it considers to be of interest to the University. It has the general supervision of student affairs.

Deans’ Council

EA Schoeck, BA (Hons), MA, Secretary

Deans’ Council is an advisory body to the President, the Board of Governors, and to General Faculties Council. It consists of the President, the Vice-Presidents, the Dean of each Faculty, the Director of the School of Native Studies, the Registrar and the Chief Librarian.

222.5 Faculty Councils

Each Faculty, except that of Graduate Studies and Research, has a council consisting of the President, the Dean of the Faculty, all full-time members of the academic staff of the Faculty, a representative of each of the appropriate professional societies associated with the Faculty appointed by General Faculties Council on the recommendation of the Faculty Council, and other persons appointed by General Faculties Council on the recommendation of the Faculty Council. The Council of the Faculty of Graduate Studies and Research consists of the President, the Dean, and other persons appointed by General Faculties Council.

Each Faculty Council, subject to the control of General Faculties Council, arranges the courses of study falling within its jurisdiction and provides for the setting of examinations and for determining the results. It deals with admissions and withdrawals and authorizes the granting of degrees in branches of learning within its jurisdiction.

The resources of the University of Alberta Library system comprise one of the major research collections in Canada. The system consists of numerous subject collections with a total of over 4.4 million volumes, 800,000 government documents, 33,000 serial subscriptions, 1.3 million maps, 1 million air photos, audiovisual resources, and a large collection of research materials in microform.

Collection access is provided through an on-line catalogue system, and assistance is offered in accessing other libraries and information resources worldwide through computer networks. The Library offers electronic literature searching of several hundred commercial databases, and provides interlibrary loan service through a network of research collections in North America and around the world.

The Humanities and Social Sciences Library includes, in the Rutherford Library, collections of monographs, bound periodicals, and government documents numbering about 1.7 million volumes, a very large collection of materials in microformats (more than 500,000 items), over 4,500 current periodicals in the Reading Room in Rutherford South, plus a significant collection of Canadian and foreign newspapers. The business reference library is located at the Winspear Reading Room in the Business Building. In addition, older HSS research resources numbering about 400,000 volumes are housed offsite at the Book and Record Depository (BARD). A large reference collection of electronic databases, CD-ROM products, indices, handbooks, and statistical sources provides access to the literature in the humanities and social sciences.

The Bruce Peel Special Collections Library is located on the lower level of Rutherford South. This collection of approximately 100,000 volumes houses the University’s rare books in the humanities and social sciences. It also includes some literary manuscripts, Western Canadian papers, and the archival collection of all the University of Alberta theses and dissertations. Major holdings in English literature include John Bunyan, John Milton, DH Lawrence, 18th century plays, and three-decker novels with emphasis on the Minerva Press. Western Canadiana is another collection area, as is 20th century fine printing from England, the United States, and Canada. Special Collections also houses the Javitch collection of North and South Amerindian materials.

The Science and Technology Library occupies the first four floors of Cameron Library. The collection includes information resources in all formats in the areas of science, engineering, agriculture, forestry and home economics. This library includes three unique collections. The William C Wonders Map Collection, the Science and Technology Special Collection, and the Canadian Circumpolar Collection, specializing in information about the Arctic and sub-Arctic regions of the world. This library also has two branches: the Mathematics Branch Library, located in the Central Academic Building, and the Physical Sciences Branch Library, located in the Chemistry Building.

Cameron Library also houses Information Technology Services, Bibliographic Services, Administrative Services, Interlibrary Loans/Document Delivery, and the Knowledge Common and the ONEcard Office.

The John W Scott Health Sciences Centre, in the Walter C Mackenzie Health Sciences Centre, contains information resources in all formats for the health sciences. The collection includes a reserve collection for these subject areas and a reference collection. Historical material is found in the Phyllis Russell Rare Book Room.

The John A Weir Memorial Law Library is in the Law Centre located on 111th Street and 89th Avenue. The Library contains law reports, statutes, and regulations for the Canadian federal, provincial, and territorial government, the United Kingdom, other Commonwealth countries, and the United States. It also has periodicals, treatises and textbooks, government documents, and reference sources. The collection includes books, microform materials, audio and video tapes, and access to electronic databases. The Library has extensive collections in oil and gas, health, and communications law. The collections are totally accessible through the on-line catalogue.

The other major library on campus is the Herbert T Coutts (Education and Physical Education) Library which occupies the three-storey east wing of the Education Building. This is the primary resource library for the Faculties of Education and Physical Education and Recreation. The Education Collection (located on the main and second floors) contains material on the theory and practice of teaching. The Curriculum Collection (located in the basement) contains learning resources and classroom materials for use with students from kindergarten to the Grade 12 level.

The Bibliothèque Saint-Jean is located at 8406 - 91 Street. It contains over 150,000 volumes (monographs, periodicals, and government documents) in the humanities, social sciences, education, and pure sciences. The collection
emphasizes French Canadian history and literature. Materials are in both official languages with an emphasis on French.

The Alumni Association, formed in 1915, counts among its members over 172,000 graduates world wide and in all walks of life. On graduation, without fee, every student automatically becomes a lifetime member.

Members in good standing are entitled to the numerous benefits included in the following list of Association Services and activities:

New Trail

Published three times per year, New Trail magazine travels to the four corners of the world. It is distributed free of charge to all University of Alberta graduates; however, alumni are encouraged to contribute a voluntary subscription fee. New Trail contains feature articles as well as alumni and campus news, including class notes.

Recreational Privileges

With an Alumni ONEcard, alumni and their families can obtain access to all campus recreational facilities at a special rate.

Reduced Insurance Rates

In cooperation with major insurance companies, the Association offers life, critical illness, auto and home insurance to alumni at special group rates.

Affinity Card

Special financial services, including an affinity credit card, are available to alumni and students. The affinity card is a unique way to contribute to the University.

Alumni Education and Travel Programs

A variety of activities, including a popular group travel program, help alumni expand their horizons and remain connected with the exciting learning activities at the heart of the university.

Library Privileges

With the Alumni ONEcard graduates are welcome to use library materials for only $30 annually.

Association and University Affairs

Alumni have a unique perspective to bring to University affairs. Alumni can be involved in University government by being elected to Alumni Council as Faculty Representatives or Members at Large. As members of the governing council of the Association, alumni stay informed about current developments at the University and initiate projects that benefit both alumni and current students and recognize the outstanding achievements of alumni and students. Alumni may also be named to various University bodies including the Senate and the Board of Governors.

Alumni Pride Awards

At the annual Alumni Pride Awards ceremony, the Alumni Association presents special recognition awards to outstanding alumni. The Alumni Pride Awards program includes Alumni Awards of Excellence, which recognize major achievements in the previous year; the Alumni Horizon Awards, which celebrate the achievements of alumni early in their career, and the Alumni Honour Awards, which recognize the significant contributions made over a number of years by University of Alberta alumni in their local communities and beyond. The Distinguished Alumni Award is the Association's highest honour. Award recipients are inducted to the Alumni Wall of Recognition. Housed in the Students’ Union Building, the Wall of Recognition celebrates the diverse achievements and contributions made by University of Alberta alumni to their chosen professions, to their communities and to society.

Student Scholarships and Awards

The Alumni Association sponsors a number of student awards and scholarships for undergraduate and graduate students. Reginal Charles Lister Memorial, Maimie S Simpson Memorial, Alumni 75th Anniversary and Alumni Council Millennium Scholarships and Awards can be found in the Undergraduate and Graduate Student Awards Handbook. Information on the Alumni Advantage Scholarship can be obtained from the Alumni Association website at www.ualberta.ca/alumni

Alumni Branches

Alumni Association branches are located in numerous Canadian cities and in several foreign countries. These groups of alumni organize social and educational functions for graduates in their area. They have their own constitution and executive committees and operate under the auspices of the Association.

Alumni Chapters

Alumni Chapters are organized for a number of faculties, departments, and special interest groups. These include Law, Rehabilitation Medicine, Medicine, Dentistry, Pharmacy, Business, Nursing, Library and Information Studies, Education, Health Services Administration, Forestry, Drama, Native Studies, East Asian Studies, and the Mixed Chorus. Administered by the Alumni Association with the cooperation of the relevant faculties or departments, these chapters have elected alumni executives. They serve to promote the welfare of their specific faculty, department, or area of special interest.

Class Representatives

Students in their senior year are regularly invited to volunteer to serve as the class representative for their department or faculty. Class representatives link the class and the Association. They assist classmates in maintaining contact with one another and the University by organizing reunions and preparing class newsletters.

Reunion Weekend

Each year the Alumni Association organizes a Reunion Weekend for all graduates. Special invitations are extended to classes celebrating their fifth or greater anniversary of graduation. Reunion Weekend activities include campus open houses, a Gala Dinner and Dance and a brunch for senior graduating classes hosted by the President of the University.

Newsletter Service

The Association absorbs all costs of mailing one newsletter per year for each class. Class representatives simply send a typed copy to the Alumni Office and the Office does the rest. If a class is organizing a reunion, the Office will send out two newsletters that year.

Official Alumni Mementos

In addition to official University of Alberta degree and picture frames, the Association offers special edition memorabilia to alumni.

Host Family

In conjunction with the U of A International Centre, alumni families are invited to share friendships and experiences with foreign students attending university.
Online Services

The Alumni Association also provides a variety of web-based services, including online mentoring, an e-mail address for life, alumni directory, and bulletin boards. Go to www.ualberta.ca/alumni for more information.

226 Affiliated Colleges

226.1 On-Campus Colleges

Two denominationally-sponsored colleges, with buildings on campus, are related to the University by an agreement described as affiliation, and offer courses that may be taken for degree credit by students of the University.

226.1.1 St Joseph's College

Academic Staff of the College

President
T. Scott, ccb, MA, MDiv, SSL, STD
Academic Dean
TF Hartrage, BA, MA, PhD

Philosophy

Associate Professor
J. A. Buys, MA, PhD

Theology

Associate Professor
P. J. Flaman, BA, STD
Assistant Professor
RB Sheard, BA, BEd, PhD

Lecturers
D. Bitter, ccb, BEd, MDiv, MA
R. Davis Mathias, BA, MA, PhD
K. Doyle, BEd, BHE, MRE
RM Hague, BEd, MTh, PhD
DM Kieser, BA, MA

Assistant to the President for Development
J. Cunningham

Director of Residence
J. Shenber, CSB, BSc, MDiv

Director of Campus Ministry and Student Services
S. Drummond, MA, MDiv

General Information

St Joseph’s College was established by the Roman Catholic Church and incorporated by the Legislature of Alberta and affiliated with the University of Alberta in 1926 to provide a Catholic dimension to postsecondary education. In collaboration with the University, the College contributes to liberal education through studying the Judaic-Christian intellectual and religious tradition and applying it to contemporary issues.

Courses Offered for University Credit

St Joseph’s offers courses in philosophy and theology to all students registered at the U of A for credit toward a BA degree or as Arts options open to students in other Faculties. The College also operates a Catholic Ethics Centre.

Christian Theology

For courses taught by St Joseph’s College in Christian Theology see §201 (Course Listings).

Philosophy

For courses taught by St Joseph’s College in Philosophy see §201 (Course Listings).

226.2 Off-Campus College

North American Baptist College, Edmonton has a formal affiliation agreement with the University of Alberta, under which certain courses offered by the college will be accepted by the University for transfer credit.

226.3 Public Colleges and Technical Institutes

Formal affiliation agreements do not exist between the University and the public colleges or technical institutes in the Province. However, arrangements are in place which allow for the transfer of students from these postsecondary institutions to the University of Alberta (See §14.2).

227 Associated Institutions and Agencies

Northern Health Services Program
See §92.2.3.

Alberta Research Council Inc

Managing Director and CEO
JR McDougall
Chief Financial Officer and Corporate Secretary

Energy Technologies

- Natural gas, conventional and heavy oil recovery and production technologies, reservoir management processes and protocols, novel downhole and surface oilfield equipment, specialty sensors and instrumentation
- Oilsands upgrading technologies for improved recovery and cost efficiency
- Pipeline design, operation, risk and reliability maintenance planning
- Non-conventional energy production

Forest Technologies

- Improved processing and products for the engineered composite and pulp and paper industry
- New products for agricultural fibres
- Research to advance the practice of forestry and sustainability of its ecosystems

Industrial Processes and Systems

- Research to understand and mitigate the impact of industrial activities on air, water and land resources, including climate change, greenhouse gases and CO2 management strategies
- Clean process and waste minimization technologies
- Advanced environmental analysis
- Advanced materials development, application and testing with a focus on polymer composites, industrial ceramics and metal composites
- Specialty analytical services and quality systems
- Manufacture of metalized ceramics to provide thermal management for use in electronic devices
- Industrial engineering and automation

The University of Alberta Hospital operates under the Capital Health Authority (CH), one of 17 regional health authorities in Alberta. CH serves a population of 816,000 from Edmonton, St Albert, Leduc and Strathcona County, as well as patients from across Alberta in various specialized programs. CH is responsible for all acute care, public health, home care and long-term care in the region.

CH is closely allied with the University of Alberta and other postsecondary education institutions in Edmonton.
