A Business Minor, an Arts Minor and an Agriculture, Forestry, and Home Economics minor are available in the BSc General programs.

An Industrial Internship option is available in BSc Honors and Specialization programs. Students enrolled in the Honors or Specialization program have an opportunity to enhance their studies with an Industrial Internship. The Faculty of Science offers an Industrial Internship Program designed to provide the honors and specialization students a relevant industrial experience. Students must complete an 8-, 12- or 16-month work experience term at the end of their third year to receive Industrial Internship designation on their degree certificate. For more details, please see individual departmental listings.
In many cases, transfer from one degree program to another can be easily arranged to suit students’ changing ambitions, needs, or academic qualifications. Regulations governing the Honors, Specialization, and General degree programs are found in §193.1, followed by descriptions of each degree program under the subject headings (§193.1 to §193.21).

192.3 Admission

General admission requirements for the University are set out in §§13 and 14. Specific admission information for the Faculty of Science is detailed in §15.16.

192.4 Definitions

The following terms, definitions, and abbreviations are used throughout this section of the Calendar. Also see the Calendar’s Glossary.

(1) Approved Option
In the Faculty of Science section, the term “approved option” appears only within the description of Honors and Specialization programs. For students registered in an Honors or Specialization BSc program, an “approved option” is a course (from Arts, Science, or another Faculty) approved in writing by the department directing the student’s program.

(2) Arts Option
Those courses offered by the Faculty of Arts for which the student is eligible and Christian Theology courses listed in §231, Course Listings. Note: Students registered in the Faculty of Science may not take SOC 210, 315 for degree credit.

(3) Courses Attempted
Refers to university or university transfer courses completed with a final grade and excludes courses from which a student has withdrawn with permission.

(4) Courses Successfully Completed
Refers to university with a final grade of D or higher.

(5) Course Weight
A unit of course weight indicates the instructional credit assigned to a course and is designated by the ★ symbol after the course number and name. Units of course weight form a part of the degree requirements and are also used to calculate a student’s Grade Point Average (GPA).

(6) Fall/Winter
The instructional period of September to April.

(7) Two-term Course
A two-term course is a single course with ★6.

(8) Term
The instructional periods from September to December and January to April. In Spring/Summer, the instructional periods of May/June (Spring Term) and July/August (Summer Term).

(9) Single-term Course
A single-term course is a single course with ★3.

(10) Junior Courses
Those courses numbered 199 or lower.

(11) Normal Course Load
A normal, full academic course load is ★30 during Fall/Winter.

(12) Option
The term “option” where it appears in programs means a course chosen by the student from offerings by the Faculties of Arts or Science if the necessary prerequisites have been met.

(13) Science Option
Those courses offered by the Faculty of Science for which the student is eligible. Note: Not all courses offered by the Faculty of Science are available to students registered in the Faculty of Science.

(14) Term
Refers to Fall, Winter, Spring, or Summer Term.

(15) Spring/Summer
The instructional periods of May/June (Spring Term) and July/August (Summer Term).

(16) Year of Program
Year of program, as referred to throughout the Science section, is defined below. Students who are applying to, or continuing in, the Faculty of Science are considered to be in

a. Year 1 if they have successfully completed up to ★20 of their degree program;

b. Year 2 if they have successfully completed between ★30 and ★59 of their degree program;

c. Year 3 if they have successfully completed between ★60 and ★89 of their degree program;

d. Year 4 if they have successfully completed at least ★90 of their degree program.

192.5 Academic Standing

In all programs in the Faculty of Science, academic standing is assessed on the basis of Grade Point Average. An assessment of academic standing is conducted for each student at the end of the student’s registration in the Fall/Winter regardless of the number of credits attempted and regardless of whether the student registered in one or both terms. Decisions regarding academic standing will be based on courses attempted during the previous Fall/Winter only. See §§23.4(6) and 23.9.2 for information on the calculation of GPA’s and the academic record.

Continuation in Programs

Students are normally permitted to continue in their degree program if the degree requirements for the year’s work are met. These requirements vary among the programs. In addition to the information below, the Calendar entry for each individual program should be consulted for further details.

192.5.1 Continuation in an Honors Program

Continuation in an Honors Program is by recommendation of the department concerned and requires a minimum GPA of 3.0 on a course load of ★24 or more in each of the preceding Fall/Winter. Some departments have higher or additional requirements.

Those Honors students who do not meet the continuation requirements of their program may apply to transfer to a BSc Specialization program or to the BSc General program, provided they meet the continuation requirements of those programs. Students whose GPA is between 1.7 and 1.9 (and who have not previously been on Academic Warning or Probation) may be permitted to continue in the BSc General program on Academic Warning.

Students in an Honors program whose GPA at the end of Fall/Winter is below 1.7 will be required to withdraw from the Faculty.

192.5.2 Continuation in a Specialization Program

Continuation in a Specialization program is by recommendation of the department concerned and requires a GPA of at least 2.3 in the preceding Fall/Winter. Some departments have higher or additional requirements. See the description of Specialization programs in individual department sections for details.

Those Specialization students who do not meet the continuation requirements of their program may apply to transfer to the General program if they meet the minimum continuation requirements of the General program. Students whose GPA is between 1.7 and 1.9 (and who have not previously been on Academic Warning or Probation) may be permitted to continue in the BSc General program on Academic Warning.

Students in a Specialization program whose GPA at the end of Fall/Winter is below 1.7 will be required to withdraw from the Faculty.

192.5.3 Continuation in the General Program

Continuation in good standing in the General program requires a GPA of at least 2.0 in the preceding Fall/Winter. Students in the General program who have not previously been on Academic Warning or Probation and whose GPA at the end of Fall/Winter is between 1.7 and 1.9 will be permitted to continue on Academic Warning. See §192.5.5.

192.5.4 Unsatisfactory Standing—Required to Withdraw

This section is applicable to students in the Honors, Specialization or General programs whose GPA at the end of Fall/Winter is below 1.7.

(1) Students who have completed less than ★60 applicable to a BSc degree

Students, whether in an Honors, Specialization or the General program, who have completed less than ★60 applicable to a BSc degree (including the work completed during the Fall/Winter under review) and whose GPA at the end of Fall/Winter is below 1.7 will be required to withdraw from the Faculty.

Students, whether in an Honors, Specialization or the General program, who have completed less than ★60 applicable to a BSc degree (including
the work completed during the Fall/Winter under review) and whose GPA at the end of Fall/Winter is between 1.3 and 1.6 will be permitted to continue at the University of Alberta in the Fresh Start program. Students who have previously been on Academic Warning or Probation at this University or in any other postsecondary program are not eligible for the Fresh Start program. In referring students to the Fresh Start program, the Faculty may specify course requirements that must be fulfilled before the student will be considered for readmission to the Faculty of Science. If successful in the Fresh Start program and if all specified course requirements have been fulfilled, such students may apply for readmission to the Faculty of Science as transfer students as described in §15.16.9.

192.5.5 Probation and Academic Warning

(1) Probation

Students who have been required to withdraw and who have successfully appealed that decision will be placed on Probation in the BSc General program. (See also §23.6.2.)

Probationary students are given one Fall/Winter in which to clear probation and are not eligible for any extension of Probation beyond one Fall/Winter.

Probationary students must successfully complete ★24 during their one Probationary Fall/Winter. Probationary students may also be subject to specific course and program requirements.

Probationary students who fail to complete successfully ★24 with at least a 2.0 GPA on all work attempted during that Fall/Winter or who fail to fulfill all specified conditions of Probation will fail Probation and will be required to withdraw. Students who fail Probation are not normally readmitted to the Faculty.

Only one period of Probation is allowed while registered in the Faculty of Science. Students who have cleared Probation and whose GPA at the end of a subsequent Fall/Winter falls below 2.0 will not be permitted to continue on Academic Warning, nor will they be allowed a second period of Probation. Such students are required to withdraw and are not normally readmitted to the Faculty of Science.

(2) Marginal Standing—Academic Warning

Students, whether in an Honors, Specialization or the General program, whose GPA at the end of Fall/Winter is between 1.7 and 1.9 will be deemed to have a Marginal Standing. Subject to the next paragraphs, they will be allowed to continue in the BSc General program for one further Fall/Winter on Academic Warning.

Only one period of attendance on Academic Warning will be allowed while registered in the Faculty of Science. Students who have received an Academic Warning in any previous Fall/Winter and whose current Fall/Winter GPA is between 1.7 and 1.9 will be required to withdraw from the Faculty. Such students can only apply for readmission after attending another postsecondary institution at which time they can apply for admission as a transfer student under the conditions described in §914.2.1(6) and 15.16.9.

Note: Students under Academic Warning are only permitted to interrupt their programs with the prior written approval of the Associate Dean. Marginal students who want permission to interrupt their programs must make that request in writing by August 15 immediately following the ruling that placed them on Academic Warning. If students on Academic Warning interrupt their programs for more than 12 months without prior approval, readmission will normally not be granted unless the student meets the current readmission criteria. (This provision regarding permission to interrupt their program does not apply to Marginal students who attend another postsecondary institution in the interim. Such students must reapply as transfer applicants, see §15.16.9.)

192.5.6 Continuation in the BSc (Specialization in Science and Education) and BEd (Secondary) Combined Degrees Program

Continuation in the BSc Specialization in Science and Education/BAEd (Secondary) combined degrees program requires a Grade Point Average (GPA) of at least 2.3 in the Fall/Winter. (See §23.4(6) regarding the rules for calculating Grade Point Average).

A student who does not meet the requirement to continue in the combined degrees program must withdraw from the program and may apply for admission to either a BSc General program or a BEd program, if eligible. Refer to §72.4 for academic standing regulations for admission to the BEd program and to §193.1.3 for academic standing regulations for admission to the BSc General program.

192.5.7 Scholarship, First-Class Standing

(1) Scholarship

The basis for scholarship consideration is passing grades in all courses on load of at least ★30.

(2) First-Class Standing

First-class standing in a given Fall/Winter is awarded to any student who obtains a GPA of not less than 3.5 while enrolled in ★24 or more during that Fall/Winter. This is also referred to as the Dean’s Honor Roll.

192.5.8 Graduation Year

Students who have completed ★120 or more and who have either not applied to graduate, or who have applied but have not met graduation requirements, are permitted to register only in those courses necessary to complete their current program as quickly as possible. Such students must have the written approval of the Associate Dean of Science for every course beyond ★120 in which they register. Students in Honors or Specialization programs must also have the written approval of their Departmental Advisor.

192.5.9 Reexamination

Reexaminations are not normally permitted in the Faculty of Science. Students wishing to be considered for a reexamination in a course in the Faculty of Science must, in addition to meeting the requirements set out in §23.5.5, also meet the following conditions:

(1) Students must provide evidence of a medical condition or similarly compelling circumstance existing at the time of the writing of the final examination; and

(2) provide evidence that the student’s performance in the final examination was so affected by circumstances as shown in (a) that there was a substantial difference between the final examination results and the term work; and

(3) excluding the final exam, must have completed at least one-half of the term work.

Note: Registrants in BSc degree programs in the Faculty of Science who fail to meet the graduation GPA may be granted a reexamination in one passed or failed Science course taken in the final Fall/Winter or Spring/Summer (last ★30 or less) provided the maximum number of reexaminations (★12) has not been previously taken. Such courses must qualify for reexamination, according to §23.5.5.

192.6 Courses

(1) Selection of Courses

Students are responsible for familiarizing themselves with program requirements and limitations as specified in the Calendar, for ensuring their programs are properly planned in accordance with degree specifications, and for the completeness and accuracy of their registration. Please read the Calendar carefully before registering in courses, and if you are in doubt about any regulations pertaining to your program, consult the Faculty of Science Office (CW 223 Biological Sciences) for clarification.

Students registered in the Faculty of Science who fail to meet the graduation GPA may be granted a reexamination in one passed or failed Science course taken in the final Fall/Winter or Spring/Summer (last ★30 or less) provided the maximum number of reexaminations (★12) has not been previously taken. Such courses must qualify for reexamination, according to §23.5.5.

(2) Selection of First-Year Courses

Beginning first-year students who have completed no credits toward their programs normally restrict their registration to junior courses. First year students contemplating taking senior level courses should be careful to ensure that they have completed any prerequisites.

(3) Withdrawal from Courses

Courses from which the student withdraws up to and including the last day for registration in the Fall and Winter Terms will not appear on
the student’s record. Courses from which the student withdraws after the last day of registration and up to and including the last day for dropping courses will appear with a grade of “W” (Withdraw with permission) on the transcript.

Deadlines for withdrawing from courses are listed in §11.

(4) Prerequisites

Courses with prerequisites may only be used for degree credit if the prerequisite requirements are met.

A grade of D is the minimum grade acceptable in a course which is to be used as a prerequisite.

Where a prerequisite is stated, it is understood that equivalent courses may be used to satisfy the requirement. In addition, the department offering a course with prerequisite requirements may waive the prerequisite in writing. (Prerequisite waiver forms are available from the Faculty of Science office and the Department offices).

Students who are unsure if they meet the prerequisite requirements in a course, or who wish to obtain permission to have a prerequisite waived, should consult the department offering the course.

(5) Repeating Courses

No student will be permitted to repeat any University course, whether a failed course or a course having a grade of W, more than once except for reasons deemed sufficient by the Council of the Faculty in which the student is enrolled. For Science students, the Faculty will withhold credit or indicate the course is extra to degree on any course that contravenes this regulation.

Normally, a student will not be permitted to repeat a course in which a grade of D or more has been received.

Only two exceptions are permitted, and each requires written approval of the Dean or designee:

a. When a higher grade is necessary for a course that is required in one of the degree programs
b. When a student in the last year of a degree program repeats a course(s) to raise the GPA to the level required by the degree program

A student who repeats a course in which a grade of D or more has been received, without written permission of the Faculty of Science, will have the grade attained on the initial passing of the course used for the purpose of meeting degree requirements, and no credit will be assigned to the repeated course.

192.7 Graduation

(1) Application for Graduation

Students who intend to receive a BSc (General, Specialization, or Honors) Degree or Special Certificate must apply for the Degree or Certificate on Bear Tracks (https://www.beartracks.ualberta.ca) by February 1 for Spring Convocation or by September 1 for Fall Convocation.

(2) Degree Requirements

All BSc Degrees require a minimum of ★120. Courses with weights of ★0 are offered for credit only, and, although they may be required in specific degree programs, cannot be used to meet the minimum units of course weight requirement in any degree program.

(3) Convocation

All requirements for graduation at Spring Convocation must be met by the end of Fall/Winter. Those completing degree requirements during Spring/Summer will graduate at the Fall Convocation.

(4) First-Class Honors

First-class Honors Degrees are awarded to any student in an Honors program who obtained:

a. A GPA of at least 3.5 in each of the last two Fall/Winters of the program; and
b. A GPA of at least 3.5 on the last ★60 of the program. If determination of the last ★60 requires consideration of one or more courses from a given Fall/Winter or Session, then all courses from that Fall/Winter or Session will be used in calculating whether the student has achieved a 3.5 average for the purposes of qualifying for First-Class Honors.

(5) With Distinction

The notation “With Distinction” is inscribed on the parchment of a candidate for a General or Specialization degree if the candidate has obtained a GPA of not less than 3.5 over the last ★60 and if the student successfully completed ★24 or more in each of the last two Fall/Winters. If determination of the last ★60 requires consideration of one or more courses from a given Fall/Winter or Session, then all courses from that Fall/Winter or Session will be used in calculating whether the student has achieved a 3.5 average for the purposes of qualifying for With Distinction.

Further regulations regarding academic standing, promotion, and graduation vary from program to program within the Faculty of Science, and are therefore given in §193 below. Regulations for Honors, Specialization, and General programs are found in §193.1, regulations for preprofessional patterns in §193.21.

192.8 Appeals and Grievances

A copy of Faculty of Science regulations regarding appeals on grades and academic standing may be obtained from the Faculty Office (C2 223 Biological Sciences Building). Certain academic standing decisions made by the Faculty Academic Appeals Committee may be appealed to the General Faculties Council Academic Appeals Committee. See §23.8.

Note: Deadlines exist for submission of appeals. Contact the Faculty for details.

192.9 Visiting Student Status

Permission to attend another institution as a Visiting Student depends on the student remaining in good academic standing in the Faculty of Science at the University of Alberta.

A student while registered in the Faculty of Science cannot attend two postsecondary institutions at the same time and will not receive permission to register as a Visiting Student at another institution if the equivalent course is given on campus in the same term, except in the case of formal exchange programs. Transfer credits will not be awarded if a student attends another postsecondary institution without first obtaining a current Letter of Permission from the Faculty of Science.

193 Programs of Study

193.1 BSc in the Honors, Specialization, and General Programs

193.1.1 Honors Programs

A minimum of ★120 normally taken in no more than five consecutive academic years is required to complete the Honors program for the degree of BSc with Honors. Some departments require that an Honors program be completed in four years, others permit five. See individual departments for details. These programs provide specialization in the chosen subject or subjects as well as the higher standard implied by the term “Honors.”

Honors programs are available in the Departments of Biochemistry, Biological Sciences, Cell Biology, Chemistry, Computing Science, Earth and Atmospheric Sciences, Mathematical and Statistical Sciences, Neuroscience, Pharmacology, Physics, Physiology, and Psychology. Honors is the preferred program for students who plan graduate study.

Admission

See §15.16.3 for admission requirements.

Selection of Courses

The following regulations govern Honors programs:

(1) In each year, an Honors student’s program must be approved by an Honors advisor in the student’s Department and by the Faculty Office.
(2) A minimum of ★72 in Science is required in most Honors programs. Certain Departments may require more than ★72 in Science courses.
(3) A student normally must take at least ★18 in Arts courses as part of the requirements for the Honors degree.
(4) Normally, no more than ★42 in junior (100-level) courses are permitted in Honors programs.
(5) Certain non-Arts and non-Science courses appropriate to the program may be permitted in Honors programs with the written approval of the Department directing the student’s program.

Applicants to the BSc Honors program who have taken non-Arts and non-Science courses before application will have the potential to transfer credit for such courses assessed at the time of admission to the program.
Course Load Requirements
Students in Honors programs must complete ★24 or more during the Fall/Winter of every year of the program. In some Departments, Honors students are required to complete ★30 each Fall/Winter. See individual Departments for details. Exceptions to course load requirements must be approved in advance each year by the Department and the Faculty Office.

Academic Standings and Graduation
The following regulations govern Honors programs:

1. Continuation in an Honors program is by recommendation of the department concerned and requires a GPA of at least 3.0 on a course load of ★24 or more in the preceding Fall/Winter periods. See description of Honors programs of individual departments for additional requirements relating to continuation in the Honors program. Students must be in good standing in the Honors program in order to graduate.

2. A student who fails to attain the standard necessary for continuance in Honors must withdraw from the Honors program. In so doing, the student may transfer to a Specialization program with the appropriate department’s approval or to the General program in the Faculty of Science. Students applying to transfer from an Honors program to Specialization or General must meet the continuation standards for the program concerned.

3. A student who fails to complete the requirements for a degree with Honors in the fourth year may be granted the Specialization degree or the General degree on application if the courses taken and the standing attained are satisfactory. Such students must apply to transfer to a Specialization or General program.

4. Degrees with Honors are awarded in two classes: First-Class Honors and Honors. For First-Class Honors, a GPA of at least 3.5 on the last ★60 of the program. If determination of the last ★60 requires consideration of one or more courses from a given Fall/Winter or Session, then all courses from that Fall/Winter or Session will be used in calculating whether the student has achieved a 3.5 average for the purposes of qualifying for First Class Honors.

Residence Requirement
A student transferring to the Faculty of Science with advanced standing must complete at least ★60 (normally the last 60) while registered in the Faculty of Science at the University of Alberta.

Time Limits for Program Completion
Some Departments require that Honors programs be completed in four consecutive Fall/Winter periods. Others permit five consecutive Fall/Winters. See individual Departments for details. An Honors program may be interrupted only by special permission of the Department and the Dean.

193.1.2 Specialization Programs
Four-year programs, comprising a minimum of ★120, provide education to a professional level and lead to the degree of BSc with Specialization. Specialization programs are available in the Departments of Biochemistry, Biological Sciences, Cell Biology, Chemistry, Computing Science, Earth and Atmospheric Sciences, Mathematical and Statistical Sciences, Pharmacology, Physics, and Psychology.
A five-year (★150) BEd/BSc (Specialization in Science and Education) program with majors and minors in Biological, Mathematical, and Physical Sciences is also available (see §§15.16.6 and 75.6).

Admission
See §15.16.4 for admission requirements.

Selection of Courses
The following regulations govern Specialization programs:

1. In each year, a Specialization student’s program must be approved by a Specialization advisor in the appropriate Department and by the Faculty Office.

2. A minimum of ★72 in Science is required in most Specialization programs. Certain Departments may require more than ★72.

3. A student must take at least ★18 in Arts courses as part of the requirements for most Specialization degrees.

4. Normally, no more than ★42 in junior courses are permitted in Specialization programs.

5. Certain non-Arts and non-Science courses appropriate to the program may be permitted in Specialization programs with the prior written approval of the Department directing the student’s program.

Applicants to the BSc Specialization program who have taken non-Arts and non-Science courses before application will have the potential transfer credit for such courses assessed at the time of admission to the program.

Course Load Requirements
To graduate in four years normally requires that BSc Specialization students take the usual full course load of ★30 in each Fall/Winter of the program. Students who wish to extend their programs are still expected to complete at least ★24 in each Fall/Winter of the program. Exceptions to course load requirements must be approved in advance each year by the Department and the Faculty Office. (See Time Limits for Completion of Program below.)

Academic Standings and Graduation
The following regulations govern Specialization programs:

1. Continuation in a Specialization program is by recommendation of the Department concerned and requires a GPA of at least 2.3 in each of the preceding Fall/Winter periods. See description of Specialization programs of individual departments for additional requirements relating to promotion in the Specialization program. Students must be in good standing in the Specialization program in order to graduate.

2. A student who fails to attain the standard necessary for continuation in the Specialization program will be required to withdraw from that program. In so doing, the student may apply to transfer to the General program in the Faculty. Students applying to transfer from a Specialization to the General program must meet the continuation GPA of 2.0.

3. A student who fails to complete the requirements for a Specialization degree in the fourth year may be granted the General degree forthwith on application if the courses taken and the standing attained are satisfactory. Such students must apply to transfer to the General program.

4. For graduation, a program of at least ★120 credited to the degree.

5. BSc Specialization degrees with Distinction are awarded when students achieve a GPA of at least 3.5 on the last ★60 if the student was enrolled in a normal course load (minimum ★24) during each Fall/Winter of the last two years.

Residence Requirement
A student transferring to the Faculty of Science with advanced standing must complete at least ★60 (normally the last ★60) while registered in the Faculty of Science.

Time Limits for Completion of Program
The BSc Specialization program is a four-year program, but students who wish to extend their programs to a fifth year may do so (see course load requirements above). Students who wish to extend their programs beyond five years must first obtain the written approval of the Faculty of Science and the Department.

193.1.3 General Programs
The BSc General program provides students with a diverse education in more than one branch of study and includes a major and minor subject or area of concentration. Students must major in a Science subject or area of concentration. Students may elect to minor in a Science subject or area of concentration, an Arts subject of concentration, an Agriculture, Forestry, and Home Economics minor, or a Business minor. In addition to providing a BSc General Degree, this program allows for subsequent transfer to Specialization and Honors programs. Students who intend to transfer to an Honors program must complete ★30 in each Fall/Winter preceding admission to the Honors program. Students enrolled in the General program who intend to transfer to another program should consult the appropriate admission requirements for the particular program of interest in §15.16 and carefully select their first-year core courses in accordance with the requirements of the specific program.

Students who tentatively plan to transfer to an honors or specialization program should initially complete courses toward a Science or Arts minor in accordance with BSc General regulations.

Admission
See §15.16.1 for admission requirements for the BSc (General) programs.

Selection of Courses
The following regulations govern the General program:

1. In each year, a student’s program must be approved by an advisor in the student’s major subject or area of concentration and by the Faculty Office.

2. To obtain a BSc General Degree, a student must receive credit in ★120. At least ★72 and not more than ★102 must be in Science. At least ★18 and not more than ★48 must be in Arts. In the major, at least ★12 must be 300-level or higher courses offered by the Faculty of Science. If the minor is a science subject or area, at least ★6 must be in 300-level or higher courses offered by the Faculty of Science.

3. Each student must complete a major subject or area of concentration. The major subject or area must be in Science. A minimum of ★36 and a
The General program features a first-year core of courses which must include the following:

a. ★6 from among junior courses offered by the Department of English (normally to be chosen from ENGL 111, 112, 113, 114)

b. ★6 from among junior courses offered by the Departments of Computing Science, and Mathematical and Statistical Sciences (CMPUT 115; MATH 113 or 114 or 117; MATH 115 or 118; MATH 120 or 125; MATH 153; STAT 141 or 151)

c. ★6 from among junior courses in the Departments of Chemistry or Physics (ASTRO 120, 122; CHEM 101, 102, 161; PHYS 124, 126, 144, 146)

d. ★6 from among junior Science courses titled Biology, Earth and Atmospheric Sciences, or Science Psychology (BIOL 107, 108; EAS 100, 105; PSYCO 104)

e. ★6 from among 100-level courses in Arts or Science (Students interested in the Business Minor must take ECON 101 and 102)

(5) Normally, at least ★30 at the junior level must be successfully completed before a student may register in senior-level courses.

(6) Not more than ★42 of all courses taken can be at the junior level.

(7) Each student must successfully complete a minimum of ★12 at the 300-level (or higher) in the major subject or area of concentration and, in addition, at least ★6 at the 300-level (or higher) in the minor subject or area of concentration.

(8) Subject to receiving written approval from the Faculty of Science Office before registration, a maximum of ★12 may be taken from Faculties other than Arts or Science. For applicants to the BSc General who have already taken courses from Faculties other than Arts or Science, potential transfer credit for such courses will be assessed at the time of admission to the program.

Such subjects are not included as part of the major or minor Subject or Area of Concentration, nor toward the minimum requirement of ★18 in Arts, nor toward the minimum requirement of ★72 in Science.

Note: In Women’s Studies minor subject of concentration, courses not in Arts or Science but in the list of “cross-listed courses” may count toward the minor subject of concentration in Women’s Studies (see §44.31).

Course Load Requirements

Students in the General program should normally take ★30 during the Fall/Winter of each year of the program.

Academic Standings and Graduation

The following regulations govern General Programs:

(1) To obtain a BSc General degree, a GPA of at least 2.0 must be attained on the last ★60 credited to the degree. Moreover, a GPA of at least 2.3 must be attained in all courses in the major Subject or Area of Concentration.

(2) BSc General degrees with Distinction are awarded when students achieve a GPA of 3.5 or higher over the last ★60 if the students have satisfactorily completed at least a normal academic load of a minimum of ★24 during the Fall/Winter periods of the last two years at the University of Alberta.

Residence Requirement

A student transferring to the Faculty of Science with advanced standing must complete at least ★60 applicable to the BSc program while registered at the University of Alberta. Normally, at least ★30 of the last ★60 must be completed while registered in the Faculty of Science.

Time Limits for Program Completion

The Faculty of Science may permit a student to complete the requirements for a General degree over a period longer than four years or meet the requirements in a shorter time by attending Spring/Summer.

193.1.4 BSc General—Minor in Agriculture, Forestry, and Home Economics

Students may choose a minor in Agriculture, Human Ecology or Nutrition. All other restrictions and requirements of the BSc General program, as outlined in §193.1.3 apply.

Minor in Agriculture

The minor in Agriculture consists of at least ★24 and no more than ★30 in Agriculture courses as follows:

(1) AN SC 200
(2) AREC 200 (requires prerequisite of ECON 101 and 102)
(3) PL SC 221
(4) SOILS 210
(5) ★12 to ★18 in additional courses at the 300-level or higher to be chosen from AN SC, AREC, ENCS, PL SC or SOILS.

Minor in Human Ecology

The minor in Human Ecology consists of at least ★24 and no more than ★30 in Human Ecology as follows:
Selection of Courses
The following regulations govern the combined degrees program:

1. A student's program must be approved by an advisor in the appropriate Department(s) and the Faculty Office.
2. Within the 150 program, a student must complete a minimum of 72 in Science, 65 in Education and 18 in Arts.
3. A student must successfully complete a minimum of 12 at the 300-level (or higher) in the major and, in addition, at least 6 at the 300-level (or higher) in the minor.
4. Normally, no more than 42 at the 100-level are permitted in the combined degrees program.
### Science Chart 1  BSc (Specialization in Science and Education) /BEd

**Note:** Year 1 and Year 2 are completed in the Faculty of Science. Years 3, 4 and 5 are completed in the Faculty of Education.

<td>8. *A&quot; in Mathematics at the 300- or 400-level</td>
</tr>
</tbody>
</table>

Note: The subject discipline of the degree must be completed while registered in the second degree program.

(4) A graduate holding a BSc Specialization or BSc Honors degree from this Faculty may qualify for a second BSc Specialization or Honors degree provided the second degree is in a different subject or area.

(5) Students in a second degree program must maintain satisfactory standing in each Fall/Winter. Such students in a second degree program who do not maintain satisfactory standing will be required to withdraw and will not be eligible for Academic Warning or Probation.

193.1.8 The BSc After an Undergraduate Degree (Other than a BSc from the Faculty of Science at the University of Alberta)

An applicant holding an undergraduate degree from another Faculty at the University of Alberta or from another university may qualify for the BSc General degree, a BSc Specialization degree, or a BSc Honors degree by meeting the following requirements:

- [Details of the requirements would be included here.]
Transfers from the General program to a Specialization program or an Honors program or from one Specialization program to another or to an Honors program may be made according to the dates listed in §12. Also, transfers to Honors and Specialization programs require approval of the Department responsible for the new program.

Note that transfer from BSc/BEd program to any of the BSc programs must take place no later than Year 2 to avoid loss of credit.

193.1.11 Completion of a BSc Degree After Transfer to Another Faculty

Students who transfer to another Faculty after completing part of a BSc program may reapply to the Faculty of Science after completing the degree from the other Faculty. A former student transferring to the Faculty of Science normally must complete at least ★60 while registered in the Faculty of Science at the University. Courses completed in the Faculty of Science before transfer may count toward the minimum ★60 that must be completed while registered in the Faculty of Science. Science or Arts courses taken while in another Faculty, which are clearly noted as “extra-to-degree” on the transcript, may fulfill specific subject requirements of a degree program in Science but will not fulfill the minimum residence requirement of the program.

193.2 Biochemistry

193.2.1 Honors in Biochemistry

Continuation, or graduation, in the Honors program in Biochemistry requires a minimum GPA of 3.3 on at least ★30 in each Fall/Winter period credited towards the degree.

**Year 1**

<table>

<tr>
<td>★3 in an approved Arts option</td>
</tr>
</tbody>
</table>

**Notes**

1. Students must receive a grade of not less than B- in all Biochemistry courses credited toward the minimum number required for the degree.
2. Students should consult the Department of Biochemistry regarding selecting options throughout the course of the program.
3. Recommended science options for second year include BIOL 207; MIRC 265; MATH 214 and 215; GENET 270 and 275; PHYSL 210 or 211; PMCOL 201; STAT 141 or 151.
4. (Recommended) science options for third and fourth year include BIOCH 450, 455, and 460; MIRC 311 or 415; PHYSL 210 or 211; IMIN 200; PMCOL 305; and BIOL 380.
5. (Recommended) Science courses offered in Fall/Winter are BIOCH 410, 420, 430, 441, 450, 455, and 460 are offered only in alternating years. Check the Registration and Courses menu at www.registrar.ualberta.ca for courses offered in the current year.

193.2.2 Specialization in Biochemistry

Continuation, or graduation, in the Specialization program in Biochemistry requires a minimum GPA of 2.7 in each Fall/Winter period credited towards the degree.
193.3 Biological Sciences

All students in Honors and Specialization programs in Biological Science take a common core of four BIOL courses in the first and second years. Thereafter, they follow the course sequence of one of the areas of concentration in either Honors or Specialization in Biological Sciences identified in §193.3.4. Students must declare an area of concentration and follow the appropriate course sequence. The title of the area of concentration will appear on their degree parchments of students who have participated in the program.

193.3.1 Honors in Biological Sciences (including Bioinformatics)

Admission to the BSc Honors in Biological Sciences program see Admission Chart 5, §15.16.

Continuation in the Honors Biological Sciences program requires a minimum GPA of 3.0 in the preceding Fall/Winter. Graduation requires a minimum GPA of 3.0 on the last 60 credits toward the degree. Students in Honors programs must take at least 24 during the Fall/Winter of each year of the program. Exceptions to this requirement must be approved by the Department and the Faculty Office.

193.3.2 Specialization in Biological Sciences

Admission to the BSc Specialization in Biological Sciences program see Admission Chart 5, §15.16.

Continuation in the Specialization program requires a GPA of 2.3 in the preceding Fall/Winter. Graduation requires a minimum GPA of 2.3 on all courses credited to the degree.

193.3.3 First-Year Core for BSc Honors and Specialization in Biological Sciences

Biol 107, 108; Chem 101, 261; Math 113 or 114 or 120; Stat 151; 6 Arts option (English recommended); 6 Science option.

Notes
(1) Students intending to complete their degree in Cell Biotechnology, Microbiology, or Molecular Genetics must also take Chem 102.
(2) Students intending to complete their degree in Molecular Genetics are recommended to take BIOL 207 in the second term of their first year as a Science option.
(3) Students intending to complete their degree in Bioinformatics are required to take: BIOL 107, 108, Chem 101, 102, 261; CMPUT 101 (if necessary, or else a Science option); CMPUT 114 and 115; 6 Arts options (English recommended) in their first year.
(4) Students intending to complete their degree in Environmental Biology are recommended to take EAS 100 as a Science option in their first year.

193.3.4 Course Sequence in Biological Sciences

See Science Chart 2.

193.3.5 Industrial Internship Program

An Industrial Internship Program, similar to a co-op program, is offered to students in the Specialization or Honors programs in Biological Sciences (see §193.1.9 for guidelines to the program). The Industrial Internship designation will appear on the degree parchments of students who have participated in the program.

Students approved to enter this stream register for a continuous sequence of at least two work experience (WKEXP) courses 941 and 942, starting in May, September or January. During the program, student are considered full-time students of the University. Work experience courses have no weight and are graded credit/no credit, and recorded on the student's transcript. The Industrial Internship Program Advisor maintains contact at approximately three-month intervals with the student and the person designated by the employer to be responsible for the student's progress. This arrangement ensures satisfaction on all sides. If the review shows the situation is not satisfactory, the internship may be terminated and the student then return to classes at the next available opportunity. The graduation requirements for the Industrial Internship program designation include successful completion of at least WKEXP 941 and 942 plus Biol 400. Biol 400 must be taken in the first term immediately following completion of the WKEXP period. If required by the employer, the student's written report and oral presentation in Biol 400 may be classified confidential. The employer also assesses the student's performance during the work term. Based on the student's written report and oral presentation, and the report from the employer, students are awarded a grade in Biol 400.

Interested students should see the Industrial Internship Advisor in the Department of Biological Sciences for more information.

193.3.6 General Program in Biological Sciences

A major or a minor area of concentration in the Biological Sciences is available in the BSc General program.

Courses which may be used toward a Biological Sciences major or minor include BIOL; BOT; CELL 300, 301; ENT; GENET; INT D 224, 371, 372, 421, 452, 455; MA SC; MICRB; MM; NEURO; PHYS; PHYS 210, 372, 401, 404, 410; PMCOL 201, 305, 335, 342, 371, 392, 402, 409, 412, 415; ZOOL Courses in Biochemistry (see §194.3) may be used for a concentration in Biological Sciences or Physical Sciences but not both.

The following previously offered courses may be used for a concentration in Biological Sciences: BOT 199, ENT 120, GENET 197, MICRB 193, and ZOOL 120.

The following previously offered courses may not be used for a concentration in Biological Sciences: BIOL 110, BOT 130, GENET 165, and PMCOL 101.

Note: Effective September 1996, it is not possible to combine a major or minor in the Biological Sciences with a minor or major in one of the specific
## Animal Biology

### Year 2
- BIOCH 200; BIO 201 or CELL 201; BIO 207, 208; ZOOL 224, 250; ZOOL 250 or ENT 220; ZOOL 241 or 242
- 3 in approved options
- 3 in Arts options

### Year 3 and 4
- BIO 321; BIO 331, 332 or 352; ENT 220 or ZOOL 250; GENET 279; ENT 302 or ZOOL 303; ZOOL 370 or 371
- 9 in Arts options
- 15 from List A
- 3 from List B
- 12 in approved options (including additional courses from List A or B).
  - List B: BIO 433, 468, 495 (if appropriate topic); MA SC 480; ZOOL 402, 441, 442, 472.
- Available streams include: entomology and parasitology.

### Notes:
1. MA SC courses on this list are offered at Bamfield Marine Sciences Centre.
2. Honors students are required to take BIO 499 and reduce approved options by ★6.

## Bioinformatics Specialization

### Year 2
- BIO 200; BIO 207, 208; CHEM 283; CMPT 201, 291; GENET 270; MATH 113 or 114 or 117; MATH 120 or 125; STAT 221
- Note: GENET 270 may be taken in Year 3

### Year 3 and 4
- One of BIO 310, 320, 330
- BIOIN 301, 401; CMPT 204, 272, 301
- 6 in GENET 275, 301, 302, 304 or 390
- 12 in Arts options
- 3 CMPT from recommended options below

### Notes:
- 21 in Science options
- Recommended options include, but are not restricted to additional courses from above and the following:
  - BIO 310, 320, 330, 420; BIO 312, 390, 391, 400, 409, 468, 499, 520; CMPT 229, 304, 325, 340, 366, 379, 461, 466, 474, 495; GENET 275, 301, 302, 304, 390; IMIN 200; MICRB 265, 316; STAT 221, 222, 337
- Honors students are required to take BIO 499 and reduce approved options by ★6.

## Cell Biotechnology

### Year 2
- BIO 200; BIO 207, 208; GENET 270; MICRB 265; CHEM 263
- 3 in Science options
- 6 in Arts options

### Notes:
- A minimum grade of B- is required in MICRB 265 and 311 to stay in the Cell Biotechnology Honors program.

### Year 3 and 4
- BIO 391; GENET 390; MICRB 311, 343, 345, 415, 450
- 30 in approved options from lists below
- 6 in Arts options
- Recommended options include but are not restricted to the following:
  - List A: Approved options:
    - BIO 310, 320, 330, 401, 410, 420, 430, 441, 450, 455, 460; BIOIN 301; BIO 380, 400, 405, 490, 495, 498, 499, 520; CMPT 204, 272, 301
- 12 in Arts options
  - 3 CMPT from recommended options below
- 21 in Science options
- Recommended options include, but are not restricted to additional courses from above and the following:
  - BIO 310, 320, 330, 420; BIO 312, 390, 391, 400, 409, 468, 499, 520; CMPT 229, 304, 325, 340, 366, 379, 461, 466, 474, 495; GENET 275, 301, 302, 304, 390; IMIN 200; MICRB 265, 316; STAT 221, 222, 337
- Honors students are required to take BIO 499 and reduce approved options by ★6.

## Ecology

### Year 2
- BIO 200; BIO 207, 208; BOT 205; MICRB 265; ZOOL 224 or 325; ZOOL 250 or ENT 220
- 9 in Arts options

### Year 3 and 4
- BIO 321, 330
- 12 from BIO 331, 332, 340; BOT 332; FOR 322; ZOOL 371
- 3 from BIO 380; BOT 240, 303; ENT 302, 321; GENET 270, 275; IMIN 200; MICRB 311; ZOOL 241, 242
- 6 from BOT 306, 310, 314, 321, 322, 330; ENT 427; ZOOL 351, 352, 405, 407, 408
- 3 in Arts options
- 18 in approved options
- 3 from BIO 365, 432; MA SC 4XX (at BMS). ZOOL 43a.
- Available streams include: conservation/wildlife biology, freshwater biology, and plant ecology.

### Notes:
- Honors students are required to take BIO 430 and 499 and reduce approved options by ★8.

## Evolutionary Biology

### Year 2
- BIO 200; BIO 207, 208, 380
- 9 from BOT 207, 220, 380; MICRB 265; ZOOL 224, 250
- 3 from BOT 240; ENT 321; ZOOL 241, 242
- 3 in Arts options
- 6 in approved options

### Year 3 and 4
- BIO 321, 335, 391
- 3 from BOT 411; PALEO 318, 319
- 3 from BIO 331, 332; BOT 332
- 3 from GENET 270, 275, 390
- 6 from BOT 306, 310, 314, 321; ENT 427; ZOOL 325, 405, 407, 408
- 9 in Arts options
- 12 in approved options
- 15 from list below
- Recommended options include, but are not restricted to additional courses from the above, and the list below:
  - BIO 400, 430, 433, 450, 490, 495, 498, 499, 520; BOT 303, 308, 322, 330, 350, 409, 506, 511; EAS 100, 103, 230; ENT 302; GENET 270; MA SC 410, 412, 420, 430, 440, 445; PALEO 414; PHYS 124, 126; ZOOL 303, 340, 351, 352, 354, 371, 434, 472

### Notes:
1. Marine Science courses on this list are offered at Bamfield Marine Sciences Centre.
2. Honors students are required to take BIO 499 and reduce approved options by ★6.
## Microbiology

193.5 Chemistry

193.5.1 Honors in Chemistry

Honors students in Chemistry must take a core of Chemistry and auxiliary courses. The core consists of ★45 in Chemistry courses, ★12 in Mathematics courses, ★6 in Physics courses, ★3 in Biology or Biochemistry courses, ★3 in either Chem 400 or 401, ★6 in a junior English or ★3 in English and ★3 in Arts option, and ★12 in Arts options. In addition to the core courses, honors students must complete at least ★18 in senior courses in Chemistry from the courses listed below. Finally, the honors student must include ★15 in options in the third and fourth years of the program. These are normally chosen from offerings within the Faculty of Science. All options must be selected in consultation with the Department of Chemistry.

Continuation in the Honors Chemistry program requires a GPA of 3.0 on at least ★24 in the preceding Fall/Winter. Graduation requires a minimum GPA of 2.7 on the last ★30.

The Honors Chemistry degree is accredited by the Canadian Society for Chemistry.
Senior Courses in Chemistry
BIOCH 200, 310, 320, 330
CHEM 303, 305, 333, 400 (if not taken as a requirement), 401 (if not taken as a require-
ment), 403, 405, 413, 415, 417, 410, 421, 423, 433, 436, 437, 438, 439, 440, 441, 465,
467, 477, 479, 483, 489, 493, 495

193.5.2 Specialization in Chemistry

The complete Specialization program consists of ★120 and must include
CHEM 101, 102, 261 (or 164), 211, 241, 243, 263, 282, 298, 313, 361, 371, 373, 398;
MATH 113 (or 114), 115, 214, and either 120 or 125 or 215 or STAT 151; PHYS
144, 146 (if PHYS 124 and 126 are taken in Year 1, then PHYS 230 or 261 is also
required); BIOCH 200 or BIOL 107; ★6 in junior English or ★6 in English and ★3
in an Arts option. ★12 in senior Chemistry options, ★12 in Arts options, and ★30
in approved options. These options are normally chosen from within the Faculty of
Science. All options must be selected in consultation with the Department of
Chemistry. The honors curriculum can be used as a guide in planning a
specialization program.

Continuation in the Specialization in Chemistry program requires the successful completion of at least ★16 in each preceding Fall/Winter with a GPA of 2.3 and a GPA of 2.3 on all Chemistry courses. Graduation requires a minimum GPA of 2.3 on the last ★90 credited to the degree.

The Specialization Chemistry degree is accredited by the Canadian Society for Chemistry.

193.5.3 Industrial Internship Program

An Industrial Internship Program, similar to a co-op program, is offered to students in the Specialization or Honors programs in Chemistry (see §193.1.9 for guidelines to the program). The Industrial Internship designation will appear on the degree parchments of students who have participated in the program.

Students approved to enter this stream register for a continuous sequence of at least two work (WKEXP) courses 401 and 402, starting in May, September or January. During the program, student are considered full-time students of the University. Work experience courses have no weight and are graded credit/no credit, and recorded on the student’s transcript. The Industrial Internship Program Advisor maintains contact at approximately three-month intervals with the student and the person designated by the employer to be responsible for the student’s progress. This arrangement ensures satisfaction on all sides. If the review shows the situation is not satisfactory, the internship may be terminated and the student would then return to classes at the next available opportunity. The graduation requirements for the Industrial Internship program designation include successful completion of at least WKEXP 401 and 402 plus CHEM 400. CHEM 400 must be taken in the first term immediately following completion of the WKEXP period. If required by the employer, the student’s written report and oral presentation in CHEM 400 may be classified confidential.

The employer also assesses the student’s performance during the work term. Based on the student’s written report and oral presentation, and the report from the employer, students are awarded a grade in CHEM 400.

Interested students should see the Industrial Internship Advisor in the Department of Chemistry for more information.

193.5.4 Concentration in Chemistry

Students in the BSc General program with a major in Chemistry should complete CHEM 100, 102, 261 (or 164), 283; MATH 113 (or 114), 115, and ★6 of junior physics during the first two years of their programs. CHEM 101, 102, MATH 113 (or 114) and 115 should be taken in Year 1 because these provide maximum flexibility for course selection in Year 2 and subsequent years of the program. To complete a major in Chemistry, students should select from the following senior courses: CHEM 211, 213, 241, 282, 333, 361, 363, 371 and 313. Students majoring in Chemistry should consult the Chemistry Department Advisor before registering in second and later years of the program to plan a course of study and have their programs approved by the Advisor.

Students in the BSc General program with a minor in Chemistry should include CHEM 101, 102, 261 (or 164), and 263 in their program. Other Chemistry courses to complete the minor may be selected from CHEM 211, 213, 282, 303, 313, 393, 361, 363, and 371.

193.5.5 Certificate of Specialization After a BSc Degree

All outstanding requirements of the Specialization Degree must be completed with an average of 2.3 or higher in all chemistry courses taken after the general degree. See §193.1.3.

193.5.6 Diploma After a Previous Degree

Students who, after a period of professional employment, wish to update their qualifications may enrol in a special one-year program designed for this purpose. Those who possess at least the three-year general degree or its equivalent, and who complete satisfactorily an approved selection of ★30, may be awarded a diploma attesting to this improvement in their qualification. All courses must be selected in consultation with the Department.

193.6 Computing Science

For admission requirements, see §15.16.

Senior Computing Science courses (400-level) are restricted to third- and fourth-year Science Honors and Specialization students, and students participating in degree programs requiring these courses.

193.6.1 Honors in Computing Science

Continuation in the Honors program requires successful completion of at least ★24 in the previous Fall/Winter with a GPA of at least 3.0 and an overall GPA of at least 2.3 on all CMPUT, MATH and STAT courses taken in that Fall/Winter.

Graduation requires a GPA of at least 3.0 on the last ★30 credited to the degree and at least 3.0 on the last ★60 credited to the degree, and at least 2.3 on all CMPUT, MATH and STAT courses credited to the degree.

Honors students must complete a minimum of ★21 in CMPUT courses at the 300- or 400-level offered at the University of Alberta.

Students must obtain departmental guidance in developing their program. All course selections and changes require approval by a departmental advisor.

Students should use the required Arts and approved options in Year 2 to build a foundation in disciplines related to Computing Science.

Year 1

CMPUT 114 and 115 or 174 and 175; 272 (see Note 1)
MATH 114, 115 (see Note 2)
★6 in junior English
★6 in Science options (excluding MATH/STAT/CMPUT)
★3 in an approved option (see Note 7)

Year 2

CMPUT 201, 204, 229, 291
MATH 125 and ★3 in a MATH or STAT option at the 200-level or higher (see Note 6)
STAT 221, 222
★3 in an Arts option
★3 in an approved option (see Note 7)

Year 3

CMPUT 301, 325, 379, 391, and ★3 in CMPUT at the 300-level or higher (see Notes 4 and 5)
MATH 225 or 228 or 229
★3 in a MATH or STAT option at the 200-level or higher (see Note 6)
★6 in Arts options
★3 in an approved option (see Note 7)

Year 4

CMPUT 386, and at least ★9 in CMPUT at the 300-level or higher (see Notes 4 and 5)
★9 in approved options (see Note 7)
★6 in Science options
★3 in an Arts option

Notes:
(1) There are many routes to the study of Computing Science. Students should seek advice from a department advisor or visit our website at www.cs.ualberta.ca/courses. CMPUT 272 can be taken in second year. Please consult department for advice.
(2) Honors students are strongly encouraged to take the Honors version of the MATH courses, beginning in the first year.
(3) Honors students must take CMPUT 495 (Honors Seminar) in Year 3.
(4) Honors students must take ★3 in Group A courses which include CMPUT 304, 340 and 474. A complete list of Group A courses to be offered in a given year is available from the department.
(5) Honors students must take ★3 in Group B project courses which include CMPUT 400, 401, 410, 412, 414, 415, 422, and 466. The department may approve variations in the above requirement on application. CMPUT 400 satisfies the project requirement, but cannot be used as ★3 in CMPUT at the 300-level or higher or as a Science option.
(6) Some higher level CMPUT courses may require specific MATH courses as prerequisites. These prerequisites should be taken for the MATH or STAT option.
(7) ★3 of the total ★18 in approved options cannot be MATH/STAT/CMPUT.

193.6.2 Specialization in Computing Science

Continuation in the program requires the successful completion of at least ★18 in each preceding Fall/Winter with a GPA of 2.3 (a program for less than ★18 may be approved by the Department and the Faculty of Science. Students are to contact the Department prior to September 1) and a GPA of at least 2.3 on all CMPUT, MATH and STAT courses taken in that Fall/Winter.
Graduation requires a GPA of at least 2.3 on the last 90 credits to the degree and at least 2.3 on all CMPUT, MATH and STAT courses credited to the degree.

Specialization students must complete a minimum of 21 in CMPUT courses at the 300- or 400-level offered at the University of Alberta.

The program gives students freedom to pursue specialized areas of interest in Computing Science and in other disciplines. Students should use the required Arts and approved option in Year 2 to build a foundation in disciplines related to Computing Science. Course selections in other departments and Faculties may be subject to enrollment management and GPA requirements.

**Year 1**

CMPUT 114 and 115 or (174 and 175); 272 (see Note 1)
MATH 114, 115
6 in Science options
6 in Science options (excluding MATH/STAT/CMPUT)
3 in an approved option (see Note 6)

**Year 2**

CMPUT 201, 204, 229, 291
MATH 120 (MATH 125 recommended)
STAT 221, 222
6 in Arts options
3 in an approved option (see Note 6)

**Year 3**

CMPUT 301, 325, 379
6 in CMPUT at the 300-level or higher (see Notes 3 and 4)
3 in a MATH or STAT option at the 200-level or higher (see Note 5)
3 in an Arts option
9 in approved options (see Note 6)

**Year 4**

9 in CMPUT at the 300-level or higher (see Notes 3 and 4)
15 in approved options (see Note 6)
3 in a Science option
3 in an Arts option

**Notes**

(1) There are many routes to the study of Computing Science. Students should seek advice from a department advisor or visit our website at www.cs.ualberta.ca/courses. CMPUT 272 can be taken in second year. Please consult department for advice.

(2) At least 9 in approved options must be at the 300-level or higher.

(3) Specialization students must take 3 in Group A courses which include CMPUT 304, 340 and 474. A complete list of Group A courses to be offered in a given year is available from the department.

(4) Specialization students must take 3 in Group B project courses which include CMPUT 400, 401, 410, 412, 414, 415, 422, and 466. The department may approve variations in the above requirement on application. CMPUT 400 satisfies the project requirement, but cannot be used as 3 in CMPUT at the 300-level or higher or as a Science option.

(5) Some higher level CMPUT courses may require specific MATH courses as prerequisites. These prerequisites should be taken for the MATH or STAT option.

(6) 6 of the total 30 in approved options cannot be MATH/STAT/CMPUT.

**193.6.3 Specialization in Computing Science—Minor in Business**

Continuation in the Computing Science Specialization program (Business Minor) has the same requirements as Computing Science Specialization. Students who meet these continuation requirements may continue with the designation “pursuing a Business Minor within Specialization Computing Science.”

Specialization with Business Minor students must complete a minimum of 21 in CMPUT courses at the 300- or 400-level offered at the University of Alberta.

Students who withdraw from the Specialization Computing Science program lose their status as “pursuing a Business Minor within Specialization Computing Science.” Should such students be admitted to the BSc General program and wish to pursue a Business minor within the BSc General program, they must reapply to the Business-Science Quota Committee for admission to the Business minor.

The Business minor in Computing Science consists of the following:

(1) ECON 101, 102
(2) ACCTG 311
(3) SMO 301
(4) Two of FIN 301, MARK 301, MGTSC 352, and SMO 321
(5) A minimum of 6 in courses offered by the Faculty of Business and approved by the student’s advisor

To graduate with the designation “Specialization in Computing Science with a Minor in Business,” students must achieve a GPA of at least 2.3 on the last 90 credits to the degree and at least 2.3 on all CMPUT, MATH and STAT courses credited to the degree and must achieve a minimum GPA of 2.3 on all Business courses contributing to the minor. This calculation does not include the two economics courses.

**193.6.4 Specialization in Computing Science—Software Quality Option**

The Software Quality Option program gives students the ability to focus on topics in Computing Science that are most relevant to software professionals while pursuing relatively broad interests in Computing Science and in other disciplines. It is recommended that students use the required Arts and approved options to build a foundation in disciplines related to, or influenced by, Computing Science. Course selections in other departments and Faculties may be subject to enrollment management policies and GPA requirements.

Students will be accepted in the Software Quality Option after completing the first two years of the Specialization Program in Computing Science. Enrolment in this program is limited. Screening will take place after Year 2. The students with the highest GPA in CMPUT 201, 204, 229 and 291; MATH 120; and STAT 221 will be admitted.

Continuation in the Specialization stream in Software Quality has the same requirements as Computing Science Specialization. Graduation requires a GPA of at least 2.3 on the last 90 credits to the degree and at least 2.3 on all CMPUT, MATH and STAT courses credited to the degree.

Specialization students with the Software Quality Option must complete a minimum of 21 in CMPUT courses at the 300- or 400-level offered at the University of Alberta.

**Year 1**

CMPUT 114 and 115 or 174 and 175, 272 (see Note 1)
MATH 114, 115
6 junior English
6 in Science options (excluding MATH/STAT/CMPUT)
3 in an approved option

**Year 2**

CMPUT 201, 204, 229, 291
MATH 120 (MATH 125 recommended)
STAT 221, 222
6 in Arts options
3 in an approved option

**Year 3**

CMPUT 300, 301, 379
6 in CMPUT at the 300-level or higher (see Notes 3 and 4)
3 in a MATH or STAT option at the 200-level or higher (see Note 5)
3 in an Arts option
9 in approved options (see Note 6)

**Year 4**

9 in CMPUT at the 300-level or higher (see Notes 3 and 4)
15 in approved options (see Note 6)
3 in a Science option
3 in an Arts option

**Notes**

(1) There are many routes to the study of Computing Science. Students should seek advice from a department advisor or visit our website at www.cs.ualberta.ca/courses. CMPUT 272 can be taken in second year. Please consult department for advice.

(2) At least 9 in approved options must be at the 300-level or higher.

(3) Specialization students must take 3 in Group A courses which include CMPUT 304, 340 and 474. A complete list of Group A courses to be offered in a given year is available from the department.

(4) Specialization students must take 3 in Group B project courses which include CMPUT 400, 401, 410, 412, 414, 415, 422, and 466. The department may approve variations in the above requirement on application. CMPUT 400 satisfies the project requirement, but cannot be used as 3 in CMPUT at the 300-level or higher or as a Science option.

(5) Some higher level CMPUT courses may require specific MATH courses as prerequisites. These prerequisites should be taken for the MATH or STAT option.

(6) 6 of the total 30 in approved options cannot be MATH/STAT/CMPUT.
(5) Specialization students must take 3 in Group B project courses which include CMPUT 400, 401, 410, 412, 414, 415, 422, and 468. The department may approve variations in the above requirement on application. CMPUT 400 satisfies the project requirement, but cannot be used as 3 in CMPUT at the 300-level or higher as a Science option.

(6) Some higher level CMPUT courses may require specific MATH courses as prerequisites. These prerequisites should be taken for the MATH or STAT option.

### 193.6.5 Computing Science Honors Stream in Bioinformatics

The discipline of bioinformatics has developed out of the need for recording and analyzing very large sets from genome and DNA sequencing projects. The goal of the Bioinformatics Stream within the Computing Science program is to train students to understand, develop and use computational tools and large sets of sequence data to answer questions in biology and medicine.

The graduate will be able to understand problems embraced in bioinformatics and collaborate effectively with biologists in the construction and use of new bioinformatics tools. Interested students should select their first year science options according to the recommendations given below.

Continuation in the Honors Stream in Bioinformatics has the same requirements as Computing Science Honors. Graduation requires a GPA of at least 3.0 on the last 90 credits to the degree and at least 3.0 on the last 60 credits to the degree and at least 2.3 on all CMPUT, MATH, and STAT courses credited to the degree. Honors students in the Bioinformatics stream must complete a minimum of 21 in CMPUT courses at the 300- or 400-level offered at the University of Alberta. In addition, to graduate with the designation of Honors Stream in Bioinformatics, students must achieve a minimum of 2.3 in BIOL 301 and 401, BIOL 207, GENET 270, two of GENET 275, 301, 302, 304, or 390 and one of BIOL 321, 380 or BIOCH 220.

#### Year 1

- **CMPUT 101**
- **3 in a Science option**
- **3 junior English**

#### Year 2

- **CMPUT 201, 204, 229, 291**
- **GENET 270**
- **MATH 129 and 3 in one of MATH 225, 228, 229**
- **STAT 221, 222**

#### Year 3

- **BIOL 301**
- **3 in a BIOL option (see Note 7)**
- **CMPUT 301, 325, 391, and 3 in CMPUT at the 300-level or higher (see Notes 4 and 5)**
- **3 in a GENET Option (see Note 7)**
- **3 in a MATH or STAT option at the 200-level or higher (see Note 6)**
- **3 in an Arts option**

#### Year 4

- **BIOL 401**
- **CMPUT 360, and at least 3 in CMPUT at the 300-level or higher (see Notes 4 and 5)**
- **3 in a GENET Option (see Note 7)**
- **3 in a MATH or STAT option at the 200-level or higher**
- **3 in an Arts option**

#### Notes

1. Students with no previous computing experience should enrol in CMPUT 101, followed by CMPUT 114 and 115. Students are strongly encouraged to take CMPUT 272 in Year 1.
2. Honors students in the Bioinformatics stream are strongly encouraged to take the Honors version of the MATH courses, beginning in the first year.
3. Honors students in the Bioinformatics stream must take CMPUT 495 (Honors Seminar) in Year 3.
4. Honors students in the Bioinformatics stream must take 3 in Group A courses which include CMPUT 304, 340 and 474. A complete list of Group A courses to be offered in a given year is available from the department.
5. Honors students in the Bioinformatics stream must take 3 in Group B project courses which include CMPUT 400, 401, 410, 412, 414, 415, 422, and 466. The department may approve variations in the above requirement on application. CMPUT 400 satisfies the project requirement, but cannot be used as 3 in CMPUT at the 300-level or higher as a Science option.
6. Some higher level CMPUT courses may require specific MATH courses as prerequisites. These prerequisites should be taken for the MATH or STAT option.
7. The 6 in GENET options must be chosen from GENET 275, 301, 302, 304 or 390. The 3 in a BIOL option must be chosen from BIOL 321, 380 or BIOCH 220. Note: students interested in GENET 390 and BIOCH 220 are advised to take CHEM 101 and 161 in year 1.

### 193.6.6 Computing Science Specialization Stream in Bioinformatics

Continuation in the Specialization Stream in Bioinformatics has the same requirements as Computing Science Specialization. Graduation requires a GPA of at least 2.3 on the last 90 credits to the degree and a 2.3 on all CMPUT, MATH, and STAT courses credited to the degree. Specialization students in the Bioinformatics stream must complete a minimum of 3 in CMPUT courses at the 300- or 400-level offered at the University of Alberta. In addition, to graduate with the designation of Specialization Stream in Bioinformatics, students must achieve a minimum of 2.3 on BIOL 301 and 401, BIOL 207, GENET 270, two of GENET 275, 301, 302, 304, or 390 and one of BIOL 321, 380 or BIOCH 220.

#### Year 1 (Recommended Course Sequence)

- **BIOL 107**
- **CMPUT 101 and 114 or 174 and 175; 272 (see Note 1)**
- **6 in a Science option**
- **3 in MATH 125 recommended**
- **MATH 114, 115**
- **3 in an approved Science option (if not taking CMPUT 101)**
- **3 in a BIOL or CHEM option**

#### Year 2

- **BIOL 207**
- **CMPUT 201, 204, 229, 291**
- **GENET 270**
- **MATH 120 (MATH 125 recommended)**
- **STAT 221, 222**
- **3 in an Arts option**

#### Year 3

- **BIOL 301**
- **301, 325, 379**
- **3 in CMPUT at the 300-level or higher (see Note 3 and 4)**
- **3 in a GENET Option (see Note 5)**
- **3 in a MATH or STAT option at the 200-level or higher (see Note 2)**
- **3 in a BIOL option (see Note 5)**
- **3 in an Arts option**

#### Year 4

- **BIOL 401**
- **3 in a GENET Option (see Note 5)**
- **3 in a CMPUT option at the 300-level or higher (see Notes 3 and 4)**
- **6 in Arts options**
- **3 in approved options**

#### Notes

1. There are many routes to the study of Computing Science. Students should seek advice from a department advisor or visit our website at www.cs.ualberta.ca/courses. CMPUT 272 can be taken in second year. Please consult department for advice.
2. Some higher level CMPUT courses may require specific MATH courses as prerequisites. These prerequisites should be taken for the MATH or STAT option.
3. Specialization students with the Bioinformatics stream must take 3 in Group A courses which include CMPUT 304, 340 and 474. A complete list of Group A courses to be offered in a given year is available from the department.
4. Specialization students with the Bioinformatics stream must take 3 in Group B project courses which include CMPUT 400, 401, 410, 412, 414, 415, 422, and 466. The department may approve variations in the above requirement on application. CMPUT 400 satisfies the project requirement, but cannot be used as 3 in CMPUT at the 300-level or higher or as a Science option.
5. The 6 in GENET options must be chosen from GENET 275, 301, 302, 304 or 390. The 3 in a BIOL option must be chosen from BIOL 321, 380 or BIOCH 220. Note: students interested in GENET 390 and BIOCH 220 are advised to take CHEM 101 and 161 in year 1.

### 193.6.7 Industrial Internship Program

An Industrial Internship Program, similar to a co-op program, is offered to students in the Specialization or Honors programs in Computing Science (see $103.1.9$ for guidelines to the program). The Industrial Internship designation will appear on the degree parchments of students who have participated in the program.

Students approved to enter this stream register for a continuous sequence of at least two work experience (WKEXP) courses 921 and 922, starting in May, September or January. During the program, student are considered full-time students of the University. Work experience courses have no weight and are graded credit/no credit, and recorded on the student's transcript. The Industrial Internship Program Advisor maintains contact at approximately three-month intervals with the student and the person designated by the employer to be responsible for the student's progress. This arrangement ensures satisfaction on all sides. If the review shows the situation is not satisfactory, the internship may be terminated and the student would then return to classes at the next available opportunity. The graduation requirements for the Industrial Internship program designation include successful completion of at least WKEXP 921 and
922 plus CMPUT 400. CMPUT 400 must be taken in the first term immediately following completion of the WKEXP period. If required by the employer, the student’s written report and oral presentation in CMPUT 400 may be classified confidential. The employer also assesses the student’s performance during the work term. Based on the student’s written report and oral presentation, and the report from the employer, students are awarded a grade in CMPUT 400.

Interested students should see the Industrial Internship Advisor in the Department of Computing Sciences for more information.

**193.6.8  BSc General—Computing Science Minor**

The Computing Science minor requires completion of a minimum ★24 to a maximum ★36, with ★6 at the 300 level or higher, chosen from the following courses: CMPUT 101, (114 and 115) or (174 and 175), 201, 204, 229, 272, 291, 306, 313, 325, 340, 366, and 379. Further credits in CMPUT at the 300- and 400-level are typically not permitted. BIOIN 301 and 401 also can be used to complete this minor.

**Note:** There are many routes to the study of Computing Science. Students should seek advice from a department advisor or visit our website at www.cs.ualberta.ca/courses. Students will also need to complete prerequisite courses in MATH and STAT according to the CMPUT courses chosen, and BIOL and GENET, if BIOIN courses are chosen.

**193.6.9  BSc Program in Computer Engineering**

A four-year program in Computer Engineering is offered jointly by the Faculty of Science and the Faculty of Engineering (see §62.5). For administrative purposes, students in the program will be registered in the Faculty of Engineering. See admission requirements in §15.7. Promotion and Graduation regulations are found in §83.3(2).

**193.6.10  BSc in Computing Science After an Undergraduate Degree (other than a BSc from the Faculty of Science at the University of Alberta)**

In addition to the requirements set out in §193.1.8, a student pursuing this designation must also complete a minimum of ★21 in CMPUT courses at the 300- or 400-level offered at the University of Alberta as part of their ★60.

**193.7  Earth and Atmospheric Sciences**

Earth and Atmospheric Sciences encompass the study of the atmosphere, surface and interior of the earth. The Department administers nine academic programs: Honors and Specialization in Environmental Earth Science, Honors and Specialization in Geology, Honors and Specialization in Paleontology, and BA Major in Human Geography. For details on Major and Minor in Human Geography, see Faculty of Arts listing.

**193.7.1  Honors in Atmospheric Sciences**

Atmospheric science is the study of atmospheric composition, state and motion, from the small scale (e.g., the environment of a single leaf) through medium scales (e.g., a cumulus cloud) to the global scale (global pollution and warming). Most atmospheric scientists in Canada work for Environment Canada, providing weather forecasts or environmental information. Opportunities also arise with provincial governments and in the private sector.

Continuation in the Honors in Atmospheric Sciences program requires a GPA of at least 3.0 on at least ★24 in the previous Fall/Winter. Graduation requires a GPA of at least 3.0 on the last ★60 credited to the degree.

A student enrolling in the Honors program should consult the Atmospheric Sciences advisor before registration each year.

**193.7.2  Specialization in Atmospheric Sciences**

Continuation in the Specialization in Atmospheric Sciences program requires a GPA of at least 2.3 on at least ★18 in the previous Fall/Winter. To graduate in four years, a student needs to complete ★30 per year. Students who extend their programs beyond five years must first obtain the written approval of the Faculty of Science and the Department of Earth and Atmospheric Sciences.

Graduation requires a GPA of at least 2.3 on the last ★60 credited to the degree.

A student enrolling in the Specialization program should confer with the Atmospheric Sciences program student advisor before registration each year.

**193.7.3  Honors in Environmental Earth Sciences**

Environmental Earth Science is the study of interactions between humans and Earth’s natural environment. It encompasses the influence of human activities on the local and global environment, as well as how our actions are shaped and controlled by the geologic and geomorphic processes occurring around us. Environmental Earth Scientists are typically employed by consulting companies, large resource and industrial firms, and government organizations.

Continuation in the Honors in Environmental Earth Sciences program requires a GPA of at least 3.0 on at least ★24 in the previous Fall/Winter.

Graduation requires a GPA of at least 3.0 on the last ★60 credited to the degree.

A student enrolling in the Honors program should confer with the Environmental Earth Sciences Program student advisor before registration each year.

Year 3
EAS 320, 323, 324 and 354
6 of EAS 327 or 351 or 451
GEOPH 223
3 in an Arts option
3 Science and related options

Note: Science and related options require the approval of the Environmental Earth Sciences advisor.

For students in the Industrial Internship Program: EAS 401, WKEXP 411, 412.

193.7.4 Specialization in Environmental Earth Sciences

Continuation in the Specialization in Environmental Earth Sciences program requires a GPA of at least 2.3 on at least 18 in the previous Fall/Winter. To graduate in four years, a student needs 30 per year. Students who extend their programs beyond five years must first obtain the written approval of the Faculty of Science and the Department of Earth and Atmospheric Sciences.

Graduation requires a GPA of at least 2.3 on the last 60 credited to the degree.

A student enrolling in the Specialization program should confer with the Environmental Earth Sciences Program student advisor before registration.

Year 1
CHEM 101 and 102
EAS 100 and 105
6 junior ENGL
MATH 113 or 114 and 115
PHYS 124 and 126 or PHYS 144 and 146

Year 2
BIOL 108

6 of EAS 327 or 351 or 451
GEOPH 223
3 in an Arts option
3 Science and related options

Note: Science and related options require the approval of the Environmental Earth Sciences advisor.

For students in the Industrial Internship Program: EAS 401, WKEXP 411, 412.

193.7.5 Honors in Geology

Geology is the study of the planet Earth—the materials it is made of, the processes which affect these materials, and the origin and evolution of life. Geologists are employed by companies engaged in exploration for and production of minerals and fuels, by government agencies, by companies engaged in engineering and environmental projects, and by universities.

Continuation in the Honors program requires a GPA of 3.0 on at least 24 in the previous Fall/Winter.

Graduation requires a minimum GPA of 3.0 on the last 60 credited to the degree.

A student enrolling in the Honors program should consult the Geology program student advisor before registration each year.

Year 1
CHEM 101 and 102
EAS 100 and 105
6 junior ENGL
MATH 113 or 114 and 115
PHYS 124 and 126 or PHYS 144 and 146

Year 2
EAS 221, 222, 224, 225, 230, 232, 233, 234, and 294
3 Science option

Year 3
EAS 320, 321, 323, 330, 331, 332, 333 and 336
GEOPH 210 or 223 or 224
3 in an Arts option

Year 4
EAS 426
GEOPH 210 or 223 or 224
6 Science courses 250 or higher
6 Science options (including but not restricted to EAS courses 250 or higher)
6 in Arts options

Note: Recommended Arts options include any EAS X9X courses. For students in the Industrial Internship Program: EAS 401, WKEXP 411, 412.

193.7.6 Specialization in Geology

Continuation in the Specialization in Geology program requires a GPA of at least 2.3 on at least 18 in the previous Fall/Winter. To graduate in four years, a student needs 30 per year. Students who extend their programs beyond five years must first obtain the written approval of the Faculty of Science and the Department of Earth and Atmospheric Sciences.

Graduation requires a GPA of at least 2.3 on the last 60 credited to the degree.

A student enrolling in the Specialization program should consult the Geology program student advisor before registration each year.

Year 1
CHEM 101 and 102
EAS 100 and 105
6 junior ENGL
MATH 113 or 114 and 115
PHYS 124 and 126 or PHYS 144 and 146

Year 2
EAS 221, 222, 224, 225, 230, 232, 233, 234 and 294
3 Science option

Year 3
EAS 320, 321, 323, 330, 331, 332, 333 and 336
GEOPH 210 or 223 or 224
3 in an Arts option

Year 4
GEOPH 210 or 223 or 224
6 Science courses 250 or higher
12 in approved Science options (including but not restricted to EAS courses 250 or higher)
6 in Arts options

Note: Recommended Arts options include any EAS X9X courses. For students in the Industrial Internship Program: EAS 401, WKEXP 411, 412.

193.7.7 Honors and Specialization in Paleontology

See §193.15, Paleontology, for details on the Honors and Specialization Paleontology programs.

193.7.8 Industrial Internship Program

An Industrial Internship Program, similar to a co-op program, is offered to students in the Specialization or Honors programs in Earth and Atmospheric Sciences (see §193.1.9 for guidelines to the program). The Industrial Internship designation will appear on the degree parchments of students who have participated in the program.

Students approved to enter this stream register for a continuous sequence of at least two work experience (WKEXP) courses 411 and 412, starting in May, September or January. During the program, student are considered full-time students of the University. Work experience courses have no weight and are graded credit/no credit, and recorded on the student’s transcript. The Industrial Internship Program Advisor maintains contact at approximately three-month intervals with the student and the person designated by the employer to be responsible for the student’s progress. This arrangement ensures satisfaction
on all sides. If the review shows the situation is not satisfactory, the internship may be terminated and the student would then return to classes at the next available opportunity. The graduation requirements for the Industrial Internship program designation include successful completion of at least WKEXP 411 and 412 plus EAS 401. EAS 401 must be taken in the first term immediately following completion of the WKEXP period. If required by the employer, the student’s written report and oral presentation in EAS 401 may be classified confidential. The employer also assesses the student’s performance during the work term. Based on the student’s written report and oral presentation, and the report from the employer, students are awarded a grade in EAS 401.

Interested students should see the Industrial Internship Advisor in the Department of Earth and Atmospheric Sciences for more information.

193.7.9 Professional Registration

Graduates of EAS programs may qualify for registration as professional geologists (P. Geol.). The practice of geology in Alberta is governed by provincial law in the interest of public protection against unskilled practice. The right to practice independently (meaning that you are legally able to accept responsibility for your work and sign for it), and the right to use the title of professional geologist (P. Geol.), are restricted to individuals registered by the Association of Professional Engineers, Geologists and Geophysicists of Alberta (APEGGA). Members of the PS Warren student society are automatically student members of APEGGA and as such are introduced to the professional association. Individuals who are planning to meet the knowledge requirements for P. Geol. while also completing their degree at the University of Alberta should plan their program course selection carefully. Attention is drawn in particular to the science subject requirements, additional to calculus, physics and chemistry. APEGGA verifies that specific knowledge requirements are met, by reviewing academic credentials course-by-course. Holders of degrees that do not cover the APEGGA syllabus may be assessed examinations in missing subjects by the APEGGA Board of Examiners before being accepted for registration. Current syllabus and registration information is available at the Departmental Office or from APEGGA. Full information is available at http://www.apegga.com/

Specific questions about programs of study or individual courses applicable to professional registration can also be directed to the Departmental APEGGA Liaison.

193.8 Environmental Physical Sciences

193.8.1 Specialization in Environmental Physical Sciences

Continuation in the Specialization in the Environmental Physical Sciences program requires a minimum GPA of 2.3 in the preceding Fall/Winter. Graduation requires a minimum of GPA of 2.3 on the last #80 credited to the degree.

Year 1

Notes

(1) #6 to #12 must be taken in Arts option, in addition to the *6 in 100-level English. These may include EAS 294, 295, 391, 481, 493; ECON 101; PHIL 355.
(2) Approved Science or other options must total #24 to #30, such that a total of #36 of optional courses are taken. These options include, but are not restricted to, CHEM 241, 313, 333, 371, 373, 415, 417; EAS 224, 225, 250, 327, 352, 457; ENCS 352; GEOPH 223, 224; MATH 214, 215; SOILS 210.
(3) PHYS 364 is offered in alternate years only. Students must check the course schedule and take PHYS 364 in either the third or fourth year of their program, depending on which year PHYS 364 is offered.

193.8.2 Industrial Internship Program

The Environmental Physical Sciences Program in the Faculty of Science offers an Industrial Internship Program which allows students to augment their program of study with 12 or 16 months of paid, discipline-related employment with approved firms or institutions. Only students who have completed three years of the Specialization Program in good standing and who are Canadian citizens or permanent residents are eligible to compete for places in the IIP.

Employment will begin in May after completion of Year 3. After three months of employment, the Internship will be reviewed by the employer, the student, and the IIP Coordinator. If all parties are satisfied, the employment will continue for a further nine or 13 months. During this time the IIP Coordinator will maintain contact periodically with the student and the person designated by the employer to supervise the student to ensure satisfaction on all sides for the remainder of the work term. If the review shows the situation is not satisfactory, the Internship is terminated and the student may return to classes in September to complete Year 4. In this way, the completion of the student’s academic program is not delayed.

During the Fall/Winter, a student in the IIP will register in work experience courses, WKEXP 421 and 422 and will be considered to be a full-time off-campus student of the University of Alberta. The WKEXP courses are graded credit or no credit. In the Fall term immediately following successful completion of the IIP, the student will register in ENVS 403 (*3), which is graded on the University of Alberta four-point letter grading system and which comprises the academic component of the IIP. The student will submit a report to the IIP Coordinator describing the project(s) undertaken and will make an oral presentation to an Advisory IIP committee. A grade will be assigned in ENVS 403, based on the employer’s assessment, the report and the oral presentation.

A student who has successfully completed WKEXP 421, 422 and ENVS 403, will receive an Industrial Internship Designation on the degree certificate.

193.9 Geophysics

The Department of Physics offers two programs dealing with solid earth physics and space physics. The Honors in Geophysics program (see §193.17.5) prepares students for graduate work in geophysics. The Specialization in Geophysics program prepares students with the conceptual and laboratory background required for employment at the BSc level in industry, government and technical schools. Also see §193.17 (Physics).

193.9.1 Professional Association

The practice of geophysics in Alberta is regulated by the Association of Professional Engineers, Geologists and Geophysicists of Alberta (APEGGA). The right to practise geophysics in Alberta and accept professional responsibility for such work as well as the right to use the geophysicist title is limited to those registered with APEGGA.

Members of the Geophysics Student Society are automatically student members of APEGGA. Graduates are encouraged to join APEGGA as Geophysicists-in-training. Acceptable experience following graduation is necessary for registration as a Professional Geophysicist, the APEGGA membership category which confers the right to accept responsibility for geophysical work. Contact the APEGGA office for more information.

193.10 Immunology and Infection

193.10.1 Honors in Immunology and Infection

Continuation in the Honors in Immunology and Infection requires a minimum GPA of 3.0 in each preceding Fall/Winter. Graduation requires a minimum GPA of
3.0 on the last ★60 credited to the degree. Students in the Honors program must take at least ★24 in the Fall/Winter of each year. Exceptions to this requirement must be approved by the Department of Biological Sciences and the Faculty of Science office.

193.10.2 Specialization in Immunology and Infection

Continuation in the Specialization in Immunology and Infection requires a minimum GPA of 2.3 in each preceding Fall/Winter. Graduation requires a GPA of 2.3 in all courses credited to the degree. Students in Specialization programs must take at least ★24 during the Fall/Winter of each year of the program. Exceptions to this requirement must be approved by the Department and the Faculty Office.

Year 1

BIOL 107, 108
CHEM 101, 102
CHEM 164 or 261
MATH 113 or 114 or 120
STAT 141 or 151
★3 in a Science option
★6 in Arts options

Year 2

BIOL 200
BIOL 291
BIOL 207, 208
CHEM 263
IMIN 200
MICRB 265
GENET 270 or BIOCH 330
★6 in Arts options

Years 3 and 4

ZOOL 241 and 242 or PHYSL 210 or 211
One of: BIOCH 430; GENET 304; MICRB 316
IMIN 324, 371, 452
MMI 351
ZOOL 352
★6 in Arts options
★9 in Science options from the Options List below
★21 in options from the Options List below or options approved by an advisor.‘
‘At least ★3 must be in a course with a laboratory component. Honors students must take at least ★6 in a laboratory research project course (honors thesis). Approved project courses are BIOL 499 and MMI 499. Therefore, Honors students need take only ★15 from third Options List below.

Options List

BIOCH 320, 430, 450
CELL 300
ENT 378
GENET 304
IMIN 372, 401
MICRB 316
MMI 352, 405, 415, 426
ZOOL 354, 452

Note: Normally only ★12 are allowed outside the Faculties of Science and Arts in the entire program. See §194 for courses outside the Faculty of Science that will be considered as Science options.

193.11 Marine Science

Excellent opportunities for the study of marine biology and related subjects exist at Bamfield Marine Sciences Centre (BMSC) on Vancouver Island, BC. An academic program operates at the station, in which summer study will provide credit toward degrees in Science.

Prerequisite for all the MA SC courses is consent of the Department of Biological Sciences.

Students are expected to take a full course load of ★15 during the fall term. Courses run Monday to Saturday.

A refundable deposit of $100 is payable at the time of application.

An extension fee of $1,000 must be paid on arrival at BMSC to cover the cost of field trips, lab supplies and course materials.

There is a mandatory room and board charge of $1,840 for the 13 weeks.

Information concerning course prerequisites and application procedures for Marine Science may be obtained from the Department of Biological Sciences or the Office of the Dean of Science. Permission to register in these courses is available from the Director of the Bamfield Marine Sciences Centre, to whom application should be made.

See §231 Course Listings for descriptions of available Marine Science courses.

193.12 Mathematics

193.12.1 Honors in Mathematics

Continuation in the Honors in Mathematics program requires a minimum GPA of 3.0 in the preceding Fall/Winter. Graduation requires a minimum GPA of 3.0 on ★24 in each Fall/Winter.

Year 1

MATH 117, 118, 125, 228
★6 in an approved Science option
★6 in approved Arts options
★6 in approved options

Year 2

MATH 217, 225, 317, either 328 or 334
★6 in approved Science options
★6 in approved Arts options
★6 in approved options

Year 3 and 4

★30 in MATH courses
★6 in approved Science options
★6 in approved Arts options
★18 in approved options

The program must include MATH 325, 328 or 329, 334, 411, 417, 418, 446 or 448, 447, 496 and ★3 in a Computing Science or Statistics option.

The Honors Seminar, MATH 496, should normally be taken in the fourth year. Note that several of the required courses, including MATH 496, are only given in alternate years.

Honors in Applied Mathematics

Continuation in the Honors in Applied Mathematics program requires a minimum GPA of 3.0 in the preceding Fall/Winter. Graduation requires a minimum GPA of 3.0 on ★24 in each Fall/Winter.

Year 1

MATH 117, 118, 125, either 226 or 229
★6 in approved Science options
★6 in approved Arts options
★6 in approved options

Year 2

MATH 217, 225, 317, 334
★6 in approved Science options
★6 in approved Arts options
★6 in approved options

Year 3 and 4

★21 in Mathematics courses
★6 in approved options at the 300- or 400-level in the field of application
★3 in an approved 300- or 400-level Mathematics and/or Mathematical Physics option
★12 in approved Science options
★6 in approved Arts options
★12 in approved options

The program must include in the third and fourth years: MATH 337, 381, 411, 417, 438, 496; one of MATH 373 or 421 and ★3 in a Computing Science or Statistics option. The Honors Seminar, MATH 496, should normally be taken in the fourth year. Note that several of the required courses, including MATH 496, are only given in alternate years.

Minor in Statistics

The degrees Honors in Mathematics and Honors in Applied Mathematics can each be obtained with a minor in Statistics if the student’s program includes STAT 265, 366, 378, 471, and two of STAT 368, 441, 472, 479.

Minor in Computing Science

The degrees Honors in Mathematics and Honors in Applied Mathematics can each be obtained with a Minor in Computing Science. The student’s program must include CMPUT 114, 115, 201, 204, 272, 291, 304, 328 and at least one additional ★3 in Computing Science at the 300- or 400-level.

The Department also offers a BA Honors in Mathematics (see §44.17.1).

Honors in Mathematical Physics

See §193.17.6 for details.

Honors in Statistics

See §193.20.1 for details.

193.12.2 Specialization in Actuarial Science—
Business Minor

Continuation in the program normally requires successful completion of at least ★24 in the previous Fall/Winter with a GPA of at least 2.3, and a GPA of at
least 2.3 on the aggregate of all ECON, FIN, MATH and STAT courses taken in that Fall/Winter.

In the last Fall/Winter of the program, a GPA of at least 2.3 and a GPA of at least 2.3 on the aggregate of all ECON, FIN, MATH and STAT courses taken in that Fall/Winter is required.

Graduation requires a GPA of at least 2.3 on all courses credited toward the degree and a GPA of at least 2.3 on the aggregate of all ECON, FIN, MATH and STAT courses credited toward the degree.

The program must contain the following courses. It is recommended that these courses be taken in the years indicated.

**Year 1**
- CMPUT 101, 114
- ECON 101, 102
- MATH 114, 115
- MATH 125
- STAT 151
- ★6 in junior English

**Year 2**
- MATH 214, 215
- MATH 225
- MATH 253
- STAT 265
- ★6 in Arts options
- ★9 in options

**Year 3**
- ACCTG 311
- FIN 301
- STAT 353
- MGSC 352
- STAT 365, 376, 432
- STAT 354 or 355
- ★6 in MATH or STAT options

**Year 4**
- STAT 453
- STAT 454 or STAT 455
- STAT 471
- STAT 479
- ★9 in FIN options
- ★9 in options

**Notes**
1. Each student’s program must have the approval of the Department of Mathematics and Statistical Sciences and must include:
   a. At least ★18 in Arts
   b. At least ★18 and not more than ★24 in Business
   c. At least ★69 in Science courses, of which ★60 must be in MATH and STAT
2. Students are encouraged to study ethics and economics and to choose their Arts options from PHIL 250 and ECON 261, 282, 341.
3. Recommended CMPUT options include CMPUT 301, 304, 313, 325, 379, 391, 361.
4. A corresponding Honors MATH course can be substituted for any MATH course listed. For example, MATH 117 can be substituted for MATH 114.

**193.12.3 Specialization in Mathematics**

Continuation in the program normally requires successful completion of at least ★24 in the previous Fall/Winter with a GPA of at least 2.3, and a GPA of at least 2.3 on all MATH courses taken in that Fall/Winter.

In the last Fall/Winter of the program, a GPA of at least 2.3 and a GPA of at least 2.3 on all MATH courses taken in that Fall/Winter is required.

Graduation requires a GPA of at least 2.3 on all courses credited toward the degree and a GPA of at least 2.3 on all MATH courses credited toward the degree.

The program must contain the following courses. It is recommended that these courses be taken in the years indicated.

**Year 1**
- MATH 114, 115
- MATH 125
- CMPUT 101 and 114, or 114 and 115
- ★6 in junior English
- ★3 in a Science option
- ★6 in options

**Year 2**
- MATH 214, 215
- MATH 225
- MATH 228
- ★3 in a MATH option
- ★3 in a Science option
- ★6 in Arts options
- ★6 in options

**Year 3**
- MATH 314, 414
- ★6 in MATH options
- ★6 in Science options
- ★6 in Arts options
- ★6 in options

**Year 4**
- ★12 in MATH at the 300- or 400-level
- ★6 in Science options
- ★12 in options

**Notes**
1. Each student’s program must have the approval of the Department of Mathematical and Statistical Sciences.
2. A student must take at least ★6 in MATH in each Fall/Winter of the program.
3. A corresponding Honors MATH course can be substituted for any MATH course listed. For example, MATH 117 can be substituted for MATH 114.
4. Students interested in taking non-junior CMPUT courses as options in subsequent years should note that CMPUT 115 is a prerequisite for all non-junior CMPUT courses.

**193.12.4 Specialization in Computational Science (Mathematics)**

Continuation in the program normally requires successful completion of at least ★24 in the previous Fall/Winter with a GPA of at least 2.3, and a GPA of at least 2.3 on the aggregate of all CMPUT, MATH and STAT courses taken in that Fall/Winter.

In the last Fall/Winter of the program, a GPA of at least 2.3 and a GPA of at least 2.3 on the aggregate of all CMPUT, MATH and STAT courses taken in that Fall/Winter is required.

Graduation requires a GPA of at least 2.3 on all courses credited toward the degree and a GPA of at least 2.3 on the aggregate of all CMPUT, MATH and STAT courses credited toward the degree.

The program must contain the following courses. It is recommended that these courses be taken in the years indicated.

**Year 1**
- CMPUT 114, 115
- MATH 114 and 115, or 117 and 118
- MATH 125
- ★6 in a junior English
- ★9 in options

**Year 2**
- CMPUT 201, 204, 272
- MATH 214 and 215, or 217 and 317
- MATH 222, 225
- STAT 221
- ★6 in Arts

**Year 3**
- CMPUT 229, 291
- MATH 228, 381
- STAT 222
- ★3 in MATH or STAT
- ★3 in Arts
- ★9 in options

**Year 4**
- ★6 in CMPUT at 300-level or higher
- ★6 in MATH or STAT at 300-level or higher
- ★6 in an option at 300-level or higher
- ★3 in Arts
- ★12 in options

**Notes**
1. The program must contain at least ★72 in Science and ★18 in Arts.
2. Recommended MATH options include MATH 314, 322, 324, 325, 334, 337, 373, 414, 421, 422, 461.
3. Recommended CMPUT options include CMPUT 301, 304, 313, 325, 379, 391, 401, 411.
4. Recommended STAT options include STAT 368, 378, 466, 471, 479.
5. STAT 265/366 can be substituted for STAT 221, 222.
6. Each student’s program must have the approval of the Department of Mathematical and Statistical Sciences.
193.12.5 Mathematics and Economics

The Faculty of Science offers an Honors degree and a Specialization degree in Mathematics and Economics.

Honors in Mathematics and Economics

Continuation in the Honors in Mathematics and Economics program requires a minimum GPA of 3.0 in the previous Fall/Winter. Graduation requires a minimum GPA of 3.0 on 24 credits in each Fall/Winter.

Year 1

ECON 101, 102
MATH 117, 118, 125, 228
★6 in a junior English
★6 in approved Science options

Year 2

ECON 281, 282
MATH 217, 317
STAT 265, 366
★6 in approved Science options
★6 in approved options

Year 3 and 4

★24 in Economics
★27 in MATH or STAT courses
★6 in approved Science options
★6 in approved options

The program must contain MATH 225; ECON 384, 385, 481, 482, 407, 408; STAT 366; and four of MATH 334, 373, 381, 417, 421, 422, 481. Credit is not given for ECON 386, 387, or 390.

Specialization in Mathematics and Economics

Continuation in the program normally requires successful completion of at least 24 in the previous Fall/Winter with a GPA of at least 2.3, and a GPA of at least 2.3 on the aggregate of all ECON, MATH, and STAT courses taken in that Fall/Winter.

In the last Fall/Winter of the program a GPA of at least 2.3 and a GPA of at least 2.3 on the aggregate of all ECON, MATH, and STAT courses taken in that Fall/Winter is required.

Graduation requires a GPA of at least 2.3 on all courses credited toward the degree and a GPA of at least 2.3 on the aggregate of all ACCTG, ECON, FIN, MATH, MGTSC, and STAT courses credited toward the degree.

The program must contain the following courses. It is recommended that these courses be taken in the years indicated.

Year 1

ECON 101, 102
MATH 114, 115, 125
STAT 151
★6 in junior English
★3 in a Science option
★3 in an option

Year 2

ECON 281, 282
MATH 214, 215, 225
STAT 265
★9 in Science options
★3 in an option

Year 3 and 4

STAT 265
★24 in ECON including either ECON 399 or both ECON 407 and 408
★18 in MATH or STAT options
★15 in options

Notes
(1) Each student’s program must have the approval of the Department of Mathematical and Statistical Sciences and must include
   a. ★18 in Arts courses
   b. ★12 in Science courses
   c. ★33 in ACCTG, ECON, FIN, or MGTSC, including ★9 in 400-level FIN
   d. Approved ACCTG, ECON, FIN and MGTSC options include ACCTG 322, 412, 422, 434, ECON 282, 384, 385, 407, 408, 481, 482; FIN 412, 413, 414, 416, 422, 434, 442; MGTSC 404, 405.
(2) Recommended Science options include: MATH 334, 337, 354, 381, 432, 481; STAT 466, 471, 472, 479.
(4) A corresponding Honors MATH course can be substituted for any MATH course listed. For example, MATH 117 can be substituted for MATH 114.
(5) Students interested in taking non-junior CMPUT courses as options in subsequent years should note that CMPUT 115 is a prerequisite for all non-junior CMPUT courses.

193.12.6 Specialization in Mathematics and Finance

Continuation in the program normally requires successful completion of at least 24 in the previous Fall/Winter with a GPA of at least 2.3, and a GPA of at least 2.3 on the aggregate of all ACCTG, ECON, FIN, MATH, MGTSC, and STAT courses taken in that Fall/Winter.

In the last Fall/Winter of the program a GPA of at least 2.3 and a GPA of at least 2.3 on the aggregate of all ACCTG, ECON, FIN, MATH, MGTSC and STAT courses taken in that Fall/Winter is required.

Graduation requires a GPA of at least 2.3 on all courses credited toward the degree and a GPA of at least 2.3 on the aggregate of all ACCTG, ECON, FIN, MATH, MGTSC, and STAT courses credited toward the degree.

The program must contain the following courses. It is recommended that these courses be taken in the years indicated.

Year 1

CMPUT 101 and 114, or 114 and 115
ECON 101, 102
MATH 114, 115, 125
STAT 151
★6 in junior English

Year 2

ACCTG 311
ECON 281
MATH 214, 215
MATH 225, 253
MGTSC 352
STAT 265
★6 in options

Year 3

FIN 301
STAT 353
MATH 356, 357
STAT 386
★3 in a FIN option
★12 in options

Year 4

MATH 314, 414
MATH 373
ECON 399 or STAT 378
★6 in FIN options
★12 in options

Notes
(1) Each student’s program must have the approval of the Department of Mathematical and Statistical Sciences and must include
   a. ★18 in Arts courses
   b. ★12 in Science courses
   c. ★33 in ACCTG, ECON, FIN, or MGTSC, including ★9 in 400-level FIN
   (2) Approved ACCTG, ECON, FIN and MGTSC options include ACCTG 322, 412, 422, 434, ECON 282, 384, 385, 407, 408, 481, 482; FIN 412, 413, 414, 416, 422, 434, 442; MGTSC 404, 405.
(3) Recommended Science options include: MATH 334, 337, 354, 381, 432, 481; STAT 466, 471, 472, 479.
(4) A corresponding Honors MATH course can be substituted for any MATH course listed. For example, MATH 117 can be substituted for MATH 114.
(5) Students interested in taking non-junior CMPUT courses as options in subsequent years should note that CMPUT 115 is a prerequisite for all non-junior CMPUT courses.

193.12.7 Industrial Internship Program

An Industrial Internship Program, similar to a co-op program, is offered to students in the Specialization or Honors programs in Mathematical and Statistical Sciences (see §193.1.9 for guidelines to the program). The Industrial Internship designation will appear on the degree parchments of students who have participated in the program.

Students approved to enter this stream register for a continuous sequence of at least two work experience (WKEXP) courses 951 and 952, starting in May, September or January. During the program, student are considered full-time students of the University. Work experience courses have no weight and are graded credit/no credit, and recorded on the student’s transcript. The Industrial Internship Program Advisor maintains contact at approximately three-month intervals with the student and the person designated by the employer to be responsible for the student’s progress. This arrangement ensures satisfaction on all sides. If the review shows the situation is not satisfactory, the internship may be terminated and the student would then return to classes at the next available opportunity. The graduation requirements for the Industrial Internship program designation include successful completion of at least WKEXP 951 and 952 plus MATH or STAT 400. MATH or STAT 400 must be taken in the first
term immediately following completion of the WKEXP period. If required by the employer, the student’s written report and oral presentation in MATH or STAT 400 may be classified confidential. The employer also assesses the student’s performance during the work term. Based on the student’s written report and oral presentation, and the report from the employer, students are awarded a grade in MATH or STAT 400.

Interested students should see the Industrial Internship Advisor in the Department of Mathematical and Statistical Sciences for more information.

193.13 Neuroscience

193.13.1 Honors in Neuroscience

The Honors program in Neuroscience is an interdisciplinary program coordinated by the Centre for Neuroscience and administered by the Faculty of Science. This program is for students planning a career in Neuroscience.

Entry into the Honors Program from high school requires a minimum matriculation average of 80% with completed credits in Biology 30, Chemistry 30 and Physics 30 as prerequisites for admission.

Neuroscience is a broadly based discipline covering all aspects of brain function. Some major areas are brain development, nerve cells and synapses, sensation and perception, learning and memory, control of movement, animal behavior, cognitive psychology, and disorders of the nervous system.

The honors program introduces the major areas of Neuroscience and allows students to explore topics of interest in their final year.

Continuation in the Honors program requires a minimum GPA of 3.3 in each preceding Fall/Winter. Graduation requires a minimum GPA of 3.0 on 60 credits in Years 3 and 4 of the program. Each program of study must be approved by the program coordinator in the Centre for Neuroscience.

All full course load of 30 per academic year must be maintained throughout each year of the Honors program. Courses cannot be deferred to the Spring/Summer terms without prior permission of the program coordinator.

Year 1

BIOL 107, 108
CHEM 101, 102
One of ENGL 111, 112, 113, 114 or ENGL 104 and 105
MATH 113 or 114
MATH 115 or STAT 141 or 151
PHYS 124, 126

Year 2

BIOCH 200
BIOL 207
CHEM 263
PHYS 210 or ZOOL 241 and 242
PSYCO 104 and 275
6 in Science options
3 in an Arts option

Year 3

NEURO 375
PMCOL 371
PHYS 372
One of PSYCO 377, 371; GENET 270, 390; ZOOL 342, 344
12 in approved Science options
6 in Arts options

Year 4

NEURO 450
NEURO 451 or 452 and 12 chosen from following list or NEURO 451 and 452 and 9 chosen from following list:
9 or 12 (see above) chosen from CEOL 415; NEURO 410, 443, 472; PMCOL 407, 412, 509, 512; PHYS 444, 527; PSYCI 511; PSYCHO 478
9 in approved Science options (PHYS 401 and 402 recommended)
3 in an Arts option

Notes

(1) Each student’s program must include:
   a. a minimum of 18 in Arts courses;
   b. a minimum of 90 in Science courses;
   c. no more than 12 in non-Science, non-Arts courses
   d. no more than 92 at the junior level

(2) Courses in Faculties outside of the Faculties of Arts and Science require prior approval by the Centre for Neuroscience and these courses cannot be credited as Arts or Science options.

(3) Each student’s program must have the approval of the Centre for Neuroscience.

(4) Approved Science options may be chosen only from the following: BIOCH 410, 430; BIOL 315, 380, 420; CELL 300, 301, 401, 402, 445; CHEM 211, 271, 273, 331, 332; CMPUT 114, 115, 201, 204, 229, 239, 366; EAS 100, 105, 201, 207, 209, 230; ENT 321; GENET 270, 275, 301, 302, 304, 390; GEOPH 221; IMIN 334, 371, 462;

MATH 214; MIRC 265, 311; PMCOL 201, 305, 342, 409, 415; PHYS 208, 211, 212, 213, 239, 281; PSYCO 401, 402, 403, 404; PSYCHO 267, 281, 354, 356, 371, 362, 381, 385, 458, 482; STAT 221, 222, 225, 237, ZOOL 343, 344, 370, 442.

(5) Suggested Arts options include the following: ANTHR 230, 332; CLASS 110, 252; C LIT 342; HIST 391, 396, 397, 399; PHIL 205, 217, 285, 317, 366, 375, 386; PSYCO 105, 212, 233, 256, 301, 302, 339, 350, 357; WRITE 298.

(6) Approved non-Science/Non-Arts options must be chosen from the following: ANAT 200, 301, 401; INT D 208; RÉHAB 454.

(7) In the fourth year, all students must successfully complete an individual study program with members of the Centre for Neuroscience. This program consists of a reading course, NEURO 450, and a laboratory course, NEURO 451/452. Students must consult the Centre for Neuroscience before the beginning of their fourth year to arrange an individual study program.

193.14 Northern Studies

Students interested in Canada’s North and especially those planning a career in northern Canada should include within their curriculum some of the following: ANTH 246, 340, 355, 445, and 446; BIOL 366; CANST 302 and 408; EAS 453 and 455; ENCS 201; INT D 443; POL S 432. These courses may be taken within the framework of existing General, Specialization, or Honors programs in the Faculty of Science. Students interested in Northern Studies should mention this to their faculty advisor.

193.15 Paleontology

Paleontology is a basic science concerned with the evolutionary history of life. Students are required to have a broad knowledge base of biological and geological knowledge. Areas of detailed knowledge will include vertebrate and invertebrate paleobiology, paleobotany, evolutionary biology, systematics, functional morphology, sedimentology, stratigraphy, and plate tectonics. Paleontologists usually hold advanced research degrees and work as research scientists and teachers in universities, museums, and industrial laboratories.

193.15.1 Honors in Paleontology

The Honors program is administered by the Departments of Earth and Atmospheric Sciences and Biological Sciences. The curriculum is drawn from both departments enabling students to develop a broad knowledge base that will prepare them for later entry into more specialized postgraduate studies in their selected paleontological discipline. Interested students should consult with an Honors program advisor to prepare their programs.

The Honors Paleontology program follows the Faculty of Science rules and regulations governing standards of admission, continuation and graduation (see $193.1.1).

Year 1

BIOL 107 and 108
CHEM 101 or 102
EAS 100, 105 and 110
6 Junior English
MATH 113 or 114
STAT 151

Year 2

ANTHR 209
BIOL 207 and 208
BOT 210
EAS 222, 230, 233 and 234
ZOOL 226

Year 3

BIOL 321 and 335
EAS 330 and 336
PALEO 414 or BOT 411
ZOOL 224 and 250
6 approved Arts options

Year 4

ANTHR 380 and 391
BIOL 489 or EAS 426
PALEO 400, 418 and 419
PALEO 414 or BOT 411

6 approved Science options

Note: PALEO 414 is offered in alternate years but must be taken in Year 3 or 4. Approved Science options: BIOL 315, 361, 364; EAS 207, 250; ENT 220; ZOOL 405, 407, 408, 427. Approved Arts options: ANTHR 391; CHRTC 350, 451; PHIL 265, 317. For information regarding additional approved options, please consult your Department advisor.
193.16 Pharmacology

193.16.1 Honors in Pharmacology

The program leading to an Honors degree in Pharmacology prepares students for advanced study leading to academic or research careers. Continuation and graduation from the Honors Pharmacology program requires a minimum GPA of 3.3 on at least 30 credits in all pharmacology courses taken, in addition to a minimum GPA of at least 3.7 in the Department of Pharmacology, unless all prerequisites have been met.

Required Science options: BIOCH 310, 410, 420, 430, 441, 450, CHEM 313, 419, GENET 270, 301, 304, 390, 408, MATH 113, or 114 and 115, PHYSL 372, 401, 402, 403, 404, PMCOL 371, STAT 252.

193.16.2 Specialization in Pharmacology

The program leading to a Specialization degree in Pharmacology is for students who want to pursue further studies in the health sciences and those who want to prepare for a career in the Pharmaceutical industry. Although not as rigorous as an Honors program, the Specialization program is a solid background for advanced study leading to a career in academia or research.

Continuation and graduation from the Specialization program in Pharmacology require a minimum GPA of 2.7 in the preceding Fall/Winter. In addition, a GPA of at least 2.7 is required in all Science courses taken and a minimum GPA of 2.7 is required in all courses in the Department of Pharmacology.

Year 1
- BIOCH 290
- CHEM 101, 102, 103, 104
- ENGL 101
- PHYSL 210 or 211
- PMCOL 201
- STAT 140

Year 2
- BIOCH 320, 330
- CHEM 211, 213
- PHYSL 210 or 211
- PMCOL 201
- STAT 141

Year 3
- CHEM 301, 302, 303, 304, 344
- ENGL recommended
- STAT 142

Year 4
- CHEM 345, 346, 347
- ENGL recommended
- STAT 143

Note: Students must consult the Chair of the Department or designee for approval of options.

Recommended Science options: BIOCH 310, 410, 420, 430, 441, 450, CHEM 313, 419, GENET 270, 301, 304, 390, 408, MATH 113, or 114 and 115, PHYSL 372, 401, 402, 403, 404, PMCOL 371, STAT 252.

193.16.3 Industrial Internship Program

An Industrial Internship Program, similar to a co-op program, is offered to students in the Specialization or Honors programs in Pharmacology (see §193.1.9 for guidelines to the program). The Industrial Internship designation will appear on the degree parchments of students who have participated in the program.

Students approved to enter this stream register for a continuous sequence of at least two work experience (WKEXP) courses 990, 991 and 992, starting in Fall/Winter. To graduate in four years, a student needs to complete 30 credits per year. Students who extend their programs beyond five years must first obtain the written approval of the Faculty of Science and the Department of Earth and Atmospheric Sciences. Graduation requires a GPA of at least 2.3 on the last 60 credits. A student enrolling in the Specialization program should consult the Pharmacology program student advisor before registration each year.

Year 1
- BIOCH 290
- CHEM 101, 102, 103, 104
- ENGL 101
- PHYSL 210 or 211
- PMCOL 201
- STAT 140

Year 2
- BIOCH 320, 330
- CHEM 211, 213
- PHYSL 210 or 211
- PMCOL 201
- STAT 141

Year 3
- CHEM 301, 302, 303, 304, 344
- ENGL recommended
- STAT 142

Year 4
- CHEM 345, 346, 347
- ENGL recommended
- STAT 143

Note: Students must consult the Chair of the Department or designee for approval of options.

Recommended Science options: BIOCH 310, 410, 420, 430, 441, 450, CHEM 313, 419, GENET 270, 301, 304, 390, 408, MATH 113, or 114 and 115, PHYSL 372, 401, 402, 403, 404, PMCOL 371, STAT 252.

Note: Students must consult the Chair of the Department or designee for approval of options.
193.17 Physics

The Honors Programs offered by the Department of Physics provide a comprehensive education for students planning advanced degrees and a research or academic career.

Continuation in the Honors Physics, including the Applied Physics, Astrophysics, Computational Science (Physics), Geophysics and Mathematical Physics, programs requires a GPA of 3.0 on at least 24 in the preceding Fall/Winter. Graduation requires a GPA of 3.0 on the last 90 credited to the degree.

The Specialization programs provide greater flexibility for students who want a four-year degree in Physics or Geophysics without the full comprehensive training of the Honors Programs. Continuation in the Specialization program in Astrophysics, Computational Science (Physics) and Geophysics requires a GPA of at least 2.3 in the preceding Fall/Winter. Graduation requires a GPA of 2.3 on the last 90 credited to the degree.

Notes
1. Students interested in the Engineering-Physics program should consult §22.6 of the Faculty of Engineering section.
2. By the end of their programs, students must take 18 of Arts options.
3. Honors and Specialization Physics students must consult an advisor in the Department of Physics regarding their programs. Note to second-, third- and fourth-year students: Not all 200-, 300- and 400-level Physics and Geophysics courses are offered every year.

193.17.1 Honors in Physics

Notes
1. By the end of their programs, students must have taken 18 of Arts options.
2. Students must take 21 from Pools A and B, in addition to the specific PHYS courses listed as requirements.
3. Students wishing to qualify for an Honors degree must take a minimum of 12 from Pool A, in addition to the specific courses listed as requirements.

Pool A:
- PHYS 362, 395; MA PH 343; all 400-level ASTRO, PHYS and MA PH courses.

Pool B:
- BME 513, 564; all 300- and 400-level ASTRO, PHYS, MA PH, and GEOPH courses, unless otherwise indicated in the course descriptions, plus all 400-level MATH courses. With consent of the Department, other courses may be taken for credit.

Year 1
- MATH 113 (or 114 or 117), 115 (or 118), 120 (or 125), 225
- PHYS 144, 146
- 6 in Science options (suggested options are in Astronomy, Chemistry, or Earth and Atmospheric Sciences)
- 6 in Arts options (English recommended) (see Note 1 above)

Year 2
- MATH 214 (or 217), 215 (or 317)
- PHYS 211, 234, 244, 271, 281, 295, 297
- 3 in an Art option (see Note 1 above)

Year 3
- MATH 311 (or 411), 334, 337
- PHYS 311, 351, 372, 381, 397
- 6 in Arts options (see Note 1)

Year 4
- PHYS 472, 481
- 12 in Pool A options (see Notes 2 and 3)
- 9 in Pool A or B options (see Note 2)
- 3 in Arts option (see Note 1)

In Year 4, students are also expected to take part in the weekly Physics Colloquium.

193.17.2 Honors in Applied Physics

Notes
1. In this program, there are three possible concentrations in the selection of courses for Year 4, after completion of Years 1, 2 and 3. Students must choose one of these concentrations. The three concentrations are in the following areas:
   a. Concentration in Photonics and Condensed Matter Physics
   b. Concentration in Plasma Science
   c. Concentration in Medical Physics

2. AP Pool options: BME 513, 564; E E 474, 573; GEOPH 426; PHYS 351; all 300- and 400-level ASTRO, GEOPH and MA PH courses; all 400-level PHYS courses

3. MedPhys Pool options: BME 513, 564; ONCOL 550, 552, 562, 564, 568; PHYS 415, 461, 484

Year 1
- CHEM 101, 102
- MATH 113 (or 114 or 117), 115 (or 118), 120 (or 125), 225
- PHYS 144, 146
- 6 in Arts options

Year 2
- MATH 214, 215
- PHYS 211, 234, 244, 271, 281, 295, 297
- 3 in an Arts option

Year 3
- MATH 311, 334, 337
- PHYS 311, 351, 372, 381, 395, 397
- 3 in an Arts option

Year 4 - Concentration in Photonics and Condensed Matter Physics
- PHYS 451, 461, 472, 481, 499
- 9 in AP Pool options (see Note 2)
- 6 in Arts options

Year 4 - Concentration in Plasma Science
- E E 474
- ASTRO 429
- PHYS 420, 472, 481, 499
- 6 in AP Pool options
- 6 in Arts options

Year 4 - Concentration in Medical Physics
- PHYS 420, 472, 481, 499
- One of ONCOL 550 or 562
- 9 from MedPhys pool options (see Note 3)
- 6 in Arts options

193.17.3 Honors in Astrophysics

Notes
1. Students must take a total of 18 in Arts options.
2. AS Pool: MA PH 343; PHYS 362, 395, 397; 300-level GEOPH courses; all 400-level ASTRO, PHYS, MA PH, and GEOPH courses.

Year 1
- MATH 113 (or 114 or 117), 115 (or 118), 120 (or 125), 225
- PHYS 144, 146
- 6 in Science options (suggested options are in ASTRO or CHEM)
- 6 in Arts options

Year 2
- PHYS 210
- MATH 214 (or 217), 215 (or 317)
- PHYS 211, 234, 244, 271, 281, 295, 297

Year 3
- PHYS 311, 334, 337
- MA PH 343
- 6 in Arts options

Year 4
- 6 from PHYS 429, 430, 465
- PHYS 472, 481
- 9 in AS Pool options
- 9 in Arts options

193.17.4 Honors in Computational Science (Physics)

Notes
1. CP Pool: PHYS 297; all 300- and 400-level ASTRO, GEOPH, MA PH and PHYS courses.
2. The CMPUT 201 corequisite of CMPUT 272 would be waived for this program.

Year 1
- CMPUT 114, 115
- MATH 113 (or 114 or 117), 115 (or 118), 120 (or 125), 225
- PHYS 144, 146
- 6 in Arts options

Year 2
- CMPUT 201
- MATH 214 (or 217), 215 (or 317)
- PHYS 211, 234, 244, 271, 281
- 6 in Arts options

Year 3
- CMPUT 272
- MATH 381 (or CMPUT 340)
- MATH 311, 334, 337
- PHYS 295, 311, 372, 381
- 3 in an Arts option
193.17.5 Honors in Geophysics

Notes
(1) In addition to the specific courses required in the program, students must take a minimum of 13 in Geophysics Honors Pool courses, 12 in approved Science options, and 12 in Arts options.
(2) Honors Pool: ASTRO 429, CMPUT 340; EAS 321; GEOPH 210, 332, 431, 437, 440; PET E 305; PHYS 372, 498. Not all 300-level and 400-level courses are offered every year. Students must consult the Department of Physics for approval of third- and fourth-year programs.

Year 1
CHEM 101, 102
GEOPH 110
MATH 113 (or 114 or 117), 115 (or 118), 120 (or 125 for more theoretically inclined students)
PHYS 114, 116
★6 in Arts options (English recommended)

Year 2
EAS 210
EAS 233
MATH 214 or 217, 215 (or 317)
PHYS 234, 244, 271, 281, 295
★3 in Arts options (see Note 1 above)

Year 3
EAS 222
GEOPH 325, 326
MATH 311 (or 411), 334, 337
PHYS 381
★9 in approved Science options or Honors Pool courses (see Notes 1 and 2 above; GEOPH 210 recommended)

Year 4
GEOPH 421, 424, 426, 438
MA PH 467
PHYS 211 (or 224), 481
★6 in approved Science options or Honors Pool courses (GEOPH 440 recommended, see Notes 1 and 2 above)
★3 in Arts option (see Note 1 above)

193.17.6 Honors in Mathematical Physics

Year 1
MATH 117, 118, 125, 225
PHYS 114, 116
★6 in Science options (★3 in Computing Science recommended)
★6 in Arts options (English recommended)

Year 2
MATH 217, 231
MATH 334
PHYS 211, 234, 244, 271, 281, 295
★3 in Arts option

Year 3
MATH 311 (or 411), 337
MA PH 343
PHYS 311, 352, 372, 381
★6 in approved Science options
★3 in Arts option

Year 4
MATH 417
MA PH 451
PHYS 472, 481
★6 in 400-level ASTRO, GEOPH, MATH, MA PH, or PHYS courses
★6 in approved Science options
★6 in Arts options

193.17.7 Specialization in Physics

Notes
(1) By the end of their programs, students must have taken 18 of Arts options.
(2) Students must take 27 from Pools A and B in addition to the specific PHYS courses listed as requirements.

193.17.8 Specialization in Astrophysics

Notes
(1) Students must take a total of 18 in Arts options.
(2) AS Pool: MA PH 343; PHYS 362, 395, 397; 300-level GEOPH courses; all 400-level ASTRO, PHYS, MA PH, and GEOPH courses. Other options may be discussed with the Department advisor.

Year 1
MATH 113 (or 114 or 117), 115 (or 118), 120 (or 125 for more theoretically inclined students)
PHYS 144, 146
★6 in Science options (suggested options are in ASTRO or CHEM)
★6 in Arts options

Year 2
ASTRO 320
MATH 214 or 217, 215 (or 317)
PHYS 211, 234, 244, 271, 281, 295, 297
★3 in Arts option (see Note 1 above)

Year 3
ASTRO 322
MATH 311, 334, 337
PHYS 311, 352, 372, 381
★6 Arts option

Year 4
★6 from ASTRO 429, 430, 465
★18 in AS Pool options
★6 in Arts options

193.17.9 Specialization in Computational Science (Physics)

Notes
(1) CP Pool: PHYS 297; all 300- and 400-level ASTRO, GEOPH, MA PH and PHYS courses.
(2) CMPUT options: CMPUT 204, 272, 291, 301, and 306.
(3) The CMPUT 306 prerequisites of STAT 221/222 may be waived in lieu of PHYS 224 and 295.
(4) The CMPUT 201 corequisite of CMPUT 272 would be waived for this program.
(5) Students should be aware that there may be extra prerequisites for some of the Computing Science option courses, so the specified list of CMPUT options (Note 2) may be more restricted.

Year 1
CMPUT 114, 115
MATH 113 (or 114 or 117), 115 (or 118), 120 (or 125), 225
PHYS 144, 146
★6 in Arts options
Year 2
CMPUT 201
MATH 214 (or 217), 215 (or 317)
PHYS 211, 234, 244, 271, 281
★6 in Arts option

Year 3
★3 in a CMPUT option (see Notes 2 and 3)
MATH 381 (or CMPUT 340)
MATH 311, 334, 337
PHYS 295, 311, 372, 381
★3 in an Arts option

Year 4
CMPUT 229
PHYS 420
★3 in a CMPUT option (see Notes 2, 3, and 4)
★6 in CP Pool options (see Note 1)
★3 in a CMPUT option or CP Pool option (see Notes 1, 2, 3, and 4)
★9 in approved Science options
★3 in an Arts option

193.17.10 Specialization in Geophysics

Notes:
(1) In addition to the specific courses listed in the program, students must take a minimum of ★3 from Geophysics Specialization Pool courses, ★12 in approved Science options, and ★12 in Arts options.
(2) Specialization Pool: ASTRO 428, CMPUT 340; GEOPH 210, 332, 421, 431, 440; MA PH 467; PET E 365; PHYS 372, 499. Not all 300-level and 400-level courses are offered every year. Students must consult the Department of Physics for approval of third- and fourth-year programs.

Year 1
CHEM 101, 102
GEOPH 110
MATH 113 (or 114 or 117), 115 (or 118), 120 (or 125 for more theoretically inclined students)
PHYS 144, 146
★6 in Arts options (English recommended)

Year 2
EAS 210
EAS 233
MATH 214 (or 217), 215 (or 317)
PHYS 234A, 244, 271, 281, 295
★3 in an Arts option (see Note 1 above)

Year 3
EAS 222 and 321
GEOPH 325, 326
MATH 311 (or 411), 334, (or 336), 337 (or 300)
PHYS 381
★6 in approved Science options or Specialization Pool courses (see Notes 1 and 2 above; GEOPH 210 recommended)

Year 4
GEOPH 424, 426, 437, 438
PHYS 211 (or 224)
★12 in approved Science options or Specialization Pool courses (see Notes 1 and 2 above)
★3 in Arts options (see Note 1 above)

193.17.11 Industrial Internship Program

An Industrial Internship Program, similar to a co-op program, is offered to students in the Specialization or Honors program in Physics (see 193.1.9 for guidelines to the program). The Industrial Internship designation will appear on the degree parchments of students who have participated in the program.

Students approved to enter this stream register for a continuous sequence of at least two work experience (WKEXP) courses 421 and 422, starting in May, September or January. During the program, student are considered full-time students of the University. Work experience courses have no weight and are graded credit/no credit, and recorded on the student’s transcript. The Industrial Internship Program Advisor maintains contact at approximately three-month intervals with the student and the person designated by the employer to be responsible for the student’s progress. This arrangement ensures satisfaction on all sides. If the review shows the situation is not satisfactory, the internship may be terminated and the student may then return to classes at the next available opportunity. The graduation requirements for the Industrial Internship program designation include successful completion of at least WKEXP 421 and 422 plus PHYS 400. PHYS 400 must be taken in the first term immediately following completion of the WKEXP period. If required by the employer, the student’s written report and oral presentation in PHYS 400 may be classified confidential.

The employer also assesses the student’s performance during the work term. Based on the student’s written report and oral presentation, and the report from the employer, students are awarded a grade in PHYS 400.

Interested students should see the Industrial Internship Advisor in the Department of Physics for more information.

193.17.12 Concentration in Physics

Students considering Physics as their major subject of concentration in the four-year General BSc program should include PHYS 124/126 or 144/146, and 208 and 224 as early as possible in their program. To complete a major in Physics, PHYS 294 is strongly recommended. Students majoring in Physics normally should select from ASTRO 320, 322; PHYS 301, 308, and 394. They should also consult the Physics Department about course offerings, as not all 200- and 300-level PHYS courses are offered each year. Students wishing to combine a major in Physics with a minor in Arts or Business should consult a Faculty of Science advisor (§193.1.3 and 193.1.5).

193.18 Physiology

193.18.1 Honors in Physiology

Honors in Physiology is offered by the Department of Physiology in the Faculty of Medicine and Dentistry.

The Honors program is designed primarily to prepare students for advanced study leading to academic and research careers. A choice of courses is available for students with interest in particular branches of the life sciences.

Entry into the Honors Program from high school requires a minimum matriculation average of 80% with Biology 30, Chemistry 30, Physics 30, as prerequisites. Continuation in the program requires a GPA of 3.3 on at least ★30 in the previous Fall/Winter term. In addition, students in the second year of the program must obtain a grade of at least B in PHYSL 211 in order to continue in the program. Students who are eligible to enter the program in their third year and have credit in PHYSL 210 require a grade of at least B+ in PHYSL 210. Graduation requires a GPA of 3.3 in the final year. Students must consult their advisor in the Department prior to registration in each year of the program.

The course requirements for the program are as follows:

Year 1
BIOI 107, 108
CHEM 101 and 102, 164 or 261 and 263
★6 junior English
★6 in approved Science or Arts options (see Note 1)

Year 2
BIOCH 200 and one of 310, 320 or 330
BIOI 201, 207
PHYS 124, 126
PHYSL 211
★6 in approved Science or Arts options (see Note 1)

Year 3
CELL 300
PMCOL 343 and 344, 371
PHYSL 372, 401, 403
STAT 141 or 151
★6 in approved Science or Arts options (see Note 1)

Year 4
PHYSL 402, 404, 465, 466
★12 from CELL 445; NEURO 443; PHYSL 444, 501, 512, 513, 527, 544, 545; PMCOL 415, 515 or another 400- or 500-level Science course with Department approval
★6 in approved options (see Note 1)

Notes:
(1) The program must consist of a minimum of ★90 in Science, a minimum of ★18 in Arts, and no more than ★12 in non-Arts/non-Science options or ★42 at the junior level.
(2) Science options may be chosen from the following: Junior Courses: CMPUT 114; MATH 113 or 114, 115, 119, 120 or 125; PSYCO 104. Advanced Courses: BIOCH 420, 430, 441, 450, 455, 460; BIOI 315; CELL 300; CHEM 211, 213, 361; GENET 270, 275, 301, 302, 304, 375, 389, 418; IMIN 200, 324, 371, 452; MATH 214, 215; MIRC 265; MIM 351, 520; PMCOL 305, 403, 407, 412, 415, 505, 508, 510; PSYCO 275, 281, 371, 377, 381, 459, 478; STAT 252, 368; ZOOL 225, 303, 340, 342, 343, 402. Note: Non-Science/non-Arts options must be chosen from the following: ANAT 200; AN SC 310, 311, 410, 484; BME 513; NUTR 301, 302; OCCTH 206; PDS 412. (3) Suggested Arts options include the following: GHRT 352; CLASS 294, 310; LING 321, 323, 499; PHIL 101, 250, 265, 415, 417; POL S 101; PSYCO 105, 223, 258; SOC 100, 241, 300, 382, 462, 473; WRIT 298. (4) Other options may be acceptable with written permission of an advisor. (5) MATH 113 or 114 is a recommended option. (6) Honors students are also encouraged to attend all department seminars. (7) Honors students in the second year of the program are required to take PHYSL 211
193.19 Psychology

193.19.1 Honors in Psychology

The Department offers courses leading to the degrees of BSc and BA with Honors in Psychology. Students wishing to emphasize the physical, biological, and mathematical sciences should enrol in the BSc program; those wishing to emphasize the humanities and social sciences should enrol in the BA program. Either program is appropriate for students considering postgraduate training in psychology or in other fields that require these research skills.

Admission into the Honors program is permitted only at the end of the second year (after completion of 180). Final acceptance into the Honors program is dependent upon obtaining approval from a potential research supervisor prior to August 7.

Continuation in and graduation from the Honors Psychology program require a minimum GPA of 3.3 in the preceding Fall/Winter. Students are expected to take at least 30 during the Fall/Winter of each year of study, including the first and second years. Exceptions to this requirement must be approved by both the Department of Psychology and the Faculty of Science. A minimum of 48 (but no more than 60) must be taken in Psychology. A minimum of 72 in science courses must be taken. A student’s program of courses must be approved in advance each year by the Honors Psychology advisor.

Note: The required courses noted in Year 1 and Year 2 below must be taken during the first two years of study.

Year 1

BIOL 107, 108
On of ENGL 111, 112, 113, 114
PSYCO 104, 105
★6 from CMPUT 101, 114, 115, MATH 113, 114, 115, 117, 118, 120, 125, STAT 252 or other Computing Science, Mathematics or Statistics course approved by the Honors Advisor. (Note: STAT 141 or 151, a requirement in Year 2, is a prerequisite to STAT 252).
★6 in approved Science options

Year 2

STAT 141 or 151 and PSYCO 212
★6 (two of) from PSYCO 223, 233, 241, 258
★6 (two of) from PSYCO 267, 275, 281
★6 from approved courses offered by the Department of Anthropology, Economics, Linguistics, Political Science and/or Sociology
★6 in approved Science options

Year 3

PSYCO 309, 390 and PSYCO 303 or 304
★3 (one of) PSYCO 356, 410, 411, 413, 431, 475, 476, 482, or other advanced research methods course approved by the Honors Advisor
★9-12 in approved Science options
★6-9 in approved options

Year 4

PSYCO 408, 499
★9 (two of) in a 400-level Psychology course other than 409, 410, 411, 413, 431, 475, 476, 482, 498, 499, 497, 498, except as approved by the Honors Advisor
★9-15 in approved Science options
★3-9 in approved options

Notes:

(1) In addition to the courses specifically listed above, the program must include, among the student’s optional courses, a minimum of 12 in one or more disciplines relevant to Psychology, e.g., ANTHR, BIOL, CHEM, CMPUT, ECON, GENET, LING, MATH, NEURO, PHI, PHYS, PHYSYL, PMCOL, POL S, SOC, STAT, ZOOL. These courses may not overlap those used to fulfill the Computing/Mathematics/Statistics, Natural Science and Social Science requirements listed above.

(2) Under the supervision of a faculty member in the Department of Psychology, students undertake a year-long research apprenticeship (PSYCO 390) during the third year and conduct and write an empirical thesis (PSYCO 490) during the fourth year. Third-year students present their thesis research proposals, and fourth-year students present the results of their thesis research at the annual Honors Psychology Conference in April.

193.19.2 Specialization in Psychology

Continuation in the Specialization in Psychology program requires a minimum GPA of 2.3 in the preceding Fall/Winter. Graduation requires a minimum GPA of 2.3 on all courses credited to the degree.

Year 1

BIOL 107/108
PSYCO 104, 105
★6 in a English course (ENGL 101 is recommended)
★6 from junior courses offered in the departments of Computing Science and Mathematics
★6 from junior courses offered in the departments of Chemistry and Physics

Year 2

STAT 141 OR 151
★3 from PSYCO 258, 266 or 267, 275, 281
★3 in an approved Arts option
★6 in approved Science options
★9 in approved options

Year 3

★6 in approved Arts options
a. for students meeting Year 2 requirements by taking PSYCO 258:
★15 in approved Science options
★9 in approved options or
b. for students meeting Year 2 requirements by taking PSYCO 267, 275 and 281:
★12 in approved Science options
★12 in approved options

Year 4

★21 in approved Science options
★6 in approved options
To fulfill the degree requirements, students must complete a minimum of 36 in Science Psychology courses, or PSYCO 258 and a minimum of 33 in Science Psychology courses. At least 12 must be in Science Psychology courses at the 300-level or above. Students may take a maximum of 48 from PSYCO courses listed in the Arts and Science Course Listing sections.

193.19.3 Industrial Internship Program

An Industrial Internship Program, similar to a co-op program, is offered to students in the Specialization or Honors programs in Psychology (see 193.1.9 for guidelines to the program). The Industrial Internship designation will appear on the degree parchments of students who have participated in the program.

Students who have completed PSYCO 212 (or equivalent) and the third year of their program and who are approved to enter this stream register for a continuous sequence of at least two work experience (WKEXP) courses 931 and 932, starting in May or September. If required by the employer, the student’s written report and oral presentation in PSYCO 410 may be classified confidential. The employer also assesses the student’s performance during the work term. Based on the student’s written report and oral presentation, and the report from the employer, students are awarded a grade in PSYCO 410.

Interested students should see the Industrial Internship Advisor in the Department of Psychology for more information.

193.20 Statistics

193.20.1 Honors in Statistics

Continuation in the Honors in Statistics program requires a GPA of 3.0 on at least 24 in the preceding Fall/Winter.

Graduation requires a GPA of 3.3 on all Statistics and Mathematics courses taken and a GPA of 2.7 on the last 30 credited to the degree.

The program must contain the following courses, which should be taken in the years indicated:

Year 1

CMPUT 101 and 114, or 114 and 115
MATH 129
MATH 114 (or 117), 115 (or 118)
STAT 151
★6 in approved Arts options
★6 in approved options

Year 2

MATH 214 (or 217), 215 (or 317), 225
STAT 255
★6 in approved Arts options
★5 in approved Science options
★3 in an approved option
### 193.20.2 Specialization in Statistics

The Specialization program in Statistics is for students interested in applying Statistics to a second discipline. Students in this program must choose one distinct field of application. Recommended fields of application are Agriculture, Chemical Engineering, Computing Science, Economics, Engineering, Pharmacology, Political Science, Psychology, and Sociology. Students should consult the Department of Mathematical and Statistical Sciences for further information.

**Honors in Mathematics**

See §193.12.1 for details.

### 193.21 Preprofessional Programs

#### 193.21.1 Preprofessional Requirements for Medicine and Dentistry

For admission requirements for the DDS Degree program and the MD Degree program, see §§15.9.7 and 15.9.9, respectively. Students planning to apply for admission to one of these degree programs may take the required courses while registered in a degree program in Science. See §15.16.8 for Grade 12 requirements for the preprofessional program.

#### 193.21.2 Preprofessional Requirements for Veterinary Medicine

See §§15.16 and 34A.7. Students may take the required courses while registered in a BSc General program or one of the BSc Specialization or BSc Honors programs. Students should consult the Faculty Office regarding appropriate courses.

#### 193.21.3 Preprofessional Requirements for Rehabilitation Medicine

See §§15.14 and 15.16. Students may take the required courses while registered in a BSc General program or one of the BSc Specialization or BSc Honors programs.

#### 193.21.4 Preprofessional Requirements for Optometry

Information about admission requirements for the Doctor of Optometry program may be obtained from the School of Optometry, University of Waterloo (519) 885-1211 or (519) 888-4567 (automated attendant) or from their website: www.optometry.uwaterloo.ca.

#### 193.21.5 Preprofessional Requirements for Medical Laboratory Science

Admission requirements for the BSc Medical Laboratory Science program are given in §15.9.2. Students planning to apply for admission to Medical Laboratory Science may take the required courses while registered in the Faculty of Science.

### 194 Details of Courses

#### 194.1 Course Listings

Science courses can be found in §231, Course Listings, under the following subject headings:

- Astronomy (ASTRO)
- Biochemistry (taught by the Faculty of Medicine and Dentistry) (BIOCH)
Biochimie (BIOCM) (Faculté Saint-Jean)
Biological Science - Biology (BIOL)
Biological Science - Botany (BOT)
Biological Science - Entomology (ENT)
Biological Science - Genetics (GENET)
Biological Science - Microbiology (MICRB)
Biological Science - Zoology (ZOOL)
Biologie (BIOLE) (Faculté Saint-Jean)
Cell Biology (CELL)
Chemistry (CHEM)
Chimie (CHIM) (Faculté Saint-Jean)
Computing Science (CMPUT)
Earth and Atmospheric Sciences (formerly Geography and Geology (EAS)
Environmental Physical Sciences (ENVPS)
Geophysics (GEOPH)
Immunology and Infection (IMIN)
Interdisciplinary Studies (INT D)
Laboratory Animal Management (LB AN)
Marine Science (MA SC)
Mathematics (MA PH)
Mathematics (MATH)

194.2 Prerequisites

Where a prerequisite is stated in a course description, it is understood that equivalent courses may satisfy the requirement. Also, the department offering a course with prerequisite requirements may waive the prerequisite in writing. (Prerequisite waiver forms are available from the Faculty of Science office and the Department offices.)

194.3 Biochemistry Courses

The following courses can be used by students in the Faculty of Science as science courses: BIOCH 200, 310, 320, 330, 401, 420, 430, 441, 450, 455, and 460.

194.4 Computing Science Courses

Introductory
The following courses are considered introductory: CMPUT 101, 114, 115. Specific course details are in Course Listings (§231).

Specialization and Honors
All other courses, except those noted above, are restricted to students registered in various Specialization and Honors programs in the Faculty of Science, in the Computer Engineering program, and Computer Process Control Option in the Chemical Engineering program. Some senior Computing courses are available to students with a Computing Science minor in the BSc General program and to other students, subject to space availability. See Course Listings (§231) for detailed descriptions.

194.5 Food Science Courses

NU FS 363 may be used by students in the Faculty of Science as a science course in Microbiology.

194.6 Medical Microbiology Courses

The following courses may be used by students in the Faculty of Science as science courses MMI 351, 352. MMI 499 may be used by students in the Immunology and Infection program as a science course.

194.7 Pharmacology Courses

The following courses may be used by students in the Faculty of Science as science courses: PMCOL 201, 202, 303, 305, 357, 343, 344, 371, 400, 401, 402, 407, 412, 415, 416, 424, 425, 442 and 498.

194.8 Physiology Courses

The following may be used by students in the Faculty of Science as science courses: PHYSL 210, 211, 372, 401, 402, 403, 404, 444, 465 and 466. Senior undergraduate students may use certain 500-level courses with the permission of the department advisor.

194.9 Graduate Courses

Courses numbered 500 and up are restricted to graduate students and normally may not be taken for credit by undergraduate science students.
