192 Faculty Regulations

192.1 Faculty Overview

A Business Minor, an Arts Minor and an Agricultural, Life and Environmental Sciences minor are available in the BSc General program.

An Industrial Internship option is available in BSc Honors and Specialization programs. Students enrolled in the Honors or Specialization program have an opportunity to enhance their studies with an Industrial Internship. The Faculty of Science offers an Industrial Internship Program designed to provide the honors and specialization students a relevant industrial experience. Students must complete an 8-, 12- or 16-month work experience term at the end of their third year to receive Industrial Internship designation on their degree certificate. For more details, please see individual departmental listings.

192.2 Degrees

The Faculty offers three programs leading to the Bachelor of Science (BSc) degree: Honors, Specialization, and General.

The Faculty also offers a Bachelor of Science with Specialization in Science Education which is part of a five year BSc/BEd combined degrees program.

The four-year Honors programs are primarily for students who seek careers in scientific research. In addition, they prepare students for admission to graduate school, leading to a Master of Science (MSc) or a Doctor of Philosophy (PhD) degree.

The four-year Specialization programs do not concentrate on one subject to the same extent as the Honors programs. This allows students to choose from a broader range of courses and to take a greater number of courses in a secondary area of interest. They can provide the background necessary for admission to graduate schools, in some cases, and permit attainment of professional status in others.

The four-year General program provides a general education with a scientific emphasis for students who seek careers in business, teaching, medicine, dentistry, etc.

In many cases, transfer from one degree program to another can be easily arranged to suit students’ changing ambitions, needs, or academic qualifications.

Regulations governing the Honors, Specialization, and General degree programs are found in §193, followed by descriptions of each degree program under the subject headings in §194.

192.3 Admission

General admission requirements for the University are set out in §§13 and 14. Specific admission information for the Faculty of Science is detailed in §15.15.

192.4 Definitions

The following terms, definitions, and abbreviations are used throughout this section of the Calendar. Also see the Calendar’s Glossary.

Approved Option

In the Faculty of Science section, the term “approved option” appears only within the description of Honors and Specialization programs. For students registered in an Honors or Specialization BSc program, an “approved option” is a course (from Arts, Science, or another Faculty) approved in writing by the department directing the student’s program.

General program students interested in taking courses from Faculties other than Arts or Science should see §192.6(1).

Arts Option

Those courses offered by the Faculty of Arts for which the student is eligible, Christian Theology courses and Native Studies courses listed in §231, Course Listings. Note: Students registered in the Faculty of Science may not take SOC 210, 315 for degree credit.

Courses Attempted

Refers to university or university transfer courses completed with a final grade and excludes courses from which a student has withdrawn with permission.

Courses Successfully Completed

Refers to university with a final grade of D or higher.

Course Weight

A unit of course weight indicates the instructional credit assigned to a course and is designated by the ★ symbol after the course number and name. Units of course weight form a part of the degree requirements and are also used to calculate a student’s Grade Point Average (GPA).

Fall/Winter

The instructional period of September to April.

Two-term Course

A two-term course is a single course with ★6.

Term

The instructional periods from September to December (Fall) and January to April (Winter). In Spring/Summer, the instructional periods of May/June (Spring) and July/August (Summer).

Single-term Course

A single-term course is a single course with ★3.

Junior Courses

Those courses numbered 199 or lower.

Normal Course Load

A normal, full academic course load is ★30 during Fall/Winter.

Option

The term “option” where it appears in programs means a course chosen by the student from offerings by the Faculties of Arts or Science if the necessary prerequisites have been met.

Science Option

Those courses offered by the Faculty of Science for which the student is eligible. Note: Not all courses offered by the Faculty of Science are available to students registered in the Faculty of Science.

Spring/Summer

The instructional periods of May/June (Spring Term) and July/August (Summer Term).

Year of Program

Year of program, as referred to throughout the Science section, is defined below. Students who are applying to, or continuing in, the Faculty of Science are considered to be in

a. Year 1 if they have successfully completed up to ★29 of their degree program;

b. Year 2 if they have successfully completed between ★30 and ★59 of their degree program;

c. Year 3 if they have successfully completed between ★60 and ★89 of their degree program;

d. Year 4 if they have successfully completed at least ★90 of their degree program.

192.5 Academic Standing

Academic standing is used to determine the eligibility of students to continue or graduate from their programs. The academic standing of all students in the Faculty of Science is assessed annually on the basis of the Grade Point Average (GPA) calculated on all coursework attempted in the Fall/Winter. Spring and Summer work is not included. The assessment of students in BSc Specialization and BSc Honors programs also takes into consideration the minimum course load requirements of the particular program, as well as any specific grade or GPA requirements.

For students in the BSc General program, the Faculty may defer the assessment of academic standing for one Fall/Winter for students who attempt less than ★9. In such cases, the academic standing assigned at the last assessment remains in effect until the conclusion of the next Fall/Winter.
(2) **Academic Standing Assessment**

a. **First Class Standing**, also referred to as the Dean’s Honor Roll, is assigned to students who successfully complete at least 24 and achieve a minimum 3.5 GPA. First class standing is also assigned to students who, as a result of participation in Education Abroad or IP Work Experience, attend only one term of a Fall/Winter and successfully complete at least 12 with a minimum 3.5 GPA.

b. **Satisfactory Standing** is assigned to students in the BSc General program who achieve a minimum GPA of 2.0. Satisfactory standing is assigned to students in BSc Specialization and BSc Honors programs who meet the minimum continuation requirements for their program, including Fall/Winter GPA, course load and any course specific grade or GPA requirements. (Refer to the specific sections covering each BSc Specialization and BSc Honors program in §193.2 to §194.18.)

   Students in satisfactory standing may continue in their programs.

c. **Marginal Standing** is assigned to students with a GPA between 1.7 and 1.9 on a minimum of 9 attempted. Students meeting these criteria who do not have in their postsecondary education a prior requirement to withdraw, an academic warning, a probation period or their equivalents may be permitted to continue on academic warning in the BSc General program. Students in BSc Honors and BSc Specialization programs who meet the criteria for marginal standing may not continue in their current programs, but must apply to transfer to the BSc General program in order to continue on academic warning.

   To clear academic warning and return to satisfactory standing, students must attend the subsequent Fall/Winter and must obtain a minimum 2.0 GPA. Students who fail academic warning are required to withdraw.

   Students who have been placed on academic warning and wish to interrupt their studies must obtain the written permission of the Senior Associate Dean prior to August 15 of the year in which marginal standing was assigned. Students who interrupt their studies without permission will need to requalify in order to be considered for future readmission (see §192.3.[b]).

   Academic warning may be offered once only. To remain in satisfactory standing students must maintain a minimum 2.0 GPA in all subsequent Fall/Winters. Students with a GPA below 2.0 and who have in their postsecondary education a prior requirement to withdraw, an academic warning, a probation period or their equivalents are required to withdraw.

   Academic warning is not offered to Special Students or to students in BSc Specialization and Honors After Degree programs who are upgrading a previous degree with a major in the same discipline. Students in these programs with marginal standing will be required to withdraw.

d. **Unsatisfactory Standing** is assigned to students whose GPA on a minimum of 9 is below 1.7. It is also assigned to students with a GPA below 2.0 who have in their postsecondary education a prior requirement to withdraw, an academic warning, a probation period or their equivalents. Students with unsatisfactory standing are required to withdraw.

(3) **Requirement to Withdraw and Readmission**

Students who are required to withdraw cannot continue or register in subsequent terms beyond Spring. If they wish to continue studies in the Faculty of Science, they must choose one of the following mutually exclusive options:

a. **Fresh Start Program**: is available by recommendation of the Faculty to students whose GPA is between 1.3 and 1.6 and have taken less than 60 of postsecondary work. Students who been on probation or have more than one requirement to withdraw or their equivalents, or who have been sanctioned for any academic-related disciplinary offence at this University or elsewhere are not eligible for the Fresh Start program. A minimum of 18 with a 2.7 GPA or a minimum of 24 with a 2.0 GPA must be successfully completed in the Fresh Start program to be considered for readmission to the Faculty of Science. The Faculty may also specify course requirements to be fulfilled. Students who successfully complete the Fresh Start program may apply for readmission as transfer students (see §15.15.7).

b. **Discontinue Studies and Apply for Fall Redmission**: Students in the Faculty of Science who are being required to withdraw for the first time in their academic record may elect to discontinue studies for a minimum period of one year and then apply for Fall readmission. Should any coursework be attempted at any institution during this period, the grades may be taken into consideration for readmission purposes, but transfer credit will not be granted.

   Students in the Faculty of Science who have failed probation or been twice required to withdraw or equivalent by Faculty of Science standards may discontinue their studies for a period of five years from the date of last attendance and seek consideration for Fall readmission by writing a letter of petition to the Senior Associate Dean. Readmission, if offered, will be on probation, subject to conditions specified by the Senior Associate Dean.

c. **Requalify**: Students who are being required to withdraw for the first time in their academic record may elect to requalify by successfully completing at another postsecondary institution:

   i. ★18 of postsecondary courses transferable to the University of Alberta with a minimum GPA of 2.7, or

   ii. ★24 of postsecondary courses transferable to the University of Alberta with a minimum GPA of 2.0.

   Students who have been required to withdraw three times or equivalent are ineligible for readmission to the Faculty of Science.

(4) **Probation** is granted to students who are required to withdraw and successfully appeal to or students who are reenrolled after studies were discontinued for academic reasons. Probation is completed in the BSc General program. When placed on probation, a student must fulfill specific conditions specified by the Senior Associate Dean at the time of readmission. To clear probation and return to satisfactory standing, students must normally successfully complete a minimum of 24 during the Fall/Winter, obtain a minimum 2.0 GPA, and successfully fulfill all other conditions of the probation. Students who fail to satisfy any of the conditions fail Probation, and are required to withdraw without the option of appeal. Students who fail a second period on probation are ineligible for readmission to the Faculty of Science.

192.5.1 **Scholarship, First-Class Standing**

   (1) **Scholarship**
   
   The basis for scholarship consideration is passing grades in all courses on load of at least 30.

   (2) **First-Class Standing**
   
   First-class standing is awarded to any student who obtains a GPA of not less than 3.5 and successfully completes a minimum of 24 during the Fall/Winter, obtain a minimum 2.0 GPA, and successfully fulfill all other conditions of the probation. Students who fail to satisfy any of the conditions fail Probation, and are required to withdraw without the option of appeal. Students who fail a second period on probation are ineligible for readmission to the Faculty of Science.

192.5.2 **Graduation Year**

Students who have completed ★120 or more and who have either not applied to graduate, or who have applied but have not met graduation requirements, are permitted to register only in those courses necessary to complete their current program as quickly as possible. Such students must have the written approval of the Associate Dean of Science for every course beyond ★120 in which they register. Students in Honors or Specialization programs must also have the written approval of their Departmental Advisor.

192.5.3 **Reexamination**

Reexaminations are not normally permitted in the Faculty of Science. Students registered in the Faculty of Science wishing to be considered for a reexamination must, in addition to meeting the requirements set out in §23.5.5, also meet the following conditions:

   (1) Students must provide evidence of a medical condition or similarly compelling circumstance existing at the time of the writing of the final examination; and

   (2) provide evidence that the student’s performance in the final examination was so affected by circumstances as shown in (a) that there was a substantial difference between the final examination results and the term work; and

   (3) excluding the final exam, must have completed at least one-half of the term work.

**Note**: Registrants in BSc degree programs in the Faculty of Science who fail to meet the graduation requirements may be granted a reexamination in one passed or failed Science course taken in the final Fall/Winter or Spring/Summer (last ★30 or less) provided the maximum number of reexaminations (★12) has not been previously taken. Such courses must qualify for reexamination, according to §23.5.5.
192.6 Courses

(1) Selection of Courses
Students are responsible for familiarizing themselves with program requirements and limitations as specified in the Calendar, for ensuring their programs are properly planned in accordance with degree specifications, and for the completeness and accuracy of their registration. Please read the Calendar carefully before registering in courses, and if you are in doubt about any regulations pertaining to your program, consult the Faculty of Science Office (1-001 CCIS) for clarification.

Students registered in the Faculty of Science must select courses offered by the Faculty of Arts or by the Faculty of Science. In some instances, courses from other Faculties may be permitted by permission of the Dean or designee. Written approval from the Faculty of Science is required if more than *30 are taken in a Fall/Winter, except in those Honors and Specialization programs requiring more than *30 in a given year.

(2) Selection of First-Year Courses
Beginning first-year students who have completed no credits toward their programs normally restrict their registration to junior courses. First year students contemplating taking senior level courses should be careful to ensure that they have completed any prerequisites.

(3) Withdrawal from Courses
Courses from which the student withdraws up to and including the last day for registration in the Fall and Winter Terms will not appear on the student’s record. Courses from which the student withdraws after the last day of registration and up to and including the last day for dropping courses will appear with a grade of “W” (Withdrawn with permission) on the transcript.

Deadlines for withdrawing from courses are listed in §1.

(4) Prerequisites
Courses with prerequisites may only be used for degree credit if the prerequisite requirements are met.

A grade of D is the minimum grade acceptable in a course which is to be used as a prerequisite.

Where a prerequisite is stated, it is understood that equivalent courses may be used to satisfy the requirement. In addition, the department offering a course with prerequisite requirements may waive the prerequisite in writing. (Prerequisite waiver forms are available from the Faculty of Science office and the Department offices).

Students who are unsure if they meet the prerequisite requirements in a course, or who wish to obtain permission to have a prerequisite waived, should consult the department offering the course.

(5) Repeating Courses
No student will be permitted to repeat any University course, whether a failed course or a course having a grade of W, more than once except for reasons deemed sufficient by the Council of the Faculty in which the student is enrolled. For Science students, the Faculty will withhold credit or indicate the course is extra to degree on any course that contravenes this regulation.

Normally, a student will not be permitted to repeat a course in which a grade of D or more has been received.

Only two exceptions are permitted, and each requires written approval of the Dean or designee:

a. When a higher grade is necessary for a course that is required in one of the degree programs

b. When a student in Satisfactory Standing in the last year of a degree program repeats one course to raise the GPA to the level required by the degree program

A student who repeats a course in which a grade of D or more has been received, without written permission of the Faculty of Science, will have the grade attained on the initial passing of the course used for the purpose of meeting degree requirements, and no credit will be assigned to the repeated course.

192.7 Graduation

(1) Application for Graduation
Students who intend to receive a BSc (General, Specialization, or Honors) Degree or Special Certificate must apply for the Degree or Certificate on Bear Tracks (https://www.beartracks.ualberta.ca) by February 1 for Spring Convocation or by September 1 for Fall Convocation. All official transcripts from other postsecondary institutions are due by May 1 for Spring Convocation or by October 1 for Fall Convocation.

Students who intend to apply for admission to a alternate degree program in the Faculty of Science for convocation purposes only must meet all of the admission, continuation, residency and graduation criteria for that BSc program.

(2) Degree Requirements
All BSc Degrees require a minimum of *120. Courses with weights of *0 are offered for credit only, and, although they may be required in specific degree programs, cannot be used to meet the minimum units of core course weight requirement in any degree program.

(3) Convocation
All requirements for graduation at Spring Convocation must be met by the end of Fall/Winter. Those completing degree requirements during Spring/Summer will graduate at the Fall Convocation.

(4) First-Class Honors
First-class Honors Degrees are awarded to any student in an Honors program who obtained:

a. A GPA of at least 3.5 in each of the last two Fall/Winters of the program; and

b. A GPA of at least 3.5 on the last *60 of the program. If determination of the last *60 requires consideration of one or more courses from a given term then all work from that term is included in the calculation for the purposes of qualifying for First-class Honors.

(5) With Distinction
The notation “With Distinction” is inscribed on the parchment of a candidate for a General or Specialization degree if the candidate has obtained a GPA of not less than 3.5 over the last *60 and if the student successfully completed *24 or more in each of the last two Fall/Winters. If determination of the last *60 requires consideration of one or more courses from a given term then all work from that term is included in the calculation for the purposes of qualifying for With Distinction.

Further regulations regarding academic standing, promotion, and graduation vary from program to program within the Faculty of Science, and are therefore given in §193 below. Regulations for Honors, Specialization, and General programs are found in §193.1.

192.8 Appeals and Grievances

A copy of Faculty of Science regulations regarding appeals on grades, academic standing and practicum intervention may be obtained from the Faculty of Science Student Services Office (1-001 CCIS) and on the Faculty of Science website. Certain academic standing decisions made by the Faculty Academic Appeals Committee may be appealed to the General Faculties Council Academic Appeals Committee. Appeals of decisions made by the Faculty Practice Review Committee may be appealed to the General Faculties Council Practice Review Board. See §23.8.

Note: Deadlines exist for submission of appeals and are described in the appeals policy document.

192.9 Visiting Student Status

Permission to attend another institution as a Visiting Student depends on the student remaining in good academic standing in the Faculty of Science at the University of Alberta.

A student while registered in the Faculty of Science cannot attend two postsecondary institutions at the same time and will not receive permission to register as a Visiting Student at another institution if the equivalent course is given on campus in the same term, except in the case of formal exchange programs. Transfer credits will not be awarded if a student attends another postsecondary institution without first obtaining a current Letter of Permission from the Faculty of Science.

192.10 Study Abroad

The Faculty of Science encourages all full-time students who have completed at least *15 credits at the University of Alberta, who are in satisfactory standing in their program with a CGPA of at least 2.5 and have a GPA of at least 2.7 in their most recently completed term, to consider a period of study abroad. This program is administered by University of Alberta International
193 Programs of Study

193.1 BSc Honors Programs
A minimum of ♠120 normally taken in no more than five consecutive academic years is required to complete the Honors program for the degree of BSc with Honors. Some departments require that an Honors program be completed in four years, others permit five. See individual departments for details. These programs provide specialization in the chosen subject or subjects as well as the higher standard implied by the term “Honors.”

Honors programs are available in the Departments of Biochemistry, Biological Sciences, Cell Biology, Chemistry, Computing Science, Earth and Atmospheric Sciences, Mathematical and Statistical Sciences, Neuroscience, Pharmacology, Physics, Physiology, and Psychology. Honors is the preferred program for students who plan graduate study.

Admission
See §15.15.3 for admission requirements.

Selection of Courses
The following regulations govern Honors programs:
(1) In each year, an Honors student’s program must be approved by an Honors Advisor in the student’s Department and by the Faculty Office.
(2) A minimum of ♠72 in Science is required in most Honors programs. Certain Departments may require more than ♠72 in Science courses.
(3) A student normally must take at least ♠18 in Arts courses as part of the requirements for the Honors degree.
(4) Normally, no more than ♠42 in junior (100-level) courses are permitted in Honors programs.
(5) Certain non-Arts and non-Science courses appropriate to the program may be permitted in Honors programs with the written approval of the Department directing the student’s program.

193.2 BSc Specialization Programs
Four-year programs, comprising a minimum of ♠120, provide education to a professional level and lead to the degree of BSc with Specialization. Specialization programs are available in the Departments of Biochemistry, Biological Sciences, Cell Biology, Chemistry, Computing Science, Earth and Atmospheric Sciences, Mathematical and Statistical Sciences, Pharmacology, Physics, and Psychology.
A five-year (♠190) BEd/BSc (Specialization in Science and Education) program with majors and minors in Biological, Mathematical, and Physical Sciences is also available (see §15.15.6 and 75.6).

Admission
See §15.15.4 for admission requirements.

Selection of Courses
The following regulations govern Specialization programs:
(1) In each year, a Specialization student’s program must be approved by a Specialization advisor in the appropriate Department and by the Faculty Office.
(2) A minimum of ♠72 in Science is required in most Specialization programs. Certain Departments may require more than ♠72.
A student must take at least 18 in Arts courses as part of the requirements for most Specialization degrees.

Normally, no more than 42 in junior courses are permitted in Specialization programs.

Certain non-Arts and non-Science courses appropriate to the program may be permitted in Specialization programs with the prior written approval of the Department directing the student’s program.

Applicants to the BSc Specialization program who have taken non-Arts and non-Science courses before application will have the potential transfer credit for such courses assessed at the time of admission to the program.

Course Load Requirements
To graduate in four years normally requires that BSc Specialization students take the usual full course load of 30 in each Fall/Winter of the program. Students who wish to extend their programs are still expected to complete at least 24 in each Fall/Winter of the program. Exceptions to course load requirements must be approved in advance each year by the Department and the Faculty Office. (See Time Limits for Completion of Program below.)

Academic Standings and Graduation
The following regulations govern Specialization programs:

(1) Continuation in a Specialization program is by recommendation of the Department concerned and requires a GPA of at least 2.3 in each of the preceding Fall/Winter periods. See description of Specialization programs of individual departments for additional requirements relating to promotion in the Specialization program. Students must be in good standing in the Specialization program in order to graduate.

(2) A student who fails to attain the standard necessary for continuation in the Specialization program will be required to withdraw from that program. In so doing, the student may apply to transfer to the General program in the Faculty. Students applying to transfer from a Specialization to the General program must meet the continuation GPA of 2.0.

(3) A student who fails to complete the requirements for a Specialization degree in the fourth year may be granted the General degree forthwith upon application if the courses taken and the standing attained are satisfactory. Such students must apply to transfer to the General program.

(4) For graduation, a program of at least 120 credited to the degree.

(5) BSc Specialization degrees with Distinction are awarded when students achieve a GPA of at least 3.5 on the last 60 if the student was enrolled in a normal course load (minimum 24) during each Fall/Winter of the last two years.

Residence Requirement
A student transferring to the Faculty of Science with advanced standing must complete at least 60 applicable to the BSc program while registered at the University of Alberta. Normally, at least 30 of the last 60 must be completed while registered in the Faculty of Science.

Time Limits for Completion of Program
All BSc Specialization programs are designed to be four-year programs. However, in some cases the minimum course load requirements have been reduced to allow students the flexibility to complete the degree over a longer time period. Students wishing to extend their programs beyond the time frame dictated by the minimum course load requirement for their program must first obtain the written approval of the Department and the Senior Associate Dean of Science or designate.

193.3 BSc General Program
Please note that the Faculty of Science is revising the Bachelor of Science in the General Program degree requirements for all students admitted in Fall 2014 and thereafter. Please see http://www.science.ualberta.ca/en/UndergraduateStudents for a detailed listing of the approved program requirements.

The BSc General program provides students with a diverse education in more than one branch of study and includes a major and minor subject or area of concentration. Students must major in a Science subject or area of concentration. Students may elect to minor in a Science subject or area of concentration, an Arts subject of concentration, an Agricultural, Life and Environmental Sciences minor, or a Business minor. In addition to providing a BSc General Degree, this program allows for subsequent transfer to Specialization and Honors programs. Students who intend to transfer to Honors programs in Biochemistry, Neuroscience, Pharmacology or Physiology must complete 30 in each Fall/Winter preceding admission to the Honors program. All other students who intend to transfer to Honors programs must complete 24 in each Fall/Winter preceding admission to the Honors program. Winter preceding admission to the Honors program. Students enrolled in the General program who intend to transfer to another program should consult the appropriate admission requirements for the particular program of interest in §15.15 and carefully select their first-year core courses in accordance with the requirements of the specific program.

Students who tentatively plan to transfer to an honors or specialization program should initially complete courses toward a Science or Arts minor in accordance with BSc General regulations.

Admission
See §15.15.1 for admission requirements for the BSc (General) programs.

Selection of Courses
The following regulations govern the General program:

(1) A student’s program must be approved by an advisor in the Faculty Office each academic year.

(2) To obtain a BSc General Degree, a student must receive credit in at least 72 and not more than 102 must be in Science. At least 18 and not more than 48 must be in Arts.

(3) Each student must complete a Science major. A minimum of 36 and a maximum of 48 are required in the major, with no more than 18 at the junior level. At least 12 must be 300-level or higher courses taken while registered in the Faculty of Science at the University of Alberta. Each student must also either
   a. Complete a second Science major. Students who complete a second Science major do not have a minor. The Double Majors will be recorded on their transcripts and diplomas; or
   b. Complete a minor. The minor may be in Science, or in Agricultural, Life and Environmental Sciences, Arts or Business. For a list of Agricultural, Life and Environmental Sciences minors, see §193.3.1. For a list of Arts subjects available as a minor, refer to “Minors”. For information about admission to the Business minor, see §15.15.2. Requirements for a Business minor appear in §193.3.2. At least 24 and not more than 36 are required in the minor with no more than 12 at the junior level. If the minor is a Science minor, at least 6 must be in 300-level or higher courses taken while registered in the Faculty of Science at the University of Alberta. If the minor is an Arts minor, additional requirements as specified by the Arts Department may be required. Students are responsible for meeting any additional departmental requirements as specified by the Faculty of Arts.

Majors
A Science major consists of Science courses taken from one of the following nine subject areas:

Biological Sciences (see Note 1): Choose courses from BIOCH, BIOIN, BIOL, BOT, CELL, ENT, GENET, IMIN, MA SC, MICROB, MMI (with the exception of 133), NEURO, PALEO, PHYSL (with the exception of 600), PMCOL (with the exception of 300), ZOOL

Chemistry: Choose courses from BIOCH, CHEM.

Computing Science: Choose courses from CMPUT,

Earth and Atmospheric Sciences: Choose courses from Science EAS courses, GEOPH, PALEO.

Mathematical Sciences: Choose courses from BIOIN, CMPUT, MA PH, MATH, STAT.

Mathematics: Choose courses from MATH, MA PH.

Physical Sciences: Choose courses from ASTRO, BIOCH, CHEM, GEOPH, MA PH, PHYS.

Physics: Choose courses from ASTRO, GEOPH, MA PH, PHYS.

Science Psychology: Choose courses from Science PSYCO courses.

Statistics: Choose courses from STAT.

Notes
(1) For additional Biological Science courses and information see §194.2.6, 194 and 195.3.

(2) Course subjects must be used for either the major or minor, they may not be split between the two. For double majors please see §193 (3.a).

(3) EAS 223 may be used as a Physical Science or Chemistry course.

Minors
A Science minor consists of Science courses taken from one of the following areas: Biological Sciences, Chemistry, Computing Science, Earth and Atmospheric Sciences (Science EAS), Mathematical Sciences, Mathematics, Physical Sciences, Physics, Psychology (Science PSYCO), or Statistics. For information about the BSc General – minor in Agricultural, Life and Environmental Sciences, see §193.3.1. For information about the BSc General – minor in Business, see §193.3.2.

If the minor is from the Faculty of Arts, further requirements as specified by the Arts Department must be met. See Faculty of Arts §43.1 to 44.3 for
specific requirements for minors, by Department. The following Arts subjects may be taken as a minor: Anthropology; Art and Design; Biblical Hebrew; Central/East European Studies; Chinese; Christian Theology; Classical Studies; Classical Languages; Comparative Literature; Creative Writing; Drama; East Asian Studies; Economics; English; Film Studies; French; Human Geography (see Note); German; History, Ancient or Medieval History, History of Art, Design and Visual Culture; International Studies; Italian; Japanese; Latin American Studies; Linguistics; Middle Eastern and African Studies; Music; Native Studies; Philosophy; Polish; Political Science; Arts Psychology (see Note); Religious Studies; Russian; Scandinavian; Science, Technology and Society; Sociology; Spanish; Ukrainian; Women's Studies.

Note: The major and minor may not share courses from the same department. The following combinations are not allowed:

- Arts Psychology/Science Psychology
- Courses in Mathematics and Computing Science courses, but no Statistics courses. The minor would consist exclusively of Statistics courses.

Students who major in Earth and Atmospheric Sciences are allowed to minor in Human Geography. For such students, all EAS (Faculty of Science) courses count towards their major in EAS; all HGP (Faculty of Arts) courses count towards their minor in Human Geography. See §44.15.1 for other requirements for the Minor in Human Geography.

(4) The General program features a first-year core of courses which must include the following:

a. ★6 junior ENGL or ★3 junior ENGL and ★3 junior WRS
b. ★6 from among junior courses offered by the Departments of Computing Science, and Mathematical and Statistical Sciences (CMPUT 101 or 114 or 174; CMPUT 115 or 175; MATH 113 or 114 or 117; MATH 115 or 118; MATH 125; MATH 153; STAT 141 or 151
c. ★6 from among junior courses in the Departments of Chemistry or Physics (ASTRO 120, 122; CHEM 101, 102, 164; PHYS 114, 124, 126, 144, 146)
d. ★6 from among senior Science courses titled Biology, Earth and Atmospheric Sciences, or Science Psychology (BIOL 107, 108; EAS 100, 105; PSYCO 104)

(5) Normally, at least ★30 at the junior level must be successfully completed before a student may register in senior-level courses.

(6) Not more than ★42 of all courses taken can be at the junior level.

(7) Each student must successfully complete a minimum of ★12 at the 300-level (or higher) in the major and, in addition, at least ★6 at the 300-level (or higher) in the minor while registered in the Faculty of Science at the University of Alberta.

(8) Subject to receiving written approval from the Faculty of Science Office before registration, a maximum of ★12 may be taken from Faculties other than Arts or Science. For applicants to the BSc General who have already taken courses from Faculties other than Arts or Science, potential transfer credit for such courses will be assessed at the time of admission to the program.

Such subjects are not included as part of the major or minor, nor toward the minimum requirement of ★18 in Arts, nor toward the minimum requirement of ★72 in Science.

Note: In Women's Studies minor, courses not in Arts or Science but in the list of "cross-listed courses" may count toward the minor in Women's Studies (see §44.33).

Course Load Requirements

Students in the General program should normally take ★30 during the Fall/Winter of each year of the program.

Academic Standing and Graduation

The following regulations govern General Programs:

(1) To obtain a BSc General degree, a minimum 2.0 GPA must be attained on the last ★60 credited to the degree. Moreover, a minimum 2.3 GPA must be attained in all courses in the major. Students must be in Satisfactory Standing in the General program in order to graduate (a minimum 2.0 GPA in the final Fall/Winter).

(2) BSc General degrees with Distinction are awarded when students achieve a GPA of 3.5 or higher over the last ★60 if the students have satisfactorily completed at least a normal academic load of a minimum of ★24 during the Fall/Winter periods of the last two years at the University of Alberta.

Residence Requirement

A student transferring to the Faculty of Science with advanced standing must complete at least ★60 applicable to the BSc program while registered at the University of Alberta. Normally, at least ★30 of the last ★60 must be completed while registered in the Faculty of Science.

Time Limits for Program Completion

The Faculty of Science may permit a student to complete the requirements for a General degree over a period longer than four years or meet the requirements in a shorter time by attending Spring/Summer.

193.3.1 BSc General—Minor in Agricultural, Life and Environmental Sciences

Students may choose a minor in Agriculture, Human Ecology or Nutrition. All other restrictions and requirements of the BSc General program, as outlined in §193.3 apply.

Minor in Agriculture

The minor in Agriculture consists of at least ★24 and no more than ★30 in Agriculture courses as follows:

(1) AN SC 200
(2) AREC 200 (Prerequisite of ECON 101 or consent of Department)
(3) PL SC 221
(4) SOILS 210 (Prerequisite: Must have completed a university-level course in life or natural sciences. A university-level chemistry course is strongly recommended.)
(5) ★12 to ★18 in additional courses at the 300-level or higher to be chosen from AN SC, AREC, ENCS, PL SC or SOILS.

Minor in Human Ecology

The minor in Human Ecology consists of at least ★24 and no more than ★30 in Human Ecology as follows:

(1) HECOL 100
(2) ★21 to ★27 in HECOL courses, with at least ★9 at the 300-level or higher.

Minor in Nutrition

The minor in Nutrition consists of at least ★24 and no more than ★30 in Nutrition as follows:

(1) NUTR 100
(2) NU FS 305, 356, 373
(3) ★12 to ★18 from the following: NUTR 480, NU FS 200, 223, 363, 374, 377, 427, 428

Note: CHEM 261 and 263 are pre-requisites for NU FS 373.

193.3.2 BSc General—Minor in Business

Note: For requirements, see §193.3. Students admitted to the program lacking one or more prerequisites will be required to make up the deficiency during the first Fall/Winter in the Business minor program.

BSc General program students admitted to the minor in Business quota must complete the following:

(1) ECON 101, 102
(2) ★18 to ★30 in courses offered by the Faculty of Business including ACCCTG 311; SMO 301; two of FIN 301, MARK 301, OM 352, SMO 321

Notes

(1) Several of the above courses have one or more Arts or Science courses as prerequisites. These prerequisites must be met.
(2) Students completing a minor in Business must still choose a major in Science and must satisfy the requirement that at least ★72 of the ★120 credited to the degree be in Science.
(3) Students minoring in Business must still complete at least ★18 in Arts. ECON 101 and ECON 102 constitute six of those required Arts units.

Once admitted to the minor in Business, students in the BSc General program will be allowed to continue in the Business minor as long as they remain in good standing in the BSc General program. BSc General program students who have been admitted to the minor in Business and who subsequently apply to transfer to a Specialization or Honors program which has a Business component controlled by quota will have to apply and compete for admission to that quota.
193.4 BSc (Specialization in Science and Education)/BEd (Secondary) Combined Degrees Program

The Faculties of Science and Education offer a combined degrees program that is more highly structured than a BSc followed by a BEd After Degree (a six year route). It provides less flexibility in course choice and scheduling than taking the degrees sequentially because it is designed to meet the minimum requirements of both degrees in five years. In addition, it must meet teacher certification requirements within this time frame.

To accommodate the variety in subject studies needed in secondary school teaching, students in the BSc (Specialization in Science and Education)/BEd (Secondary) program will select both a major/minor from the following areas:

- **Biological Sciences**: Biology, Botany, Entomology, Genetics, Immunology and Infection, Marine Science, Microbiology, Neuroscience, Paleontology, Pharmacology, Physiology, Zoology.
- **Physical Sciences**: Astronomy, Chemistry, Mathematical Physics, Physics.

**Academic Standing and Graduation**

The following regulations govern the combined degrees program:

(1) Continuation in the combined degrees program requires a GPA of at least 2.3 on ★24 in each Fall/Winter of the five-year program.

(2) Graduation from the combined degrees program requires a GPA of 2.7 in the declared major.

(3) Students who fail to achieve a GPA of 2.7 in their major at the end of Year 2 in the program will not be promoted to the Faculty of Education.

(4) A student who fails to attain the standard necessary for continuation or graduation may appeal to be granted one further Fall/Winter to achieve the required standing and requires the written approval of the Dean of Science and the Dean of Education.

(5) A student who cannot attain the standard necessary for continuation or graduation in the combined degrees program will be required to withdraw from the program. In so doing, the student may apply to transfer to a BSc program in the Faculty of Science or the BEd program in the Faculty of Education, provided they meet the necessary admission GPA.

(6) Normally, a student transferring from the combined degrees program to a BEd program after Year 2 or 3 should be able to complete the degree in one or two years. However, transfer to a BSc program must be made after Year 2 at the latest to avoid loss of credit.

(7) The BSc (Specialization in Science and Education) degree With Distinction is awarded when students achieve a GPA of at least 3.5 on the last ★60 if the student was enrolled in at least ★24 during each Fall/Winter of the last two years.

**Admission**

Students apply to the Faculty of Science for admission to the BSc (Specialization in Science and Education)/BEd (Secondary) program and normally spend the first two years of the five-year combined degrees program registered in the Faculty of Science. (See §15.15.6)

**Selection of Courses**

The following regulations govern the BSc (Specialization in Science and Education)/BEd (Secondary) program:

(1) A student's program must be approved by an advisor in the appropriate Faculty prior to the start of each Fall/Winter.

(2) Within the ★150 program, a student must complete a minimum of ★72 in Science, ★48 in Education and ★18 in Arts.

(3) In the major, at least ★12 must be in 300-level or higher courses taken while registered in the BSc (Specialization in Science and Education)/BEd (Secondary) program at the University of Alberta.

(4) In the minor, at least ★6 must be in 300-level or higher courses taken while registered in the BSc (Specialization in Science and Education)/BEd (Secondary) program at the University of Alberta.

(5) No more than ★62 at the 100-level are permitted in the BSc (Specialization in Science and Education)/BEd (Secondary) program.

**Course Load Requirements**

To complete the ★150 and graduate in five years, students must take a full course load of ★30 in each Fall/Winter of the program. The minimum load for students in the BSc (Specialization in Science and Education)/BEd (Secondary) program is at least ★24 in each Fall/Winter. A course load of less than ★24 requires annual approval by both the Dean of Education and the Dean of Science.

**Residence Requirement**

A student transferring into the combined degrees program with transfer credit normally will be required to complete at least ★90 (normally the last ★90) while registered in the combined degrees program.

**Time Limits for Completion of Program**

The combined degrees program is a five-year program. A student may complete the requirements of the combined degree over a period longer than five years or meet the requirements in a shorter time by attending Spring/Summer. An extension beyond six years is not normally permitted and requires the written approval of the Dean of Science and the Dean of Education.

---

**Science Chart 1 BSc (Specialization in Science and Education)/BEd**

**Note:** Year 1 and Year 2 are completed in the Faculty of Science. Years 3, 4 and 5 are completed in the Faculty of Education.

193.5  After Degrees

An individual holding one or more undergraduate degrees from recognized post-secondary institutions may earn an additional undergraduate degree (After Degree) from the Faculty of Science. The After Degree may be a BSc General, a BSc Specialization or a BSc Honors degree. The BSc Specialization in Science and Education degree is not available as an After Degree.

(1) All of the admission, program, academic standing and graduation standards that apply to a regular degree also apply to After Degree programs, except as noted in §192.5.2. Admission to a BSc Specialization or BSc Honors After Degree program requires the approval of the appropriate Department and the Faculty office. Please refer to section §15.15 for program admission requirements in the Faculty of Science.

(2) An After Degree may not duplicate the degree(s) previously completed. The major or minor of a BSc General After Degree may not be the same as the major or minor of the previous degree(s). The only exception is that students who wish to upgrade a previous Science minor to be the major in the After Degree may do so provided their new minor does not overlap with either the major or minor of the previous degree(s). In the case of BSc Specialization and BSc Honors programs, the area of concentration may not be the same as that of the previous degree(s). However, qualified students holding a BSc General degree from this institution or its equivalent from another institution may use the After Degree to upgrade their previous major to a BSc Specialization or BSc Honors program.

(3) If applying to a BSc General After Degree program, a major and a minor must be declared upon application.

(4) All students in After Degree programs must follow the program to which they have been admitted and must demonstrate progress towards completion of the degree in each Fall/Winter (see §192.5.2).

(5) To complete an After Degree, a minimum 60 will be required if the student holds a BSc degree from the Faculty of Science at the University of Alberta, and a minimum of 60 will be required if the student holds an undergraduate degree from another faculty or university. The actual number of credits required to complete an After Degree is dependent on the coursework that was completed prior to the After Degree program and will be determined at the time of admission.

(6) In a BSc General After Degree program, students with a previous BSc General degree from the Faculty of Science at the University of Alberta must complete a minimum of 9 senior units in their major and a minimum of 6 senior units in their minor while registered in the After Degree program. Students holding a degree from outside the Faculty of Science at the University of Alberta must complete a minimum of 18 senior units in their major and a minimum of 12 senior units in their minor while registered in the After Degree program.

(7) In a BSc Specialization or BSc Honors After Degree program, students with a previous undergraduate degree from the Faculty of Science at the University of Alberta must complete a minimum of 15 senior units in the area of concentration of the new degree while registered in the After Degree program. Students holding a degree from outside the Faculty of Science at the University of Alberta must complete a minimum of 24 in the area of concentration of the new degree while registered in the After Degree program.

194  Programs by Department

194.1  Biochemistry

194.1.1  Honors in Biochemistry

Continuation in the Honors in Biochemistry program requires successful completion of 30 with a minimum 3.0 GPA in the previous Fall/Winter. In addition, graduation requires a minimum grade of B- or higher on a minimum of 9 Biochemistry courses credited towards the degree.

Year 1

Biol 107
Chem 101, 102 and 261 (or 164)
Math 113 or 114; 3 junior-level Math or Stat option
Phys 124 and 126 (or equivalent)
6 junior ENGL or 3 junior ENGL and 3 junior WRS

Year 2

BIOCH 200 (Fall), and BIOCH 320, 330 (Winter)
Biol 201
Chem 211, 213
Chem 263 (Fall)
6 in approved science options
3 in an approved Arts option

Year 3

BIOCH 310 (Fall), and BIOCH 401
6 in senior-level BIOCH courses
3 in Group A options
6 in an approved Science option
6 in approved Arts options

Year 4

6 in senior-level BIOCH courses
BIOCH 499
6 in Group A or Group B options
6 in approved Science options
3 in an approved Arts option

Notes

(1) Students must receive a grade of not less than B- in all Biochemistry courses credited toward the minimum number required for the degree.

(2) Students should consult the Department of Biochemistry regarding selecting options throughout the course of the program.

(3) Group A options are selected from CHEM, PHYS, MATH, STAT, CMPUT. Group B options are selected from Group A or BIOINF, CELL, GENET, IMIN, MICRO, PHYSL, PMCOL. Group A and B options may not be junior courses.

(4) Credit in SCI 100 will be considered equivalent to Biol 107, Chem 101, 102, 164, Math 114, Phys 124, 126, WRS 101, 3 junior-level Math or Stat option and 3 Science option.

194.1.2  Specialization in Biochemistry

Continuation in the Specialization in Biochemistry program requires successful completion of at least 24 with a minimum 2.7 GPA in the previous Fall/Winter. In addition, graduation requires a minimum grade of B- in BIOCH 200, 310, 320 and 330 and a minimum grade of C in all other BIOCH courses credited towards the degree.

Year 1

Biol 107
Chem 101, 102 and 261 (or 164)
Math 113 or 114; 3 junior-level Math or Stat option
Phys 124 and 126 (or equivalent)
6 junior ENGL or 3 junior ENGL and 3 Junior WRS

Year 2

BIOCH 200 (Fall), and BIOCH 320, 330 (Winter)
Biol 201
Chem 211, 213
Chem 263 (Fall)
6 in approved Science options
3 in an approved Arts option

Year 3

BIOCH 310 (Fall), and 401
6 in senior-level BIOCH courses
3 in Group A options
6 in approved Science options
6 in approved Arts options

Year 4

6 in senior-level BIOCH courses
12 in approved Science options
3 in an approved Arts option
6 in approved options
3 in Group B options

Notes

(1) Students must receive a grade of not less than B- in BIOCH 200, 310, 320, and 330, and C in all other BIOCH courses credited toward the minimum number required for the degree.

(2) Students should consult the Department of Biochemistry regarding selecting options throughout the course of the program.

(3) Group A options are selected from CHEM, CMPUT, MATH, PHYS, STAT. Group B options are selected from Group A or BIOINF, CELL, GENET, IMIN, MICRO, PHYSL, PMCOL. Group A and B options may not be junior courses.

(4) Students in the specialization program are strongly encouraged to take BIOCH 498 or 499 as a fourth year Science option.
194.2 Biological Sciences

All students in Honors and Specialization programs in Biological Science take a common core of four BIOL courses in the first and second years. Thereafter, they follow the course sequence of one of the areas of concentration in either Honors or Specialization in Biological Sciences identified in §194.2.4. Students must declare an area of concentration and follow the appropriate course sequence. The title of the area of concentration will appear on their degree. Additional course requirements for Honors students include BIOL 499 and program specific courses. BIOL 499, a directed research project, must be conducted on a topic appropriate to the student’s area of concentration. BIOL 499 is a recommended option for Specialization students.

Streams have been developed within several programs in Biological Sciences. These are lists of courses that provide guidance to students wishing to focus further on specific areas of Biology. Students in a program are not required to declare or follow a stream, and stream designations do not appear on transcripts. On the Course Sequence chart, available streams are noted under required to focus further on specific areas of Biology. Students in a program are not required to declare or follow a stream, and stream designations do not appear on transcripts. On the Course Sequence chart, available streams are noted under required to declare or follow a stream, and stream designations do not appear on transcripts. On the Course Sequence chart, available streams are noted under.

Students may receive block Transfer in the Biological Sciences at the University of Calgary or the University of Lethbridge if the appropriate courses are completed. Interested students may contact the Department of Biological Sciences for details.

194.2.5 Industrial Internship Program

An Industrial Internship Program, similar to a co-op program, is offered to students in the Specialization or Honors programs in Biological Sciences (see §192.11 for guidelines to the program). The Industrial Internship designation will appear on the degree parchments of students who have participated in the program and who have also successfully completed BIOL 400.

Students approved to enter this stream register for a continuous sequence of Science Work Experience courses (WKEXP 955, 956, 957, 958), starting in May, September or January. During the program, students are considered full-time students of the University. Work experience courses have no weight and are graded credit/no credit, and recorded on the student’s transcript. The Industrial Internship Program Advisor maintains contact at approximately four-month intervals with the student and the person designated by the employer to be responsible for the student’s progress. This arrangement ensures satisfaction on all sides. If the review shows the situation is not satisfactory, the internship may be terminated and the student would then return to classes at the next available opportunity. The graduation requirements for the Industrial Internship program designation include successful completion of at least WKEXP 955 and 956 plus BIOL 400. BIOL 400 must be taken in the first term immediately following completion of the WKEXP period. If required by the employer, the student’s written report and oral presentation in BIOL 400 may be classified confidential.

The employer also assesses the student’s performance during the work term. Based on the student’s written report and oral presentation, and the report from the employer, students are awarded a grade in BIOI 400.

Interested students should see the Industrial Internship Advisor in the Department of Biological Sciences for more information.

194.2.6 General Program in Biological Sciences

A major or a minor area of concentration in the Biological Sciences is available in the BSc General program.

Courses which may be used toward a Biological Sciences major or minor include BIOCH; BIOIN; BOT; CELL; ENT; GENET; IMIN; MA SC; MICRB; MMI (with the exception of MMI 133); NEURO; NU FS 363; PMCOL (with the exception of PMCOL 300); PALEO; PHYSL (with the exception of PHYSL 600) and ZOOL.

Courses in Bioinformatics may be used for a concentration in Biological Sciences or Physical Sciences or Chemistry but not in more than one concentration.

Courses in Paleontology may be used in a concentration in Biological Sciences or Earth and Atmospheric Sciences but not in both.

Courses in Bioinformatics may be used in a concentration in Biological Sciences or Mathematical Sciences or a Computing Sciences minor but not in more than one concentration.

Note: It is not possible to combine a major or minor in the Biological Sciences with a minor or major in one of the specific subject disciplines in the Biological Sciences. For example, students may not select a major in the Biological Sciences and a minor in Microbiology.

194.3 Cell Biology

194.3.1 Honors in Cell Biology

Continuation in the Honors in Cell Biology program requires successful completion of at least ★24 with a minimum 3.0 GPA in the previous Fall/Winter. In addition, graduation requires a minimum 3.0 GPA on all courses credited towards the degree.

Year 1

BIOI 107, 108
CHEM 101, 102
CHEM 164 or 261
MATH 113 or 114
PHYS 12A, 126
★6 junior ENGL or ★3 junior ENGL and ★3 junior WRS

Year 2

BIOCH 200
BIOL 207
CELL 201 or BIOL 201
CHEM 263
GENET 270
MICRB 265
STAT 141 or 151
★3 in an Arts option
★6 in approved options

Year 3

BIOCH 320 or CHEM 371
CELL 300, 301
★6 from Group A Cell Biology options (BIOCH 401 recommended)
★6 in approved options
★6 in Arts options

Notes

1. Cell Biology students should take BIOCH 320 in Winter Term of Year 2 if selecting BIOCH 401 option; BIOCH 330 is not required for Cell Biology students.

2. CHEM 371 requires MATH 115 to be taken as an approved option in Year 2

Year 4

CELL 499
★3 from a 400-level CELL course
★6 from Group A Cell Biology options
★12 in approved options
★13 in an Arts option

Notes

1. Students are required to consult the Department of Cell Biology for selection and approval of all options.

2. Students are encouraged to select approved options from the Cell Biology Group A or recommended options list, but may also follow a course of study tailored to their interests (must be approved by a Cell Biology advisor).

3. Credit in SCI 100 will be considered equivalent to BIOI 107, 108, CHEM 101, 102, 164, MATH 114, 115, PHYS 12A, 126 and ★3 WRS option.

Group A: Cell Biology Options

BIOCH 401, 420, 425, 441, 450, 481, 482
BIOCH 430 or GENET 304
BIOL 421
CELL 310, 389, 402, 405, 410, 415, 425, 445, 498
CHEM 282, 371, 373
GENET 305, 375, 420
IMIN 200, 324, 427
MATH 115
MICRB 316, 470
MMI 391
ONCOL 320, 425
PMCOL 201, 371 or ZOOL 342
ZOOL 303

Cell Biology Recommended Options

BIOCH 310, 320, 330, 410, 455, 460
BIOL 208, 315, 321, 335, 380, 391, 430
BOT 363, 382
GENET 301, 302, 364, 390, 408, 412, 418
IMIN 371, 401, 410
MICRB 311, 410
MMI 381, 382, 405, 415, 426, 427, 445
PHYSL 212, 214, 401
STAT 337
ZOOL 241, 242

194.3.2 Specialization in Cell Biology

Continuation in the Specialization in Cell Biology program requires successful completion of at least ★24 with a minimum 2.3 GPA in the preceding Fall/Winter. In addition, graduation requires a minimum 2.3 GPA on all courses credited towards the degree.

Year 1

BIOI 107, 108
CHEM 101, 102
CHEM 164 or 261
MATH 113 or 114
PHYS 12A, 126
★6 junior ENGL or ★3 junior ENGL and ★3 junior WRS

Year 2

BIOCH 200
BIOL 207
CELL 201 or BIOL 201
CHEM 263
GENET 270
MICRB 265
STAT 141 or 151
★3 in an Arts option
★6 in approved options
Year 3

CELL 300, 301
★3 from BIOH 310, 320 or 330
★6 from Group A Cell Biology options (BIOCH 401 recommended)
★9 in approved options
★6 in Arts options

Note: Cell Biology students should take BIOCH 320 in Winter Term of Year 2 if selecting BIOCH 401 option; BIOCH 330 is not required for Cell Biology students.

Year 4

★3 from a 400-level CELL course
★9 from Group A Cell Biology options
★15 in approved options
★3 in an Arts option

Notes
(1) Students are required to consult the Department of Cell Biology for selection and approval of all options.
(2) Students are encouraged to select approved options from the Cell Biology Group A or recommended options list, but may also follow a course of study tailored to their interests (must be approved by a Cell Biology advisor).
(3) Credit in SCI 100 will be considered equivalent to BIOL 107, 108, CHEM 101, 102, 164, MATH 114, 115, PHYS 124, 126 and ★3 WRS option.

Group A Cell Biology Options:
BIOCH 401, 420, 425, 441, 450, 481, 482
BIOCH 430 or GENET 304
BIOL 421
CELL 310, 398, 402, 405, 410, 415, 425, 445, 498, 499
CHEM 282, 371, 373
GENET 305, 375, 420
IMIN 200, 234, 495, 372, 452
MATH 115
MICRB 316, 470
MMI 391
ONCOL 320, 425
PMCOL 201, 371 or ZOOL 342
ZOOL 303

Cell Biology Recommended Options:
BIOCH 310, 320, 330, 410, 455, 460
BIOL 208, 315, 321, 335, 380, 391, 430
BOT 303, 382
GENET 301, 302, 364, 390, 408, 412, 418
IMIN 371, 401, 410
MICRB 311, 410
MMI 351, 352, 405, 415, 426, 427, 445
PHYSL 212, 214, 401
PMCOL 303
STAT 337
ZOOL 241, 242

194.4 Chemistry

194.4.1 Honors in Chemistry

Honors students in Chemistry must take a core of Chemistry and auxiliary courses. The core consists of ★45 in Chemistry courses, ★12 in Mathematics courses, ★9 in Physics courses, ★3 in Biology or Biochemistry courses, ★3 in either CHEM 400 or 401, ★6 in a junior ENGL or ★3 in ENGL and ★3 in Arts option, and ★12 in Arts options. In addition to the core courses, honors students must complete at least ★18 in senior courses in Chemistry from the courses listed below, with ★6 of these taken at the 400-level. Finally, the honors student must include ★15 in options in the third and fourth years of the program. These are normally chosen from offerings within the Faculty of Science. All options must be selected in consultation with the Department of Chemistry.

Continuation in the Honors in Chemistry program requires successful completion of at least ★24 with a minimum 3.0 GPA and a minimum 3.0 GPA on all CHEM courses completed in the previous Fall/Winter. In addition, graduation requires a minimum 3.0 GPA on the last ★90 credited to the degree.

The Honors Chemistry degree is accredited by the Canadian Society for Chemistry.

Year 1

CHEM 101, 102, 261 (or 164)
MATH 113 (or 114), 115
PHYS 144, 146

a junior course in ENGL or ★3 in ENGL and ★3 in an Arts option
★3 in Science option

Year 2

CHEM 211, 241, 243, 263, 282, 298
MATH 214 and other 125 or 215 or STAT 151 (if PHYS 124 and 126 are taken in Year 1, then PHYS 230 or 281 is also required)
★6 in Arts options

Years 3 and 4

CHEM 313, 361, 363, 371, 373, 398
BIOCH 200 or BIOL 107
CHEM 400 or 401
★18 in senior chemistry courses (with at least ★6 taken at the 400-level).
★12 in Science options
★6 in Arts options

Senior Courses in Chemistry

BIOCH 200, 310, 320, 330

Note: Credit in SCI 100 will be considered equivalent to CHEM 101, 102, 164, MATH 114, 115, PHYS 144, 146, BIOL 107 and ★3 Science option.

194.4.2 Specialization in Chemistry

Continuation in the Specialization in Chemistry program requires successful completion of at least ★10 with a minimum 2.3 GPA and a minimum 2.3 GPA on all CHEM courses completed in the previous Fall/Winter. In addition, graduation requires a minimum 2.3 GPA on the last ★90 credited to the degree.

The Specialization Chemistry degree is accredited by the Canadian Society for Chemistry.

Year 1

CHEM 101, 102, 261 (or 164)
MATH 113 (or 114), 115
PHYS 144, 146
★6 in junior level ENGL or WRS or ★3 junior ENGL and ★3 in Arts option
★3 in Science option

Year 2

CHEM 211, 241, 243, 263, 282, 298
MATH 214 and either 125 or 215 or STAT 151 (if PHYS 124 and 126 are taken in Year 1, then PHYS 230 or 281 is also required)
★6 in Arts options

Years 3 and 4

CHEM 313, 361, 371, 373, 398
BIOCH 200 or BIOL 107
★9 in senior chemistry courses (with at least ★3 taken at the 400-level).
★12 in Science options
★6 in Arts options
★15 in approved options

Senior Courses in Chemistry

BIOCH 200, 310, 320, 330

Note: Credit in SCI 100 will be considered equivalent to CHEM 101, 102, 164, MATH 114, 115, PHYS 144, 146, BIOL 107 and ★3 Science option.

194.4.3 Industrial Internship Program

An Industrial Internship Program, similar to a co-op program, is offered to students in the Specialization or Honors programs in Chemistry (see §192.11 for guidelines to the program). The Industrial Internship designation will appear on the degree parchments of students who have participated in the program.

Students approved to enter this stream register for a continuous sequence of Science Work Experience courses (WKEXP 955, 956, 957, 958), starting in May, which is graded credit/no credit, and recorded on the student’s transcript. The Industrial Internship Program Advisor maintains contact at approximately three-month intervals with the student and the person designated by the employer to be responsible for the student’s progress. This arrangement ensures satisfaction on all sides. If the review shows the situation is not satisfactory, the internship may be terminated and the student would then return to classes at the next available opportunity. The graduation requirements for the Industrial Internship program designation include successful completion of at least WKEXP 955 and 956, plus...
CHEM 400. CHEM 400 must be taken in the first term immediately following completion of the WKEXP period. If required by the employer, the student’s written report and oral presentation in CHEM 400 may be classified confidential. The employer also assesses the student’s performance during the work term. Based on the student's written report and oral presentation, and the report from the employer, students are awarded a grade in CHEM 400.

Interested students should see the Industrial Internship Advisor in the Department of Chemistry for more information.

194.5 Computing Science

For admission requirements, see §15.15.

There are many routes to the study of Computing Science. Students should visit our website at www.cs.ualberta.ca. Each student is expected to develop their program of study in consultation with an advisor. All Honors and Specialization programs require annual approval by the department.

194.5.1 Honors in Computing Science

The Honors program is directed to highly-motivated students with exceptional ability. It provides the opportunity for students to design their program for in-depth study of topics of interest. The Honors program has few specified requirements. Honors students must complete a minimum number of upper level courses (300-level or greater). This implies that they must take the required prerequisites in CMPUT, MATH, and other subjects. There is no set of required 200-level courses, and prerequisites in CMPUT courses can be waived for demonstrated competence in the subject. Programs that cross discipline and faculty boundaries are possible and encouraged.

Because the Honors program is very flexible, all students must obtain departmental guidance in developing their program. All course selections and changes require annual approval by a departmental advisor.

Honors students should keep in mind the degree requirements for Specialization in case they can no longer continue in Honors.

Continuation in the Honors in Computing Science program requires successful completion of at least 24 with a minimum 3.0 GPA and a minimum 3.0 GPA on all CMPUT courses completed in the previous Fall/Winter. In addition, graduation requires a minimum 3.0 GPA on the last 60 and a minimum 3.0 GPA on all CMPUT courses credited towards the degree.

Graduation requires a GPA of 3.0 on the last 60 credited to the degree, and 3.0 on all CMPUT courses credited to the degree.

Honors students must complete a minimum of 24 in CMPUT courses at the 300- or 400-level or greater offered at the University of Alberta.

Year 1

CMPUT 174 and 175
» 6 in junior ENGL or » 3 in junior ENGL and » 3 junior WRS
» 9 in Science options
» 9 in approved options

Year 2

» 9 in Science options
» 6 in Arts options
» 15 in approved options

Year 3

» 15 in CMPUT at the 300-level or 400-level (see Note 3)
» 9 in Science options
» 9 in Arts options
» 9 in approved options

Year 4

» 15 in CMPUT at the 300-level or 400-level (see Note 3)
» 9 in Science options
» 9 in Arts options
» 9 in approved options

Notes
(1) Students can take a maximum of 42 in 100-level courses.
(2) Each Fall and Winter term throughout their program, all Honors students must register in the Honors seminar CMPUT 495 (6 hr, thr/week). This seminar provides honors students with the opportunity to interact with faculty members and honors students from all years of the program to explore topics of interest.
(3) At least 12 in CMPUT must be at the 400-level.
(4) Credit in SCI 100 will be considered equivalent to CMPUT 174 and » 24 Science options.

194.5.2 Specialization in Computing Science

The Specialization in Computing Science program is designed for students to pursue the concentrated study of Computing Science, or to combine the study of Computing Science with another discipline. Students should consider the Industrial Internship Program.

Continuation in the Specialization in Computing Science program requires successful completion of at least 18 with a minimum 2.3 GPA and a minimum 2.3 GPA on all CMPUT courses completed in the previous Fall/Winter. In addition, graduation requires a minimum 2.3 GPA on the last 60 and a minimum 2.3 GPA on all CMPUT courses credited towards the degree.

Specialization students must complete a minimum of 24 in CMPUT courses at the 300- or 400-level offered at the University of Alberta.

Students can take a maximum of 42 in 100-level courses.

Course selections in other departments and Faculties may be subject to enrolment management and GPA requirements.

Year 1

CMPUT 174, 175
MATH 114, 115
» 6 in junior ENGL or » 3 in junior ENGL and » 3 junior WRS
» 12 in options (see Notes 1, 2)

Year 2

» 6 from CMPUT 201, 204, 229, 272, 291
» 9 in Statistics (see Note 3)
» 15 in options (see Notes 1, 2)

Year 3

» 12 in CMPUT at the 300-level or 400-level (see Note 4)
» 18 in options (see Notes 1, 2)

Year 4

» 12 in CMPUT at the 300-level or 400-level (see Note 4)
» 18 in options (see Notes 1, 2)

Notes
(1) Options consist of Science options, Arts options, and other approved options. The options must satisfy at least 21 from Science and at least 12 from Arts; 30 can be chosen from Science, Arts or another Faculty. At least 9 in options must be at the 300-level or higher.
(2) Higher level CMPUT courses may require specific CMPUT, MATH or STAT courses as prerequisites. Therefore, prerequisites for higher level CMPUT courses must be considered when choosing options.
(3) Students must have 6 in introductory statistics and probability. This can be satisfied by selecting (STAT 151 or 235) and STAT 252, or the more advanced sequence of STAT 265 and 266.
(4) At least 6 in CMPUT must be at the 400-level.
(5) Credit in SCI 100 will be considered equivalent to CMPUT 174, MATH 114, 115 and » 18 Science options.

194.5.3 Specialization in Computing Science—Minor in Business

The minor in Business program is for students interested in a career that combines Computing Science and Business. Students in the program have access to a limited number of reserved places in Business courses. Business minor students should consider the Industrial Internship Program.

Continuation in the Specialization in Computing Science - Minor in Business program requires successful completion of at least 18 with a minimum 2.3 GPA and a minimum 2.3 GPA on all CMPUT and Business courses completed in the previous Fall/Winter. In addition, graduation requires a minimum 2.3 GPA on the last 60 and a minimum 2.3 GPA on all CMPUT and Business courses credited towards the degree. (Note that ECON courses are not counted as Business courses.)

Specialization with Business minor students must complete a minimum of 24 in CMPUT courses at the 300- or 400-level offered at the University of Alberta.

Students can take a maximum of 42 in 100-level courses.

Course selections in other departments and Faculties may be subject to enrolment management policies and GPA requirements.

Students who choose not to continue in the Specialization Computing Science program lose their status as “pursuing a Business Minor”. Upon reapplication, students may be able to pursue the Business minor in the General Program if they meet the competitive admission GPA for this minor.

Year 1

CMPUT 174, 175
MATH 114, 115
ECON 101, 102
» 6 in junior ENGL or » 3 junior ENGL and » 3 junior WRS
» 6 in options (See Note 1)
194.5.4 Computing Science Specialization in Software Practice

The Software Practice program is for students interested in a career as a software professional. It gives students the ability to focus on topics in Computing Science that are most relevant to software professionals while pursuing relatively broad interests in Computing Science and in other disciplines related to software. Therefore, students must choose their courses in Computing Science and in other disciplines in a way that is consistent with their career goals. Students must register in the Honors seminar CMPUT 495 (0, 1hr/week). This seminar provides honors students with the opportunity to interact with faculty members and honors students from all years of the program to explore topics of interest.

Year 1

CMPUT 174, 175, 272 (see Note 1)
MATH 114, 115
★6 in junior ENGL or ★3 in junior ENGL and ★3 junior WRS
★6 in Science options
★3 in an approved option

Year 2

CMPUT 201, 204, 229, 291
MATH 125
★6 in Statistics (See Note 3)
★6 in Arts options
★3 in an approved option

Notes
1. Options consist of Science options, Arts options, Business options, and approved options from any Faculty. The options must satisfy at least GI12 from Science and GI16 from Arts, and an additional GI12 that may be chosen from Science, Arts or another Faculty. Higher level CMPUT courses may require specific CMPUT, MATH or STAT courses as prerequisites. Therefore, prerequisites for higher level CMPUT courses must be considered when choosing options.
2. Students must have GI6 in introductory statistics and probability. This can be satisfied by selecting (STAT 151 or 235) and STAT 252, or the more advanced sequence of STAT 265 and 266.
3. Students must take GI3 in Group A courses which include CMPUT 304, 325, 340 and 474. A complete list of Group A courses to be offered in a given year is available from the department.
4. Students must take GI3 in Group B project courses which include CMPUT 400, 401, 410, 412, 414, 415, 422, and 466. The department may approve variations in the above requirement on application.
5. Credit in SCI 100 will be considered equivalent to CMPUT 174, MATH 114, 115 and GI18 options.

194.5.5 Computing Science Honors Stream in Bioinformatics

The discipline of bioinformatics has developed out of the need for recording and analyzing very large sets from genome and DNA sequencing projects. The goal of the Bioinformatics program is to train students to understand, develop and use computational tools and large sets of sequence data to answer questions in biology and medicine.

The graduate will be able to understand problems embraced in bioinformatics and collaborate effectively with biologists in the construction and use of new bioinformatics tools. Interested students should select their first year science options according to the recommendations given below.

Continuation in the Computing Science Honors Stream in Bioinformatics program requires successful completion of at least GI24 with a minimum 3.0 GPA and a minimum 3.0 GPA on all CMPUT courses completed in the previous Fall/Winter. In addition, graduation requires a minimum 3.0 GPA on the last GI60 and a minimum 3.0 GPA on all CMPUT courses credited towards the degree. Students must complete a minimum of GI24 in CMPUT courses at the 300- or 400-level offered at the University of Alberta.

Year 1

BIOI 107
CMPUT 174, 175 (Honors sections if offered), 272 (see Note 1)
MATH 114, 115 (see Note 2)
★3 in a BIOL or CHEM option
★6 in junior ENGL or ★3 in junior ENGL and ★3 junior WRS
★3 in a Science option

Year 2

BIOI 207
CMPUT 201, 204, 229, 291
GENET 270
MATH 125 and one of MATH 225, 228, 229
★6 in Statistics (See Note 3)

Year 3

BIOI 301
CMPUT 301, 325, 379, 391
★3 in an Arts option
★3 in a BIOL option (see Note 4)
★3 in CMPUT at the 300-level or higher
★3 in a GENET Option (see Note 4)
★3 in a Science option
Students approved to enter this stream register for a continuous sequence of Science Work Experience courses (WKEXP 955, 956, 957, 958), starting in May, September or January. During the program, students are considered full-time students of the University. Work experience courses have no weight and are graded credit/no credit, and recorded on the student’s transcript. The Industrial Internship Program Advisor maintains contact with the student and the person designated by the employer to be responsible for the student’s progress. The student’s progress is reviewed at approximately three-month intervals. If the review is unsatisfactory, the internship may be terminated and the student would then return to classes at the next available opportunity.

The graduation requirements for the Industrial Internship program designation include successful completion of at least WKEXP 955 and 956 plus CKMUT 400. CKMUT 400 must be taken in the first term immediately following completion of the WKEXP period. If required by the employer, the student’s written report and oral presentation in CKMUT 400 may be classified confidential. The employer also assesses the student’s performance during the work term. Based on the student’s written report and oral presentation, and the report from the employer, students are awarded a grade in CKMUT 400.

Interested students should see the Industrial Internship Advisor in the Department of Computing Science for more information.

194.5.5 BSc Program in Computer Engineering

A four-year program in Computer Engineering is offered jointly by the Faculty of Science and the Faculty of Engineering (see §82.6), and administered by the Department of Electrical and Computer Engineering. Students in the program will be registered in the Faculty of Engineering. Admission requirements are specified in §15.7. Promotion and Graduation regulations are found in §83.3.

194.5.9 BSc Specialization or Honors in Computing Science After an Undergraduate Degree (other than a BSc from the Faculty of Science at the University of Alberta)

In addition to the requirements set out in §193.5, a student pursuing this designation must also complete a minimum of 24 in CKMUT courses at the 300- or 400-level offered at the University of Alberta as part of their 60.

194.6 Earth and Atmospheric Sciences

Earth and Atmospheric Sciences encompass the study of the atmosphere, surface and interior of the earth. The Department administers 12 academic programs: Honors and Specialization in Atmospheric Sciences, Honors and Specialization in Environmental Earth Sciences, Honors and Specialization in Geology, Honors and Specialization in Paleontology, BSc Specialization in Planning, BA Major and Minor in Human Geography, and BA Major in Planning. For details on the Major and Minor in Human Geography and on the BA Major in Planning, see Faculty of Arts listing.

194.6.1 Honors in Atmospheric Sciences

Atmospheric science is the study of atmospheric composition, state and motion, from the small scale (e.g., the environment of a single leaf) through medium scales (e.g., a cumulus cloud) to the global scale (global pollution and warming). Most atmospheric scientists in Canada work for Environment Canada, providing weather forecasts or environmental information. Opportunities also arise with provincial governments and in the private sector.

Continuation in the Honors in Atmospheric Sciences program requires successful completion of at least 24 with a minimum of 3.0 GPA in the previous Fall/Winter. In addition, graduation requires a minimum 3.0 GPA on the last 60 credited to the degree.

A student enrolling in the Honors program should consult the Atmospheric Sciences advisor before registration each year.

194.5.7 Industrial Internship Program

Industrial Internship Program (IIP), similar to a co-op program, is offered to students in the Specialization or Honors programs in Computing Science (see §159.11 for program guidelines). The Industrial Internship designation will appear on the degree parchments of students who have participated in the program.
Environmental Earth Science is the study of interactions between humans and Earth’s natural environment. It encompasses the influence of human activities on the local and global environment, as well as how our actions are shaped and controlled by the geologic and geomorphic processes occurring around us. Environmental Earth Scientists are typically employed by consulting companies, large resource and industrial firms, and government organizations.

Continuation in the Honors in Environmental Earth Sciences program requires successful completion of at least ★6 with a minimum 3.0 GPA in the previous Fall/Winter. In addition, graduation requires a minimum 3.0 GPA on the last ★60 credited to the degree.

A student enrolling in the Honors program should confer with the Environmental Earth Sciences Program student advisor before registration each year.

Year 1

CHEM 101 and 102
EAS 100 and 105
★6 junior ENGL or ★3 junior ENGL and ★3 junior WRS
MATH 113 or 114 and 115
PHYS 124 and 126 or PHYS 144 and 146

Year 2

BIOL 108
EAS 221, 222, 224, 225, 233, 234, and either 212 or 270
EAS 294 or HGP 250
STAT 141 or 151

Year 3

BIOL 208
EAS 250, 320, 323, 324 and 354
★6 of EAS 327 or 351 or 451
GEOPH 223
★3 Arts option

Year 4

EAS 425 or 468
EAS 426
★6 of EAS 457 or 458
★6 Arts options
★9 Science and related options

Notes

(1) EAS 458 may be taken more than once for credit. Science and related options require the approval of the Environmental Earth Sciences advisor.
(2) For students in the Industrial Internship Program: EAS 401, WKEXP 955, 956.
(3) For students entering Environmental Earth Science Honors, credit in SCI 100 will be considered equivalent to BIOL 108, CHEM 101, 102, EAS 100, 105, MATH 113, 115, PHYS 144 and 146.

194.6.4 Specialization in Environmental Earth Sciences

Continuation in the Specialization in Environmental Earth Sciences program requires successful completion of at least ★18 with a minimum 2.3 GPA in the previous Fall/Winter. In addition, graduation requires a minimum 2.3 GPA on the last ★60 credited to the degree.

A student enrolling in the Specialization program should confer with the Environmental Earth Sciences Program student advisor before registration each year.

Year 1

CHEM 101 and 102
EAS 100 and 105
★6 junior ENGL or ★3 junior ENGL and ★3 junior WRS
MATH 113 or 114 and 115
PHYS 124 and 126 or PHYS 144 and 146

Year 2

BIOL 108
EAS 221, 222, 224, 225, 233, 234, and either 212 or 270
EAS 294 or HGP 250
STAT 141 or 151

Year 3

BIOL 208
EAS 250, 320, 323, 324 and 354
★6 of EAS 327 or 351 or 451
GEOPH 223
★3 Arts option

Year 4

EAS 425 or 468
EAS 426
★6 of EAS 457 or 458
★6 Arts options
★9 Science and related options

Notes

(1) EAS 458 may be taken more than once for credit. Science and related options require the approval of the Environmental Earth Sciences advisor.
(2) For students in the Industrial Internship Program: EAS 401, WKEXP 955, 956.

(3) For students entering Environmental Earth Science Specialization, credit in SCI 100 will be considered equivalent to BIOL 108, CHEM 101, 102, EAS 100, 105, MATH 113, 115, PHYS 144 and 146.

194.6.5 Honors in Geology

Geology is the study of the planet Earth—the materials it is made of, the processes which affect these materials, and the origin and evolution of life. Geologists are employed by companies engaged in exploration for and production of minerals and fuels, by government agencies, by companies engaged in engineering and environmental projects, and by universities.

Continuation in the Honors in Geology program requires successful completion of at least 24 with a minimum 3.0 GPA in the previous Fall/Winter. In addition, graduation requires a minimum 3.0 GPA on the last 60 credited to the degree.

A student enrolling in the Honors program should consult the Geology program student advisor before registration each year.

Year 1

CHEM 101 and 102
EAS 100 and 105
6 junior ENGL and 3 junior WRS
MATH 113 or 114 and 115
PHYS 124 and 126 or PHYS 144 and 146

Year 2

EAS 221, 222, 224, 225, 230, 232, 233, and 234
3 Arts option
3 Option

Year 3

EAS 320, 323, 331, 332, 333 and 336
EAS 364 or 368
GEOPH 210 or 223 or 224
3 Arts option
3 Science option

Year 4

GEOPH 210 or 223 or 224
15 EAS Science courses numbered 300 or higher
6 Arts options
3 Science option
3 Option

Notes

(1) Recommended Arts options include any EAS X9X courses or any HGP courses.

(2) For students in the Industrial Internship Program: EAS 401, WKEXP 955, 956.

(3) For students entering Geology Specialization, credit in SCI 100 will be considered equivalent to BIOL 108, CHEM 101, 102, EAS 100, 105, MATH 113, 115, PHYS 144 and 146.

194.6.7 Honors and Specialization in Paleontology

See §194.13 for details on the Honors and Specialization Paleontology programs.

194.6.8 Specialization in Planning

The Planning program educates students in the scientific, aesthetic, and orderly disposition of land, resources, facilities and services with a view to securing the physical, economic and social efficiency, health and well-being of communities. Planners work for all levels of government and in professional planning consultancies.

The Department of Earth and Atmospheric Sciences offers a BA major in Planning and a BSc Specialization in Planning. Students interested in focusing on natural science elements of planning, including environmental management and the use of geographic information sciences, should consider the BSc program and those interested in the aesthetic, economic, and social issues of planning should consider the BA program (see 444.24 of the Calendar).

Continuation in the Specialization in Planning program requires a minimum 2.3 GPA on at least 16 in the previous Fall/Winter. To graduate in four years, a student needs 30 per year.

Graduation requires a minimum 2.3 GPA on the last 60 credited to the degree. A student enrolling in the Specialization program should confer with the Planning program student advisor before registration.

Year 1

BIOL 108
EAS 100 and 105
6 junior ENGL/WRS
HGP 100
MATH 113 or 114 or 120
STAT 141 or 151
3 Junior Arts option
3 Science options

Year 2

BIOL 208
EAS 221, 225 and 250
HGP 210, 250
6 Open options (see Note 2 below)
6 Science options

Year 3

EAS 351
HGP 310, 315, 316, 355, 399
6 Approved courses (see Note 1 below)
6 Science options

Year 4

HGP 470 and 495
9 from List A (see Note 1 below)
6 Open options (see Note 2 below)
9 Science options

Notes

(2) Recommended Open options include, but are not restricted to, the following: EAS 204, 205, 270, 354; HGP 252, 341, 342, 343, 443, 450, 452, 470, 485, 497 and 499; HIST 379; SMO 200.

(3) For students entering the Industrial Internship Program: EAS 401, WKEXP 955, 956 are required.

(4) HGP 470 may be used as a Science course by students in the BSc Specialization in Planning program.
194.6.9 Industrial Internship Program

An Industrial Internship Program, similar to a co-op program, is offered to students in the Specialization or Honors programs in Earth and Atmospheric Sciences (see §192.11 for guidelines to the program). The Industrial Internship designation will appear on the degree parchments of students who have participated in the program.

Students approved to enter this stream register for a continuous sequence of Science Work Experience courses (WKEXP 955, 956, 957, 958), starting in May, September or January. During the program, students are considered full-time students of the University. Work experience courses have no weight and are graded credit/no credit, and recorded on the student’s transcript. The Industrial Internship Program Advisor maintains contact at approximately three-month intervals with the student and the person designated by the employer to be responsible for the student’s progress. This arrangement ensures satisfaction on all sides. If the review shows the situation is not satisfactory, the internship may be terminated and the student would then return to classes at the next available opportunity. The graduation requirements for the Industrial Internship program designation include successful completion of at least WKEXP 955 and 956 plus EAS 401. EAS 401 must be taken in the first term immediately following completion of the WKEXP period. If required by the employer, the student’s written report and oral presentation in EAS 401 may be classified confidential. The employer also assesses the student’s performance during the work term. Based on the student’s written report and oral presentation, and the report from the employer, students are awarded a grade in EAS 401.

Interested students should see the Industrial Internship Advisor in the Department of Earth and Atmospheric Sciences for more information.

194.6.10 Professional Registration

Graduates of EAS programs may qualify for registration as professional geologists (P. Geol.). The practice of geology in Alberta is governed by provincial law in the interest of public protection against unskilled practice. The right to practice independently (meaning that you are legally able to accept responsibility for your work and sign for it), and the right to use the title of professional geologist (P. Geol.), are restricted to individuals registered by the Association of Professional Engineers, Geologists and Geophysicists of Alberta (APEGGA). Members of the PS Warren student society are automatically student members of APEGGA and as such are introduced to the professional association.

Individuals who are planning to meet the knowledge requirements for P. Geol. while also completing their degree at the University of Alberta should plan their program course selection carefully. Attention is drawn in particular to the science subject requirements, additional to calculus, physics and chemistry. APEGGA verifies that specific knowledge requirements are met, by reviewing academic credentials course-by-course. Holders of degrees that do not cover the APEGGA syllabus may be assessed examinations in missing subjects by the APEGGA Board of Examiners before being accepted for registration. Current syllabus and registration information is available at the Departmental Office or from APEGGA. Full information is available at www.apegga.com/

Specific questions about programs of study or individual courses applicable to professional registration can also be directed to the Departmental APEGGA Liaison.

194.7 Geophysics

The Department of Physics offers two programs dealing with solid earth physics. The Honors in Geophysics program (see §194.15.5) prepares students for graduate work in geophysics. The Specialization in Geophysics program prepares students with the conceptual and laboratory background required for employment at the BSc level in industry, government and technical schools. Also see §194.15 (Physics).

194.7.1 Professional Association

The practice of geophysics in Alberta is regulated by the Association of Professional Engineers, Geologists and Geophysicists of Alberta (APEGGA).

The right to practise geophysics in Alberta and accept professional responsibility for such work as well as the right to use the geophysicist title is limited to those registered with APEGGA.

Members of the Geophysics Student Society are automatically student members of APEGGA. Graduates are encouraged to join APEGGA as Geophysicists-in-training. Acceptable experience following graduation is necessary for registration as a Professional Geophysicist, the APEGGA membership category which confers the right to accept responsibility for geophysical work. Contact the APEGGA office for more information.

194.8 Immunology and Infection

194.8.1 Honors in Immunology and Infection

Continuation in the Honors in Immunology and Infection program requires successful completion of at least ★24 with a minimum 3.0 GPA in the previous Fall/Winter. In addition, graduation requires a minimum 3.0 GPA on the last ★40 credited to the degree.

Year 1

- BIOL 107, 108
- CHEM 101, 102, 261 (164)
- ★3 in MATH 113, 114 or 125
- STAT 141 or 151
- ★3 Approved Option
- ★6 Arts options (junior level ENGL or junior WRS recommended)

Year 2

- BIOCH 200
- BIOL 201, 207, 208
- CHEM 263
- IMIN 200
- MICRB 265
- ★6 Arts options

Year 3 and 4

- ★3 from BIOCH 430, GENET 304 or MICRB 316
- ★3 from BIOL 391, IMIN 391 or MMI 391
- IMIN 324, 371, 402
- MMI 351
- ZOOL 241 and 242; or PHYSL 210; or PHYSL 212 and 214
- ZOOL 352
- BIOL 499 or MMI 499
- ★6 Arts options
- ★9 from the List below (see Note 2)
- ★12 in approved options from the List below or approved by the Departmental Advisor

List

- BIOCH 320, 330, 430, 450
- CELL 300
- ENT 378
- GENET 304
- IMIN 372, 401, 405, 410
- MICRB 316, 410, 470
- MMI 352, 405, 415, 420, 427
- ZOOL 354, 452

Notes

1. GENET 270 is the prerequisite for GENET 304 and MICRB 316, while BIOCH 320 and 330 are prerequisites for BIOCH 430.
2. At least ★3 must be in a course with a laboratory component.
3. Normally only ★12 are allowed outside the Faculties of Science and Arts in the entire program. See §194 for courses outside the Faculty of Science that will be considered as Science options.
4. Credit in SCI 100 will be considered equivalent to BIOL 107, 108, CHEM 101, 102, 164, MATH 114 and ★9 approved options.

194.8.2 Specialization in Immunology and Infection

Continuation in the Specialization in Immunology and Infection program requires successful completion of at least ★24 with a minimum 2.3 GPA in the previous Fall/Winter. In addition, graduation requires a minimum 2.3 GPA on all courses credited to the degree.

Year 1

- BIOL 107, 108
- CHEM 101, 102
- CHEM 164 or 261
- MATH 113 or 114 or 125
- STAT 141 or 151
- ★3 Approved Option
- ★6 Arts options (junior level ENGL or junior WRS recommended)

Year 2

- BIOCH 200
- BIOL 201
- BIOL 207, 208
- CHEM 263
- IMIN 200
- MICRB 265
- ★3 from GENET 270 or BIOCH 330 (see Note 1)
- ★6 Arts options
Years 3 and 4
ZOOI 241 and 242 or PHYS 210 or 212 and 214
One of: BIOCH 430; GENET 304; MICRB 316
IMIN 324, 371, 452
MMI 351
ZOOI 352
★6 in approved options
★9 from the List below (see Note 2)
★21 in approved options from the List below or approved by an advisor (see Note 3)

List
BIOCH 320, 330, 430, 450
BIOL 391
CELL 300
ENT 376
GENET 304
IMIN 372, 391, 401, 405, 410
MICRB 316, 410, 470
MMI 352, 391, 405, 415, 426, 427
ZOOI 354, 452

Notes
(1) GENET 270 is the prerequisite for GENET 304, MICRB 316; while BIOCH 320 and 330 are prerequisites for BIOCH 430.
(2) At least ★3 must be in a course with a laboratory component.
(3) Normally only ★12 are allowed outside the Faculties of Science and Arts in the entire program. See §194 for courses outside the Faculty of Science that will be considered as Science options.
(4) Credit in SCI 100 is considered equivalent to BIOL 107, 108, CHEM 101, 102, 164, MATH 114 and □9 approved options.

194.9 Marine Science
Excellent opportunities for the study of marine biology and related subjects exist at Bamfield Marine Sciences Centre (BMSC) on Vancouver Island, BC. An academic program operates at the station, with summer and fall programs providing credit toward degrees in Science.
Prerequisite for all the MA SC courses is consent of the Department of Biological Sciences.
Students are expected to take a full course load of ★15 during the Fall Term. Courses run Monday to Saturday.
In addition to tuition paid to the University there are room and board fees payable to BMSC. Information concerning course prerequisites and application procedures for Marine Science may be obtained from BMSC, the Department of Biological Sciences or the Office of the Dean of Science.
Permission to register in these courses is available from the University Programs Coordinator of the Bamfield Marine Sciences Centre, to whom application should be made. See BMSC website bms.bc.ca/university.html.
See §231 Course Listings for descriptions of available Marine Science courses.
See also BMSC website bms.bc.ca/university.html for courses offered in the current year.

194.10 Mathematics
194.10.1 Honors in Mathematics
Continuation in the Honors in Mathematics program requires successful completion of at least ★24 with a minimum 3.0 GPA in the previous Fall/Winter. Graduation requires the successful completion of at least ★24 with a minimum 3.0 GPA in each Fall/Winter.

Year 1
MATH 117, 118, 127, 227
★6 in an approved Science option
★6 in approved Arts options
★6 in approved options

Year 2
MATH 217, 317, 328, either 326 or 334
★6 in approved Science options
★6 in approved Arts options
★6 in approved options

Years 3 and 4
★30 in MATH courses including MATH 326, 334, 411, 417, 418, 424, 446 or 447, 448, 496
★6 in approved Science options including ★3 in CMUPUT or STAT
★6 in approved Arts options
★18 in approved options

Notes
(1) Several of the required courses, including MATH 496 are only offered in alternate years.
(2) MATH 468 should be taken in third year.
(3) ECON 299, 386 or 387 may not be used for credit in any Honors degree offered by the Department of Mathematical and Statistical Sciences.
(4) SCI 100 will be considered equivalent to MATH 114, 115, CMUPUT 174 and ★18 Science options.

Honors in Applied Mathematics
Continuation in the Honors in Applied Mathematics program requires successful completion of at least ★24 with a minimum 3.0 GPA in the previous Fall/Winter. Graduation requires the successful completion of at least ★24 with a minimum 3.0 GPA in each Fall/Winter.

Year 1
MATH 117, 118, 127, 227
★6 in approved Science options
★6 in approved Arts options
★6 in approved options

Year 2
MATH 217, 317, 325 or 326 or 328, 334
★6 in approved Science options
★6 in approved Arts options
★6 in approved options

Years 3 and 4
★21 in Mathematics including MATH 337, 381, 411, 417, 436, 496
★6 in approved options at the 300-level in the field of application
★3 in an approved 300- or 400-level MATH or MA PH
★3 in CMUPUT or STAT option
★9 in approved Science options
★6 in approved Arts options
★12 in approved Science options

Notes
(1) Several of the required courses, including MATH 496, are only offered in alternate years.
(2) MATH 468 should normally be taken in third year.
(3) ECON 299, 386 or 387 may not be used for credit in any Honors degree offered by the Department of Mathematical and Statistical Sciences.
(4) SCI 100 will be considered equivalent to MATH 114, 115, CMUPUT 174 and ★18 Science options.

Minor in Statistics
The degrees Honors in Mathematics and Honors in Applied Mathematics can each be obtained with a minor in Statistics if the student’s program includes STAT 265, 266, 312, 371, 372, 378 and two of STAT 368, 441, 471, 472, 479.

Minor in Computing Science
The degrees Honors in Mathematics and Honors in Applied Mathematics can each be obtained with a minor in Computing Science. The student’s program must include CMUPUT 114 and 115 or 174 and 175, 201, 204, 272, 291, 304, 328 and at least an additional ★3 in Computing Science at the 300- or 400-level.

Honors in Mathematical Physics
See §194.15.7 for details.

Honors in Statistics
See §194.18.1 for details.

194.10.2 Specialization in Mathematics
Continuation in the Specialization in Mathematics program requires successful completion of at least ★24 with a minimum 2.3 GPA and a minimum 2.3 GPA on all MATH courses completed in the previous Fall/Winter. In addition, graduation requires a minimum 2.3 GPA and a minimum 2.3 GPA on all MATH courses taken in the last Fall/Winter of the degree, as well as a minimum 2.3 GPA on all courses credited towards the degree and a minimum 2.3 GPA on all MATH courses credited towards the degree.

The program must contain the following courses. It is recommended that these courses be taken in the years indicated.

Year 1
MATH 114, 115
MATH 125
CMUPUT 174 and 175
★6 in junior ENGL
★3 in a Science option
★6 in options
194.10.3 Specialization in Computational Science (Mathematics)

Continuation in the Specialization in Computational Science (Mathematics) program requires successful completion of at least 24 with a minimum 2.3 GPA and a minimum 2.3 GPA on all CMPUT, MATH and STAT courses completed in the previous Fall/Winter. In addition, graduation requires a minimum 2.3 GPA and a minimum 2.3 GPA on all courses credited towards the degree. The program must contain the following courses. It is recommended that these courses be taken in the years indicated.

Year 1
- CMPUT 174 and 175
- MATH 114 and 115 or 117 and 118
- MATH 125
  - 6 in a junior ENGL
  - 9 in options

Year 2
- CMPUT 201, 204, 272
- MATH 214 and 215, or 217 and 317
- MATH 222, 225
- STAT 221
  - 6 in options

Year 3
- CMPUT 229, 291
- MATH 228, 381
- STAT 222
  - 3 in MATH or STAT
  - 3 in Arts
  - 9 in options

Year 4
- 6 in CMPUT at 300- or 400-level
- 6 in Science options
- 3 in options

Notes
1. Each student's program must have the approval of the Department of Mathematical and Statistical Sciences.
2. A student must take at least 6 in MATH in each Fall/Winter of the program.
3. A corresponding Honors MATH course can be substituted for any MATH course listed. For example, MATH 117 can be substituted for MATH 114.
4. Credit will not be given for ECON 299, 386 or 387.
5. Credit for SCI 100 will be considered equivalent to MATH 114, 115, CMPUT 174 and 18 Science options.

194.10.4 Mathematics and Economics

The Faculty of Science offers an Honors degree and a Specialization degree in Mathematics and Economics.

Honors in Mathematics and Economics

Continuation in the Honors in Mathematics and Economics program requires successful completion of at least 24 with a minimum 3.0 GPA in the previous Fall/Winter. Graduation requires the successful completion of at least 24 with a minimum 3.0 GPA in each Fall/Winter.

Year 1
- ECON 101, 102
- MATH 117, 118, 127, 227
- 6 junior ENGL or 3 junior ENGL and 3 junior WRS
- 6 in approved Science options

Year 2
- ECON 281, 282
- MATH 217, 317, 325 or 326 or 328
- STAT 265, 266
  - 3 in approved Science options
  - 6 in approved options

Years 3 and 4
- ECON 384, 385, 399, 481, 482, 497
- 6 in Economics options
- 6 from MATH 334, 373, 381, 411, 417, 421, 422, 481
- 12 in MATH or STAT courses
- 6 in approved Science options
- 6 in approved options

Notes
1. Credit is not granted for ECON 299, 386 or 387.
2. Credit in SCI 100 will be considered equivalent to MATH 114, 115, 15 Science options and 6 approved options.

Specialization in Mathematics and Economics

Continuation in the Specialization in Mathematics and Economics program requires successful completion of at least 24 with a minimum 2.3 GPA and a minimum 2.3 GPA on all ECON, MATH and STAT courses completed in the previous Fall/Winter. In addition, graduation requires a minimum 2.3 GPA and a minimum 2.3 GPA on all ECON, MATH and STAT courses taken in the last Fall/Winter of the degree, as well as a minimum 2.3 GPA on all courses credited towards the degree and a minimum 2.3 GPA on all ECON, MATH and STAT courses credited towards the degree.

The program must contain the following courses. It is recommended that these courses be taken in the years indicated.

Year 1
- ECON 101, 102
- MATH 114, 115, 125
- STAT 151
  - 6 junior ENGL or 3 junior ENGL and 3 junior WRS
  - 3 in a Science option
  - 3 in an option

Year 2
- ECON 281, 282
- MATH 217, 317, 325 or 326 or 328
- STAT 265, 266
  - 3 in approved Science options
  - 6 in approved options

Years 3 and 4
- ECON 384, 385, 399, 481, 482, 497
- 6 in Economics options
- 6 from MATH 334, 373, 381, 411, 417, 421, 422, 481
- 12 in MATH or STAT courses
- 6 in approved Science options
- 6 in approved options

Notes
1. Each student's program must have the approval of the Department of Mathematical and Statistical Sciences.
2. Credit will not be given for ECON 299, 386 or 387.
3. Credit in SCI 100 will be considered equivalent to MATH 114, 115 and 18 options.

3. Notes
(1) Each student's program must have the approval of the Department of Mathematical and Statistical Sciences and must include:
   a. At least 63 in Science
   b. At least 45 in MATH and STAT with at least 12 of these at the 300-level or higher
   c. CMPUT 174 and 175
   d. At least 36 in ECON, including 12 chosen from ECON 384, 385, 399, or courses at the 400-level or higher.
194.10.5 Specialization in Mathematics and Finance

Continuation in the Specialization in Mathematics and Finance program requires successful completion of at least 24 credits with a minimum 2.3 GPA and a minimum 2.3 GPA on all ACCTG, ECON, FIN, MATH, MG TSC, and OM and STAT courses completed in the previous Fall/Winter term. In addition, graduation requires a minimum 2.3 GPA and a minimum 2.3 GPA on all ACCTG, ECON, FIN, MATH, MG TSC, OM, and STAT courses taken in the last Fall/Winter of the degree, as well as a minimum of 2.3 GPA on all courses credited towards the degree and a minimum 2.3 GPA on all ECON, FIN, MATH, MG TSC, OM, and STAT courses credited towards the degree.

The program must contain the following courses. It is recommended that these courses be taken in the years indicated.

### Year 1

- CMPT 174 and 175
- ECON 101, 102
- MATH 114, 115, 125
- STAT 151

#### Notes

1. Each student’s program must have the approval of the Department of Mathematical and Statistical Sciences and must include:
   a. ★18 in Arts courses
   b. ★12 in Science courses
   c. ★23 in ACCTG, ECON, FIN, MG TSC or OM, including ★9 in 400-level FIN

2. Approved ACCTG, ECON, FIN, and MG TSC options include ACCTG 322, 412, 432, 443; ECON 282, 384, 385, 399, 408, 481, 482; FIN 412, 413, 414, 416, 422, 434, 442; MG TSC 404, 405. Credit will not be given for ECON 299, 386 or 387.

3. Recommended Science options include: MATH 334, 337, 381, 432, 481; STAT 354, 466, 471, 472, 479.

4. A corresponding Honors MATH course can be substituted for any MATH course listed. For example, MATH 117 can be substituted for MATH 114.

5. Credit in SCI 100 will be considered equivalent to MATH 114, 115 and ★18 options.

### Year 2

- ACCTG 311
- ECON 281
- MATH 214, 215
- MATH 225, 253
- OM 352
- STAT 265, 266
- ★3 in options

### Year 3

- FIN 301
- STAT 353
- MATH 356, 357
- ★3 in a FIN option
- ★15 in options

### Year 4

- MATH 314, 414
- MATH 373
- ECON 399 or STAT 378
- ★6 in FIN options
- ★12 in options

### Notes

1. Each student’s program must have the approval of the Department of Mathematical and Statistical Sciences and must include:
   a. ★33 in Arts courses
   b. ★33 in Science courses
   c. ★18 in Science courses

2. Approved ACCTG, ECON, FIN, and MG TSC options include ACCTG 322, 412, 432, 443; ECON 282, 384, 385, 399, 408, 481, 482; FIN 412, 413, 414, 416, 422, 434, 442; MG TSC 404, 405. Credit will not be given for ECON 299, 386 or 387.

3. Recommended Science options include: MATH 334, 337, 381, 432, 481; STAT 354, 466, 471, 472, 479.

4. A corresponding Honors MATH course can be substituted for any MATH course listed. For example, MATH 117 can be substituted for MATH 114.

5. Credit in SCI 100 will be considered equivalent to MATH 114, 115 and ★18 options.

194.10.6 Industrial Internship Program

An Industrial Internship Program, similar to a co-op program, is offered to students in the Specialization or Honors programs in Mathematical and Statistical Sciences (see §192.11 for guidelines to the program). The Industrial Internship designation will appear on the degree parchments of students who have participated in the program.

Students approved to enter this stream register for continuous sequence of Science Work Experience courses (WKEXP 955, 956, 957, 958), starting in May, September or January. During the program, students are considered full-time students of the University. Work experience courses have no weight and are graded credit/no credit, and recorded on the student’s transcript. The Industrial Internship Program Advisor maintains contact at approximately three-month intervals with the student and the person designated by the employer to be responsible for the student’s progress. This arrangement ensures satisfaction on all sides. If the review shows the situation is not satisfactory, the internship may be terminated and the student would then return to classes at the next available opportunity. The graduation requirements for the Industrial Internship program designation include successful completion of at least WKEXP 955 and 956 plus MATH or STAT 400. MATH or STAT 400 must be taken in the first term immediately following completion of the WKEXP period. If required by the employer, the student’s written report and oral presentation in MATH or STAT 400 may be classified confidential. The employer also assesses the student’s performance during the work term. Based on the student’s written report and oral presentation, and the report from the employer, students are awarded a grade in MATH or STAT 400. Neither MATH 400 nor STAT 400 can be used for credit toward a Specialization or Honors degree offered by the Department of Mathematical and Statistical Sciences.

Interested students should see the Industrial Internship Advisor in the Department of Mathematical and Statistical Sciences for more information.

194.11 Neuroscience

194.11.1 Honors in Neuroscience

The Honors program in Neuroscience is an interdisciplinary program coordinated by the Centre for Neuroscience and administered by the Faculty of Science. This program is for students planning a career in Neuroscience.

For admission to the Honors in Neuroscience program see Admission Chart 5, §15.15.

Neuroscience is a broadly based discipline covering all aspects of brain function. Some major areas are brain development, nerve cells and synapses, sensation and perception, learning and memory, control of movement, animal behavior, cognitive psychology, and disorders of the nervous system.

The Honors program introduces the major areas of Neuroscience and allows students to explore topics of interest in their final year.

Continuation in the Honors in Neuroscience program requires successful completion of ★30 with a minimum 3.3 GPA in the previous Fall/Winter term. In addition, graduation requires a minimum 3.3 GPA on the last ★60 credited to the degree.

A full course load of ★30 per academic year must be maintained throughout each year of the Honors program. Courses cannot be deferred to the Spring/Summer Terms without prior permission of the program coordinator.

### Year 1

- BIOL 107
- CHEM 101, 261
- ★6 junior ENGL or ★3 junior ENGL and ★3 junior WRS
- MATH 113 or 114
- PHYS 124, 126
- PSYCO 104

### Year 2

- BIOCH 200
- BIOL 207
- CHEM 263
- NEURO 210
- PHYS 212, 214 (Students must be manually enrolled in both courses by the Department of Physiology. Registration via Bear Tracks is not possible.)
- PSYCO 275
- ★6 in Science options
- ★3 in Arts options

### Year 3

- NEURO 375 or PSYCO 475
- PMCOL 372
- PHYS 371
- One of PSYCO 371, 375, 377; GENET 270, 390; ZOOL 342, 344
- ★12 in approved options
- ★6 in Arts options

### Year 4

- NEURO 450
- NEURO 451 and/or 452
- ★6 chosen from the following courses covering topics in Cellular and Molecular Neuroscience: NEURO 410; PHYSL 444; PMCOL 412; PSYCO 478
- ★6 chosen from the following courses covering topics in Systems and Cognitive Neuroscience: NEURO 443, 472, 496; PSYCI 511.
★6 (if NEURO 451 and 452 are both taken) or ★9 (if one of NEURO 451 or 452 is taken) of Science options chosen from the following: PMCOL 512, PHYSL 401, 403, 405, 527; ZOOL 442. Other choices require approval of the Centre for Neuroscience.
★3 in Arts options

Notes
(1) Each student’s program must include:
   a. a minimum of ★18 in Arts courses;
   b. a minimum of ★90 in Science courses;
   c. no more than ★12 in Outside (non-Science, non-Arts) courses;
   d. no more than ★62 at the junior level.

(2) Each student’s program must have the approval of the Centre for Neuroscience.

(3) Approved Science options in Years 1–3 may be chosen from the following:
   BIOCH 310, 320, 330, 410, 430; BIOL 108, 201, 315, 380; CELL 300, 301, 402, 415, 445; CHEM 102, 211, 213, 313; CMPIUT 174, 175, 201, 204, 299, 329, 386; EAS 100, 105, 201, 207, 230; ENT 220, 321; GENET 270, 275, 301, 302, 304, 390; IMIN 200, 371, 452; MATH 214; MICRB 265, 311; PMCOL 201, 305, 343, 344, 415; PHYS 208, 211, 234, 281; PHYSL 401, 402, 403, 404; PSYCO 267, 281, 354, 365, 371, 372, 375, 377, 381, 385, 458, 485; STAT 221, 222, 252, 337; ZOOL 342, 343, 344, 370.

(4) Suggested Arts options include the following: ANTHR 230, 332; CLASS 110, 254, 258; C LIT 342; HIST 391, 396, 397, 398, 399; PHILO 205, 217, 265, 317, 366, 375, 386; PSYCO 105, 212, 233, 258, 339, 350, 357; WRITE 298. Any course from ENGL, FREN, GERM, ITAL, JAPAN, SPAN, RUSS.

Notes
(1) PALEO 414 is offered in alternate years but must be taken in Year 3 or 4. Approved Science options: BIOL 315, 361, 364; EAS 207, 224, 250, 460, 462, 465; ENT 220; ZOOL 405, 406, 407, 408, 427. Approved Arts options: ANTHR 391; CHRTC 350, 451; PHILO 265, 317. For information regarding additional approved options, please consult your Department advisor.
(2) For students entering Paleontology Honors, credit in SCI 100 will be considered equivalent to BIOL 107, 108, CHEM 101, EAS 100, 105, MATH 113, 115, PHYS 144 and 146.

194.13.2 Specialization in Paleontology
Continuation in the Specialization in Paleontology program requires successful completion of at least ★18 with a minimum 2.3 GPA in the previous Fall/Winter. In addition, graduation requires a minimum 2.3 GPA on all courses credited to the degree.

Year 1
BIOL 107 and 108
CHEM 101 or 164
EAS 100, 105 and 110
★6 junior ENGL or ★3 junior ENGL and ★3 junior WRS
MATH 113 or 114 or 125
STAT 151

194.12 Northern Studies

Students interested in Canada’s North and especially those planning a career in northern Canada should include within their curriculum some of the following: ANTHR 246, 340, 355, 445, and 446; BIOL 366; CANST 302 and 408; EAS 453 and 455; ENCS 201; INT D 443; POL S 432. These courses may be taken within the framework of existing General, Specialization, or Honors programs in the Faculty of Science. Students interested in Northern Studies should mention this to their faculty advisor.

194.13 Paleontology

Paleontology is a basic science concerned with the evolutionary history of life. Students are required to have a broad knowledge base of biological and geological knowledge. Areas of detailed knowledge will include vertebrate and invertebrate paleobiology, palaeobotany, evolutionary biology, systematics, functional morphology, sedimentology, stratigraphy, and plate tectonics. Paleontologists usually hold advanced research degrees and work as research scientists and teachers in universities, museums, and industrial laboratories.

194.13.1 Honors in Paleontology

The Honors program is administered by the Departments of Earth and Atmospheric Sciences and Biological Sciences. The curriculum is drawn from both departments enabling students to develop a broad knowledge base that will prepare them for later entry into more specialized postgraduate studies in their selected paleontological discipline. Interested students should consult with an Honors program advisor to prepare their programs.

Continuation in the Honors in Paleontology program requires successful completion of at least ★24 with a minimum 3.0 GPA in the previous Fall/Winter. In addition, graduation requires a minimum 3.0 GPA on the last ★60 credited to the degree.

Year 1
BIOL 107 and 108
CHEM 101 or 164
EAS 100, 105 and 110
★6 junior ENGL or ★3 junior ENGL and ★3 junior WRS
MATH 113 or 114 or 125
STAT 151

Year 2
ANTHR 209
BIOL 207 and 208
BOT 210
EAS 222, 230, 233 and 234
★3 approved Arts option
★3 approved Science option

Year 3
BIOL 321 and 335
EAS 338
PALEO 414 or BOT 411
ZOOL 224, 250 and 325
★6 approved Arts options
★3 approved Science option

Year 4
ANTHR 390 and 391
BIOL 499 or EAS 426
PALEO 400, 418 and 419
PALEO 414 or BOT 411
★6 approved Science options

Notes
(1) PALEO 414 is offered in alternate years but must be taken in Year 3 or 4. Approved Science options: BIOL 315, 361, 364; EAS 207, 224, 250, 460, 462, 465; ENT 220; ZOOL 405, 406, 407, 408, 427. Approved Arts options: ANTHR 391; CHRTC 350, 451; PHILO 265, 317. For information regarding additional approved options, please consult your Department advisor.
(2) For students entering Paleontology Honors, credit in SCI 100 will be considered equivalent to BIOL 107, 108, CHEM 101, EAS 100, 105, MATH 113, 115, PHYS 144 and 146.
194.14 Pharmacology

194.14.1 Honors in Pharmacology

The program leading to an Honors degree in Pharmacology prepares students for advanced study leading to academic or research careers.

Continuation and graduation in the Honors in Pharmacology program requires successful completion of 30 credits with a minimum 3.3 GPA, a minimum 3.3 GPA on all Science courses taken and a minimum grade of B+ in each PMCOL course taken in each previous Fall/Winter.

Year 1

BIOC 100, 108
CHEM 101, 102, 164 or 261
★6 in Arts options ENGL recommended
STAT 141 or 151
★6 in Science options from BIOC, BIOL, CHEM, GENET, MATH, MICRB, PHYS, PHYSL, PMCOL, STAT or ZOOL

Year 2

BIOC 200
CHEM 211, 213, 263
PHYS 210
PMCOL 201, 202
★6 in Arts options

Year 3

PMCOL 303, 305, 343, 344
BIOC 320, 330
★3 in Science options as indicated in Year 1
★3 in Arts options
★6 in approved options

Year 4

PMCOL 337, 498
★3 in Science option as indicated in Year 1
★15 from PMCOL 401, 402, 412, 415, 416, 425, 442, 450, 475

Notes

(1) Students must consult the Chair of the Department or designee for approval of the selection of options. Students will not be permitted to take 400-level pharmacology courses unless all prerequisites have been met.

(2) Credit in SCI 100 will be considered equivalent to BIOC 107, 108, CHEM 101, 102, 164, MATH 114, 115 and ★6 Science options.

Recommended Science options: BIOC 310, 401, 410, 420, 430, 441, 450, CHEM 313, 419, GENET 270, 301, 304, 390, 408, MATH 113 or 114 and 115, PHYS 372, 401, 402, 403, 404, PMCOL 371, STAT 252.

194.14.2 Specialization in Pharmacology

The program leading to a Specialization degree in Pharmacology is for students who want to pursue further studies in the health sciences and those who want to prepare for a career in the Pharmaceutical industry. Although not as rigorous as an Honors program, the Specialization program is a solid background for advanced study leading to a career in academia or research.

Continuation and graduation in the Specialization in Pharmacology program requires successful completion of at least 24 credits with a minimum 2.7 GPA, a minimum 2.7 GPA on all Science courses taken and a minimum 2.7 GPA on all PMCOL courses taken in each previous Fall/Winter.

Year 1

BIOC 107, 108
CHEM 101, 102, 164 or 261
★6 in Arts options ENGL recommended
STAT 141 or 151
★6 in Science options from BIOC, BIOL, CHEM, GENET, MATH, MICRB, PHYS, PHYSL, PMCOL, STAT or ZOOL

Year 2

BIOC 200
CHEM 211, 213, 263
PHYS 210
PMCOL 201, 202
★6 in Arts options

Year 3

PMCOL 303, 305, 343, 344
BIOC 320, 330
★3 in Science options as indicated in Year 1
★3 in Arts options
★6 in approved options

Year 4

PMCOL 337
★15 from PMCOL 401, 402, 412, 415, 416, 425, 442, 450, 475
★3 in Science options as indicated in Year 1
★3 in Arts options
★6 in approved options

Notes

(1) Students must consult the Chair of the Department or designee for approval of the selection of options. Students will not be permitted to take 400-level pharmacology courses unless all prerequisites have been met.

(2) Credit in SCI 100 will be considered equivalent to BIOL 107, 108, CHEM 101, 102, 164, MATH 114, 115 and ★6 Science options.

Recommended Science options: BIOC 310, 401, 410, 420, 430, 441, 450, CHEM 313, 419, GENET 270, 301, 304, 390, 408, MATH 113, or 114 and 115, PHYS 372, 401, 402, 403, 404, PMCOL 371, STAT 252.

Note: the following courses may be used by students in the Faculty of Science as science courses: PMCOL 201, 202, 303, 305, 337, 343, 344, 371, 401, 402, 412, 415, 416, 425, 442, 450, 475 and 498.

194.15 Physics

The Honors Programs offered by the Department of Physics provide a comprehensive education for students planning advanced degrees and a research or academic career.

Notes

(1) Students interested in the Engineering-Physics program should consult 982.8 of the Faculty of Engineering section.

(2) Honors and Specialization Physics students must consult an advisor in the Department of Physics regarding their programs. Note to second-, third- and fourth-year students: Not all 200-, 300- and 400-level Physics and Geophysics courses are offered every year.

194.15.1 Honors in Physics

Continuation in the Honors in Physics program requires successful completion of at least 24 credits with a minimum 3.0 GPA in the previous Fall/Winter. In addition, graduation requires a minimum 3.0 GPA on the last 90 credits to the degree.

Notes

(1) By the end of their programs, students must have taken ★18 of Arts options.

(2) ★PH Pool A options: All 400-level ASTRO; PHYS 415, 485, 495.

(3) ★PH Pool B options: MA PH 451; all 400-level MATH; PHYS 458, 467.

(4) ★PH Pool C options: ASTRO 320, 322; EAS 370, 371, 373; all 300- and 400-level GEOPH; all 400-level PHYS; all courses in Pool A and Pool B. Other courses may be taken by prior consent of the Department of Physics.

(5) Credit in SCI 100 will be considered equivalent to MATH 114, 115, PHYS 144, 146 and ★6 Science options.

194.15.2 Specialization in Physics

Continuation in the Specialization in Physics program requires successful completion of at least 24 credits with a minimum 2.3 GPA in the previous Fall/Winter. In addition, graduation requires a minimum 2.3 GPA on the last 90 credits to the degree.
Notes

(1) By the end of their programs, students must have taken ★18 of Arts options.
(2) PS Senior Science options: Any 200- or higher level course offered by the Faculty of Science.
(3) PS Pool A: PHYS 301, 362, 364, all 300- and 400-level ASTRO, GEOPH, MA PH, and MATH courses; all 400-level PHYS courses. Other courses may be taken with prior consent of Department.
(4) PS Pool B: all 400-level ASTRO, GEOPH, MA PH, and PHYS. Other courses may be taken with prior consent of Department.
(5) Credit in SCI 100 is considered equivalent to MATH 114, 115, PHYS 144, 146 and ★6 Science options.

194.15.4 Specialization in Astrophysics
Continuation in the Specialization in Astrophysics program requires successful completion of at least ★24 with a minimum 2.3 GPA in the previous Fall/Winter. In addition, graduation requires a minimum 2.3 GPA on the last ★90 credited to the degree.

Notes

(1) Students must take a total of ★18 of Arts options.

(2) AS Senior Science options: Any 200-, 300-, or 400-level course offered by the Faculty of Science.
(3) AS Pool options: PHYS 301, 362, 364, 397; all 300- and 400-level GEOPH, MA PH, MATH, and PHYS courses; all 400- level ASTRO courses. Other courses may be taken with prior consent of Department.
(4) Credit in SCI 100 is considered equivalent to MATH 114, 115, PHYS 144, 146 and ★6 Science options.

194.15.5 Honors in Geophysics
Continuation in the Honors in Geophysics program requires successful completion of at least ★24 with a minimum 3.0 GPA in the previous Fall/Winter. In addition, graduation requires a minimum 3.0 GPA on the last ★90 credited to the degree.

Notes

(1) In addition to the specific courses listed in the program, students must take ★15 in approved Science options and ★12 in Arts options.
(2) Suggested approved Science options: ASTRO 429; EAS 221, 224, 302, 323, 324, 422, 424, 425, 430, 433; GEOPH 223, 332, 431, 446; MIN E 323; PET E 365, 473, 477; PHYS 308, 310 (recommended), 499; STAT 141 (or 151). Students in Geophysics will not have the formal prerequisites for many of the EAS, MIN E, and PET E courses, and must get prior approval to register in those courses from the department offering the particular course.
(3) Not all 300-level and 400-level courses are offered every year. Students must consult the Department of Physics for approval of third- and fourth-year programs.
(4) Students entering this program after first year may take GEOPH 210 in lieu of GEOPH 110. However, students will not receive credit for both GEOPH 110 and 210.
(5) Credit in SCI 100 will be considered equivalent to CHEM 101, 102, EAS 105, MATH 114, 115, PHYS 144 and 146.
194.15.6 Specialization in Geophysics

Continuation in the Specialization in Geophysics program requires successful completion of at least ★24 with a minimum 2.3 GPA in the previous Fall/Winter. In addition, graduation requires a minimum 2.3 GPA on the last ★90 credited to the degree.

Notes
(1) In addition to the specific courses listed in the program, students must take a minimum of ★3 from specialization Pool B, ★6 from specialization Pools A or B, ★15 in approved Science options and ★12 in Arts options.
(2) Specialization Pool A courses: ASTRO 429; EAS 221, 320, 323, 324, 425, 430, 433; GEOPH 332, 421, 431, 440; MIN E 323; PET E 365, 473, 477; PHYS 308, 499. Students in Geophysics will not have the formal prerequisites for many of the EAS, MIN E, and PET E courses, and must get prior approval to register in those courses from the department offering the particular course.
GEOPH courses are recommended.
(3) Specialization Pool B courses: EAS 224, GEOPH 223, PHYS 261, 310 (recommended), 362, 420, 467, STAT 141 (or 151).
(4) Not all 300-level and 400-level courses are offered every year. Students must consult the Department of Physics for approval of third- and fourth-year programs.
(5) Students entering this program after first year may take GEOPH 210 in lieu of GEOPH 110. However, students will not receive credit for both GEOPH 110 and 210.
(6) Credit in SCI 100 will be considered equivalent to CHEM 101, 102, EAS 105, PHYS 114, 115, PHYS 144 and 146.

Year 1

CHEM 101, 102 GEPH 110
MATH 113 (or 114 or 117), 115 (or 118), 125
PHYS 144, 146 ★6 in Arts options

Year 2

EAS 105 EAS 233
MATH 214 (or 217), 215 (or 317)
PHYS 234, 244, 271, 281, 295 ★3 in an Arts option (see Note 1 above)

Year 3

EAS 222 GEOPH 325, 326
MATH 311 (or equivalent), 334, (or 201 or equivalent), 337 (or 300 or equivalent)
PHYS 381 ★9 in approved Science options or Specialization Pools A or B courses (see Notes 1, 2 and 3)

Year 4

GEOPH 424, 426, 436, 438 ★15 in approved Science options or Specialization Pools A or B courses (see Notes 1, 2 and 3) ★3 in Arts option (see Note 1 above)

194.15.7 Honors in Mathematical Physics

Continuation in the Honors in Mathematical Physics program requires successful completion of at least ★24 with a minimum 3.0 GPA in the previous Fall/Winter. In addition, graduation requires a minimum 3.0 GPA on the last ★90 credited to the degree.

Notes
(1) MPH Senior Science options: any 300- or 400-level course offered by the Faculty of Science.
(2) MPH Pool courses: PHYS 362, 397; all 300- and 400-level ASTRO and GEOPH courses; all 400-level MA PH, MATH and PHYS courses. Other courses may be taken with prior consent of Department.
(3) Credit in SCI 100 will be considered equivalent to MATH 114, 115, PHYS 144, 146 and ★6 Science options.

Year 1

MATH 117, 118, 125 or 127, 225 or 227 PHYS 144, 146 ★6 in Science options ★6 in Arts options

Year 2

MATH 217, 317 MATH 334
PHYS 234, 244, 271, 281, 295 ★6 in Arts option

194.15.8 Industrial Internship Program

An Industrial Internship Program, similar to a co-op program, is offered to students in the Specialization or Honors programs in Physics (see §192.11 for guidelines to the program). The Industrial Internship designation will appear on the degree parchments of students who have participated in the program.

Students approved to enter this stream register for a continuous sequence of Science Work Experience courses (WKEXP 955, 956, 957, 958), starting in May, September or January. During the program, students are considered full-time students of the University. Work experience courses have no weight and are graded credit/no credit, and recorded on the student’s transcript. The Industrial Internship Program Advisor maintains contact at approximately three-month intervals with the student and the person designated by the employer to be responsible for the student’s progress. This arrangement ensures satisfaction on all sides. If the review shows the situation is not satisfactory, the internship may be terminated and the student would then return to classes at the next available opportunity. The graduation requirements for the Industrial Internship program designation include successful completion of at least WKEXP 955 and 956 plus PHYS 400. PHYS 400 must be taken in the first term immediately following completion of the WKEXP period. If required by the employer, the student’s written report and oral presentation in PHYS 400 may be classified confidential. The employer also assesses the student’s performance during the work term. Based on the student’s written report and oral presentation, and the report from the employer, students are awarded a grade in PHYS 400.

Interested students should see the Industrial Internship Advisor in the Department of Physics for more information.

194.16 Physiology

194.16.1 Honors in Physiology

Honors in Physiology is offered by the Department of Physiology in the Faculty of Medicine and Dentistry through the Faculty of Science.

The Honors program is designed to prepare students for advanced study leading to careers in academia, industrial research, or for entry into health-related professions. A choice of courses is available for students with interests in particular branches of the life sciences (e.g., cell and molecular biology, endocrinology, cardiovascular physiology, and neurobiology).

Continuation and graduation in the Honors Physiology program requires successful completion of ★30 with a minimum 3.3 GPA, in the previous Fall/Winter. In addition, second-year students must present a minimum grade of B in PHYSL 212 and PHYSL 214 in order to continue, whereas students who are eligible to enter the program in their third year and have credit in PHYSL 210 must present a minimum grade of A- in order to be admitted. Students must consult the Departmental Advisor prior to registration in each year of the program.

The course requirements for the program are as follows:

Year 1

BICOL 107
CHEM 101, 102, 164 (or 261), 263 (see Note 2)
STAT 141 or 151 ★6 junior ENGL or ★3 junior ENGL and ★3 junior WRS ★6 in approved options

Year 2

BIOCH 200
BICL 201, 207
BIOL 124, 128
PHYSL 212, 214 PMCOL 201, 202 ★3 in approved options

Year 3

BIOCH 320, 330, 401
PHYSL 372, 401, 403
PMCOL 371 ★6 in approved options
Year 4
PHYSL 402, 404, 465, 466 (or 467 in place of 465/468)
★12 from CELL 444, NEURO 443, 496; PHYSL 400, 405, 444, 501, 513; PHYSL 545 or BIOL 545, PMCOL 415, 515, or another 400- or 500-level Science course with consent of the Department
★6 in approved options

Notes
(1) The program must consist of a minimum of ★90 in Science, a minimum of ★18 in Arts, and no more than ★12 in non-Arts/non-Science options and no more than ★42 in junior (100-level) courses.
(2) Honors students in the first year of the program who are unable to take CHEM 263 may take 265 in second year.
(3) All options must be approved by Departmental Advisor.
(4) Credit in SCI 100 will be considered equivalent to BIOL 107, 108, CHEM 101, 102, 164, PHYS 144, 146 and ★6 approved Science options.

194.17 Psychology

194.17.1 Honors in Psychology

The Department offers courses leading to the degrees of BSc and BA with Honors in Psychology. Students wishing to emphasize the physical, biological, and mathematical sciences should enrol in the BSc program; those wishing to emphasize the humanities and social sciences should enrol in the BA program. Either program is appropriate for students considering postgraduate training in psychology or in other fields that require these research skills.

Admission into the Honors program is permitted only at the end of the second year (after completion of a minimum of ★48). Final acceptance into the Honors program is dependent upon obtaining approval from a potential research supervisor prior to August 7.

Continuation in and graduation from the Honors Psychology program require successful completion of ★24 with a minimum GPA of 3.3 in each Fall/Winter. Exceptions to this requirement must be approved by both the Department of Psychology and the Faculty of Science. In addition, students must present a minimum of ★84 (but no more than ★60) in Psychology courses and a minimum of ★72 in Science courses must be taken. A student’s program of courses must be approved in advance each year by the Honors Psychology advisor.

Notes
(1) To fulfill the degree requirements, students must complete a minimum of ★36 in Psychology courses. At least ★1 must be at the 400-level. A minimum of ★72 in Science is required (see §193.2).
(2) Credit in SCI 100 will be considered equivalent to BIOL 107, 108, CHEM 101, 102, 164, PHYS 144, 146 and ★6 approved options.

194.17.3 Industrial Internship Program

An Industrial Internship Program, similar to a co-op program, is offered to students in the Specialization or Honors programs in Psychology (see §192.11 for guidelines to the program). The Industrial Internship designation will appear on the degree parchments of students who have participated in the program.

Students who have completed the third year of their program and who are approved to enter this stream register for a continuous sequence of Science Psychology Work Experience courses (WKEXP 931, 932, 933, 934) starting in May or September. During the program, students are considered full-time students of the University. Work experience courses have no weight and are graded credit/no credit, and recorded on the student’s transcript; students are not permitted to register in any academic courses during the Industrial Internship Program.

The Industrial Internship Program Advisor maintains contact at approximately three-month intervals with the student and the person designated by the employer to be responsible for the student’s progress. This arrangement ensures satisfaction on all sides. If the review shows the situation is not satisfactory, the internship may be terminated and the student would then return to classes at the next available opportunity. The graduation requirements for the Industrial Internship program designation include successful completion of at least WKEXP 931 and 932 plus PSYCO 410. PSYCO 410 must be taken in the first term immediately following completion of the WKEXP period. If required by the employer, the student’s written report and oral presentation in PSYCO 410 may be classified confidential. The employer also assesses the student’s performance during the work term. Based on the student’s written report and oral presentation, and the report from the employer, students are awarded a grade in PSYCO 410.

Interested students should see the Industrial Internship Advisor in the Department of Psychology for more information.

194.18 Statistics

194.18.1 Honors in Statistics

Continuation in the Honors Statistics program requires successful completion of at least ★24 with a minimum 3.0 GPA in the previous Fall/Winter. In addition, graduation requires a minimum 3.3 GPA on all MATH and STAT...
The program must contain the following courses, which should be taken in the years indicated:

### Year 1

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMPUT 174 and 175</td>
<td>Computing Science</td>
</tr>
<tr>
<td>MATH 125 (or 127)</td>
<td>Mathematics</td>
</tr>
<tr>
<td>MATH 114 (or 117), 115 (or 118)</td>
<td>Mathematics</td>
</tr>
<tr>
<td>STAT 151</td>
<td>Statistics</td>
</tr>
</tbody>
</table>

**Notes**
- At least 6 in approved Science options
- 3 in approved Science options

### Year 2

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 214 (or 217), 215 (or 317), 225 (or 227)</td>
<td>Mathematics</td>
</tr>
<tr>
<td>STAT 265, 266</td>
<td>Statistics</td>
</tr>
</tbody>
</table>

**Notes**
- 6 in approved Science options
- 3 in approved Science options

### Years 3 and 4

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 314 or 417</td>
<td>Mathematics</td>
</tr>
<tr>
<td>MATH 414 or 418</td>
<td>Mathematics</td>
</tr>
<tr>
<td>STAT 312, 371, 372, 378, 471</td>
<td>Statistics</td>
</tr>
</tbody>
</table>

**Notes**
- 6 of STAT 335, 361, 368, 377
- 9 of STAT 432, 441, 451, 454, 472, 479
- 6 in approved Science options
- 18 in approved Science options

### Honors in Mathematics

See §193.1 for details.

#### 194.18.2 Specialization in Statistics

The Specialization program in Statistics is for students interested in applying Statistics to a second discipline. Students in this program must choose one distinct field of application. Recommended fields of application are Agriculture, Chemical Engineering, Computing Science, Economics, Education, Genetics, Health Sciences Administration, Pharmacology, Political Science, Psychology and Sociology. Students should plan to take the proper prerequisites early in the program.

- Credit will not be granted for ECON 299, 386 or 387.
- Credit in SCI 100 will be considered equivalent to CMPUT 174, MATH 114, 115 and 18 approved Science options.

**Notes**
- At least 9 in approved options in one distinct field of application must be taken at the 300-level or higher. Examples of fields of applications are Biology, Business, Computing Science, Economics, Engineering, Pharmacology, Political Science, Psychology and Sociology. Students should plan to take the proper prerequisites early in the program.
- Credit will not be granted for ECON 299, 386 or 387.
- Credit in SCI 100 will be considered equivalent to CMPUT 174, MATH 114, 115 and 18 approved Science options.

### 195 Details of Courses

#### 195.1 Course Listings

Science courses can be found in §231, Course Listings, under the following subject headings:
- Astronomy (ASTRO)
- Biochemistry (taught by the Faculty of Medicine and Dentistry) (BIOCH)
- Biochimie (taught by the Faculté Saint-Jean) (BIOCM)
- Biological Science - Botany (BOT) (BIOL)
- Biological Science - Botany (BOT) (BIOL)
- Biological Science - Entomology (ENT) (GENET)
- Biological Science - Microbiology (MICRB)
- Biological Science - Zoology (ZOO)
- Biologie (taught by the Faculté Saint-Jean) (CHEM)
- Chimi (taught by the Faculté Saint-Jean) (CHEM)
- Computing Science (CMPUT)
- Earth and Atmospheric Sciences (formerly Geography and Geology (EAS)) (ENVPS)
- Environmental Physical Sciences (ENVPS)
- Geophysics (GEOPH)
- Immunology and Infection (MINI)
- Laboratory Animal Management (LB AN)
- Marine Science (MA SC)
- Mathematical Physics (MA PH)
- Mathematics (MATH)
- Mathématiques (MATHQ) (Faculté Saint-Jean)
- Neuroscience (taught by the Faculty of Medicine and Dentistry) (NEURO)
- Paleontology (PALEO)
- Pharmacology (taught by the Faculty of Medicine and Dentistry) (PMCOL)
- Physiology (taught by the Faculty of Medicine and Dentistry) (PHYSL)
- Physics (PHYS)
- Physique (PHYSQ) (Faculté Saint-Jean)
- Psychology (PSYCO)
- Science (SCI)
- Sciences de la Terre et de l’atmosphère (SCTA) (Faculté Saint-Jean)
- Statistics (STAT)
- Statistique (STATQ) (Faculté Saint-Jean)

#### 195.2 Prerequisites

Where a prerequisite is stated in a course description, it is understood that equivalent courses may satisfy the requirement. Also, the department offering a course with prerequisite requirements may waive the prerequisite in written. (Prerequisite waiver forms are available from the Faculty of Science office and the Department offices.)

#### 195.3 Course Exceptions

##### 195.3.1 Biochemistry Courses

All BIOCH courses can be used by students in the Faculty of Science as science courses.

##### 195.3.2 Cell Biology Courses

All CELL courses can be used by students in the Faculty of Science as science courses.
195.3.3 Food Science Courses

NU FS 363 may be used by students in the Faculty of Science as a science course in Microbiology.

195.3.4 Human Geography/Planning Courses

HGP 470 may be used by students in the Faculty of Science as a science course.

195.3.5 Medical Microbiology Courses

All MMI courses, with the exception of MMI 133, may be used by students in the Faculty of Science as science courses.

195.3.6 Neuroscience Courses

All NEURO courses may be used by students in the Faculty of Science as science courses.

195.3.7 Pharmacology Courses

All PMCOL courses, with the exception of PMCOL 300, may be used by students in the Faculty of Science as science courses.

195.3.8 Physiology Courses

All PHYSL courses, with the exception of PHYSL 600, may be used by students in the Faculty of Science as science courses.

195.4 Graduate Courses

Courses numbered 500 and up are restricted to graduate students and normally may not be taken for credit by undergraduate science students without prior written permission by the Senior Associate Dean or designate.

195 Certificates

The Faculty of Science offers certificates to graduating students which formally acknowledge that students have studied particular themes. These themes can be concentrations within a discipline, or subjects that cross interdisciplinary boundaries.

Normally the requirements for the certificates can be completed as part of the requirements for the degree; however, in some cases, a student may need to take more than the minimum required for his or her degree program in order to qualify for both the degree and the certificate. The following certificates are available:

Certificate in Computer Game Development:

The Certificate in Computer Game Development is a joint certificate offered by the Faculties of Arts and Science and is open to any undergraduate student at the University of Alberta. The certificate complements discipline-specific studies with courses that provide opportunities to work in multidisciplinary teams, build complete small and medium-scale games, and interact with industry.

Details of the courses and other requirements for the certificate can be found in §44.16.1 of the University Calendar in the Faculty of Arts Programs.
